Please Send Remittance on All Orders

NOTE: If this order contains any RICHARED DELICIOUS TREES, Agreement on Page 4 in our Spring 1929 Catalog must be signed, and sent along with this order.

Answer these Questions — It will help us fill your Order —

Write Yes or No

In case price is wrong or changed Shall we fill exact amount ordered and adjust the price later?

Shall we fill for amount of Money sent?

May we substitute equal or better?

Use the Other Side of This Sheet if Needed

In writing us please don't put your letter on this sheet with order. Put your letter on a separate sheet so we can answer your letter while the order is being filled and will not delay order or letter.
New Low Prices!
This year prices are lower than ever on many items in this catalog. Notice the new low price on my Perennial Collection and other Hardy Flowers. Never before have I had such fine Roses at such low prices. In our nursery department we are offering wonderful values that can't be beat. Be sure and send an order this year.

Dear Friends:
Here is my big 1929 Bargain Spring Catalog. I honestly feel this is the best catalog that I have ever issued. The prices, considering the quality of merchandise that I have to offer you this year, are certainly right. I will appreciate an opportunity to care for your requirements this year of 1929. The confidence that you people have in me and our institution has given us the greatest possible satisfaction.
I want to thank you one and all for your loyal support, your splendid assistance, not only in business, but in writing to the Radio Commission, your letters to Congressmen, and your efforts in our behalf to secure a square deal for all.
Come and visit us. See our entertainers. Let’s shake hands and say 'Hello’, not only through radio, but personally. This will give you people a chance to talk back.
I hope that there will be something in this book that will interest you, and I want to assure you that I am organized as never before to take care of your requirements in the way of promptness in shipment, and will appreciate your orders and hearing from you regarding any other matters that you care to write about.

Sincerely yours,

Thousand of Bargains for You
I Want the World to Know About My Wonderful Stock and Marvelous Values

For 1929 I have more bargains than ever before. I can help more people and still be of greater service to my regular customers. We have made preparations to serve everyone in the most efficient manner.

But, not only can I save you money on nursery stock and seeds—now I can do the same for you with tires, radios, paints, coffee, etc. Look them over, see the low prices. Turn through the different departments of this catalog. Everywhere you will see how you profit from my direct selling methods. There is no middleman’s profit — that profit goes to you. Whether it is plants or seeds, paints or tires, programs or talks, the things that come from the home of KMA are the best.
RICHARE—My New APPLE

The Best Red Apple I Know of
For The Central West

Friends, I am glad to recommend to you this new apple you have heard me tell about over the radio. It was discovered out in the State of Washington and has been propagated now for a period of time. It has borne through four generations, giving wonderful results.

It Is the Greatest Apple Discovery Ever Made

Has early color, double red, good keeper, can be picked early, and there are no windfalls. It colors solid red and can be picked while "hard ripe." It is identical with the common Delicious in shape, size, flavor, and ripening period.

We are growing it in our own nursery, and it is a vigorous grower. A picture of this remarkable apple is on the inner front cover of my Catalog.

County Agent, A. R. Chase, of Wenatchee, Washington, distributed a box of Richared Delicious which had been held in cold storage for about 15 months, and the apples were in perfect condition.

Just Read These Letters

State of Washington
DEPARTMENT OF AGRICULTURE
OLYMPIA

Gentlemen:
I was pleased to see your exhibit of Richared Delicious apples at Wenatchee as they were the best appearing apples I have seen, also was pleased to observe the keeping qualities of the apples which you displayed as they were still crisp, which is unusual for an apple of that type.

I will likely be in the market for about seventy-five apple trees and would like to have your quotations on them.

Very truly yours,
F. L. Grimer
Supervisor of Horticulture, State of Washington

Oct. 8, 1927.

Mr. Grimer owns an orchard and is a keen student of orchard problems.

Queen Marie Enjoyed Richared

Queen Marie and Princess Ileana of Roumania were presented a box of Richared Delicious by the Wenatchee Chamber of Commerce when they visited the United States in 1926. This will give you some idea of how the people of that city felt about the merits of this wonderfully double red, Juicy Apple, Supreme.

Nearly every apple on the tree will be Extra Fancy grade, and in addition will have better storage qualities.

Order Now

Orders, Orders, Orders for Richared Delicious are pouring in. We have a fine lot of healthy, thrifty, well rooted trees ready for delivery, and have the exclusive distribution of this tree in the Central West. Do not confuse Richared Delicious with any other apple. ORDER NOW.

I Take Great Pride in Growing Better Trees at Lower Prices

My customers obtain a value that only many years of propagating and improving of varieties can give. During the many years I have been in business I have been constantly striving to develop unusual standards of quality. I think I have. No better trees than mine can be bought anywhere.

We have tried out all varieties of trees, new ones included. We have observed just what they will do right here in our nurseries. So we can offer you today fruit trees which have my endorsement. I will sell only tried and tested varieties which you may place your complete confidence in. There is no getting around it. They will bear better fruit. Planting Book comes with every order.

APPLES

What you are looking for is good Apples. I can furnish you with them. The returns you will get from my good Apples will be steady and sure. I grow only tried and tested varieties. All the trees that I sell are two years old and have three year old roots. They are sure to grow with the usual necessary care.

Summer Apples

Although we list both large and small sizes of trees, let me recommend the planting of our 4 to 6 feet Apples and Cherries. These are particularly vigorous with heavy roots, and we know from experience that they will do better over a period of years than the small sizes.

BENONI. A very fine Summer eating and dessert Apple. Early bearing. August. Medium size, orange-yellow, red striped.

EARLY HARVEST. Pale yellow; season July. Very fine for eating and cooking. One of the very best Apples for home use. Annual cropper.

YELLOW TRANSPARENT. Skin clear white, yellow when ripe. Very tender, juicy; good eating and cooking. Early market variety. Bears when very young. Tree hardy. Fruits in July.

Age of Bearing—Distance to Plant

As the age of bearing depends so much upon variety, soil, climatic conditions and care given, this can only be an approximate table under average conditions. To ascertain the number of trees or plants required for any given space, multiply the length of the space by the breadth to ascertain the number of square feet contained therein. Then multiply the distance apart you intend to set your rows by the breadth to ascertain the number of square feet each tree will require and the result is the quantity of trees or plants required for that given space. Example: Given space 20 feet by 10 feet. Asparagus set 2 feet by 1 foot. 20 by 10 equals 200 square feet. 2 by 1 equals 2 square feet. 200 divided by 2 equals 100 roots.

My Personal Guarantee Is Back of Everything I Sell
### Autumn and Early Winter Apples

**See Prices Page 5**

PAMEUSE. (Snow Apple.) Flesh snow-white. Excellent flavor. Tree quite hardy. Season November to January. Eating, cooking, market.

WEALTHY. Best known of all Fall Apples. Valuable and extensively grown everywhere. Free from disease and long lived. Fruit bright red; quality excellent. Its planting increases every year because it pays. It fills the gap of ripening between Duchess and Jonathan.

MAIDEN BLUSH. Fruit medium to large. Pale yellow with crimson blush. Best for cooking.

### Winter Apples

**See Prices Page 5**

Winter apples deserve a place in the home orchard as well as the summer varieties. There is no fruit more delicious for eating and cooking. Because these varieties keep longer they are also the principal commercial Apples throughout the country. There are extra profits in Apple growing and I hope you take advantage of them with my trees.

Of hundreds of varieties we offer you only those which we know through years of experience are such that Apples can be grown, they will yield good crops yearly.

HYSLOP. Large, deep red. Ripens in September. Excellent quality, fine for preserving. A fruiting tree of Hyslop is a beautiful sight.

RED SIBERIAN. Season, September. Beautiful red. Grows in clusters and tree bears very young.

WHITNEY. Fruit large. Light yellow shaded and striped red. Good for dessert and cooking.

All my Fruit Trees are Well Rooted, Sturdy, Plants
MONTMORENCY, Dakotas. South of the Iowa line, varieties such as ENGLISH MORELLO. budding.

This is the earliest of the

EABLY RICHMOND. This is the earliest of the sour varieties. Very fine for pies, dessert, cooking and canning. Ripens in June. Beautiful red color.

MONTMORENCY. Just two weeks after the Early Richmond starts ripening. Montmorency comes on. It is the largest Cherry of the sour varieties. Better for canning on account of its size and quality. Most popular market variety. It is the largest Cherry of the sour varieties. Bet¬

ENGLISH MORELLO. This is the variety with the rich, red color. Very sour. Especially good for canning. Too sour to eat out of hand. This tree in my own yard and know how fine it is. I have grown this tree for years and it is the only real stock that I know of through this section of the country. It has been fruiting now for the past seven seasons.

Here is a chance to have some fine, yellow. Sweet Cherries along with your sour red varieties. 3-4 ft. budded, $1.00; 4-5 ft. budded, $1.25.

May's Fine Cherries

FOR PIES AND CANNING

See Illustration In Color On Inside Front Cover

REMEMBER the good old-fashioned Cherry Pies? At the mention of them my mouth waters. Pies like that are not possible unless you have good and fresh Cherries. I can supply you with good trees to grow them.

No variety of Cherries should be planted less than a tree or two of both the sweet and sour varieties. They are easy to grow and very prolific. Exclusively no pruning is necessary except for the formation of a head. Sour varieties should be planted 15 feet apart each way, while the sweet varieties should be about 20 feet apart.

SOIL:—The Cherry, being a hardy tree, will thrive in the northern states in nearly all good soils. However, a dryer soil than for most other species is found preferable, a sandy or gravelly loam is best. In wet places, or on water-soaked subsoils, it does not flourish but soon perishes.

Sour Cherries

SOUR Cherries are of slower growth, do not attain so large a size and are more hardy, than sweet varieties. As a rule they are more profitable commercially than the sweets. May's cherry trees are all budded.

Yellow Glass Cherry

Ilustrated Above

The Finest Sweet Cherry

I Can Grow

Yellow Glass is the harpest Sweet Cherry. A sister to the Schleihahn. A beautiful golden-yellow, deliciously sweet, and hardy as far north as Des Moines. Ripens two weeks later than Richmond. Meat is solid and juicy. If you have ever tasted Sweet Cherries you will want a Yellow Glass in your yard. I have grown this tree in my own yard and know how fine it is. The large Yellow Glass Cherry in my yard is the only real stock that I know of through this section of the country. It has been fruiting now for the past seven seasons.

Here is a chance to have some fine, yellow. Sweet Cherries along with your sour red varieties. 3-4 ft. budded, $1.00; 4-5 ft. budded, $1.25.

Spray Schedule for Apples

1. Dormant. Use 12 pounds dry Lime-Sulphur to 50 gallons of water if scale are present. Apply in March and April before growth starts.

2. Cluster Bud. Use 3 to 4 pounds dry Lime-Sulphur and 1½ pounds dry Lead Arsenate to 50 gal¬

3. Calyx. Use 2½ pounds dry Lime-Sulphur and 1½ pounds Dry Lead Arsenate. Apply when 50
cent of petals have fallen. Apply when 95 per cent of petals have fallen.

4. Side Worm. Use 2½ pounds dry Lime-Sulphur and 1 pound Lead Arsenate to 50 gallons of water. Apply 10-14 days after Calyx spray.

5. Cider. Use 2½ pounds dry Lime-Sulphur, 1 pound Lead Arsenate (dry). Apply about July 20th to August 15th. Spray Fall and Winter Apple plums only. The worms are bad, add another spray about August 15th to 20th.

NOTE.—In the sections where Apple Blotch is found, add a spray of 2½ pounds dry Lime-Sulphur two to three weeks after Side Worm or No. 4.
May’s Thrifty Plums

Plums are a good tree to plant for quick results. They are easy to grow and do well on any land that is not too wet.

My trees will yield you big returns in fruit. They are hardy and longer lived than those on Peach roots. I offer a select list of varieties chosen for their size, appearance and the flavor of their fruit. All of the trees have strong growing characteristics.

Plant these trees 20 feet apart each way. The fruit should be thinned, as practically all varieties overbear, and if all fruit is left on the tree the limbs may break and the rest of the fruit will develop small.

SOIL:—The best soil, usually, is a strong, rich, clay loam. On many light soils the tree grows with less vigor, independently of which the crop is more frequently destroyed by the curculio, a porous soil affording a more ready place of shelter for the young insects on their escape from the fallen fruit. A few varieties are well adapted to rather dry as well as light lands. Application of potash and ground bone, as with other fruits, is of advantage in increasing the fruitfulness of the plum.

CULTIVATION: In planting orchards a suitable distance is one rod apart, giving one hundred and sixty trees to the acre. The ground should be mowed and kept well cultivated as the plum, especially when young, is sensitive to the effects of the weeds and grass of neglected culture.

Hansen’s Hardy Hybrid Plums

APRICOT PLUM or HANSKA. Crossed with the Apricot Plum of China and the American wild plum. Apricot flavor and yellow flesh of excellent quality and color. A wonderful eating Plum.

OPATA. Fruit is purplish red, green flesh, thin skin and small pit. Extremely early. Pleasant flavor, sweetly acid. Plant Sapa and Opata together in order to cross-pollinate, thus producing a larger fruit crop.

SAPA. Sapa is a sister Plum of Opata. Rich purple skin, and purple meat. Prof. Hansen personally told me it was the bloodiest Plum of all Plums that have ever been introduced. Rich with juice. Ripens early.

WANETA. Early bearer; size, 2 inches in diameter. Large red Plum, excellent quality. Good for eating from the tree.

New Minnesota Hybrids

UNDERWOOD. Tree extremely vigorous, hardy and productive. Fruit is large, roundish—oval, juicy, firm, greenish-yellow overlaid with rich red. Hangs well to tree. Ripens very early and continues over a long period. Semi-cling. Quality excellent.

See My Bargains In House and Garden Plants Page 42-43
May’s Reliable Pears

My Pears are the best that money can buy. I can furnish both the standard and dwarf varieties. My dwarfs are budded on quince roots, the best French stocks available being used. The branches of these Dwarf varieties should be left within a foot of the ground.

Pears, Standard

Summer Pears

BARTLETT. By this Pear all others are judged. Bears early and abundantly. Waxy yellow when ripe. Juicy and melting flavor. Can furnish in either the Standard or Dwarf. Bartlett is my choice for high quality.

Autumn Pears

SECKEL. Often called Sugar Pear because of its delicious sweet flavor. Is one of the best dessert and luncheon Pears grown. One of the smallest Pears, but one of the sweetest.

The Best Winter Pear

KIEFFER. The Kieffer is a very abundant, prolific Pear. Golden yellow when ripe, and will keep until January. The Kieffer is one of the most blight-resistant Pears for the Middle West, and should be in everyone’s orchard. The Kieffer is one of the most popular Pears in Iowa, Nebraska, Illinois, and Missouri. Special Price: 3-4 ft. 50c each, 3 for $1.35; 4-5 ft. 65c each, 3 for $1.80.

May’s Plum Collection

1 Waneta
1 Sapa
2 Terry
1 Omaha
1 Minnesota Hybrid Plum
All will be 4-5 feet in height.
2 yr. branched trees. Catalog value—$3.60.

Special Price: $3.15
These 6 for Customer to pay express or freight

Chinese Apricots

The hardest Apricot! A novelty. Fruit large, two inches in diameter. Pale yellow and the half exposed to sun overlaid with red. We have the only stock in this part of country.

All My Fruits Are Well Rooted, Sturdy Plants, Grown in My Own Nursery
Peaches

Trees for This Year's Shipments are the Finest I Can Grow

If you can possibly plant peaches, let me recommend that you do so. Because they are small growing trees, it will not be difficult for you to find room for them in your yard. You will have fruit that is fresh right at the time for canning. And, peach trees will be attractive in your yard. Everyone knows how beautiful are their blossoms.

How to Plant Peaches

SOIL: As a general rule, soils which afford good farm crops, and which have well drained subsoil, are adapted to peaches. On a strong loam the trees grow with more uniform luxuriance and they live longer than they would on light, sandy or gravelly soils. Even a compact clay may be made suitable by thorough underdraining and mellow cultivation.

CULTIVATION: While the trees are small, the intermediate spaces between the rows may be cultivated with low-hoed crops. Afterwards, it will be found best to keep the ground perfectly clean and mellow by plowing and harrowing. Where soils are very shallow, top-dressing with manure in autumn and frequent harrowing have been found best; the roots being thus brought near the surface. Only when soils are deep and fertile, can a plow be used without danger of injury.

My Pick of the Peaches

CHAMPION. White freestone. This is the standard quality white Peach. Taste satisfying. Ripens 14 days before Elberta. Eating, cooking, canning, market.

ELBERTA. Freestone. By this Peach all others are judged. Large, yellow with red cheek. Very prolific. Hardy. Ripens August 15th to 20th. The fruit of Elberta can be gathered when hard and ripens up evenly without rotting.

Mulberries

Mulberries are very much relished by poultry. A few trees planted in the poultry yard, also next to the orchard, will supply fruit for the birds and poultry. The birds prefer Mulberries in place of Cherries.

MAYFLOWER. Clingstone. Mayflower is the earliest Peach, has good size and fine color, being red all over. The earliness and richness of coloring make Mayflower a very valuable Peach for the market. A very young bearer, often having fruit the first year after being planted. Blooms late, thus escaping late frost, and is very prolific.

ROCHESTER. New yellow freestone. Very prolific. Fruit ripens the latter part of July.

BUSH Fruits come into bearing when young and yield profitable crops just at the time of the year when something to market is needed. Certainly no home garden is complete without a few of each of these varieties. You can have fresh fruit on your table throughout the season.

All Gooseberries, Currants, Dewberries, Raspberries and Blackberries are prepaid.

Gooseberries

Best for the Middle West

Gooseberries like a cool, moist loam in partial shade, and good mulch. Gooseberries are one of the most useful of all small fruits for the Middle Western territory.

**Downing Gooseberry**

**Josselyn.** A wonderful cropper, with bright crimson, healthy foliage. Large size, and prolific.

Dewberries

**Lucretia.** The Dewberry is a low-growing, trailing Blackberry; vigorous and healthy; very productive. Needs a little Winter protection in the Middle West. The fruit, which ripens early, is often 1½ inches long, very sweet and luscious throughout.

Red Varieties

**Cherry.** Large, red berries on short cluster. Robust, fruitful sort.

**Fay's Prolific.** The leading market Currant. Extra large stems and berries. Uniform in size and easily picked.

**White Grape Currant.** Berries hang in beautiful white clusters; excellent quality and fine for table use. Sweet or mild acid flavor.

**Improved Perfection.** A cross between Fay's Prolific and White Grape; a beautiful bright red, larger than Fay's Prolific. Long stems, easy to pick. You can pick a basket of Perfection Currants as quickly as you can a basket of Early Richmond cherries. 2-yr., 35c each; per 10, $3.00; per 25, $6.50. 1-yr., 25c each; per 10, $2.50; per 25, $4.50.

You Can Depend on Earl May to Send You Good Plants
Grapes for Northern States
See colored illustration on third cover page.

**Beta.** Beta is a medium sized black Grape, quite acid, very early, prolific and healthy, and does exceptionally well far into Minnesota, and on this account is used in the northern tier of counties in Iowa. It is a very fine Grape for jelly, grape juice and wine. Beta is also a splendid Grape to use in covering arbors.

**White Grapes**

**Diamond.** Another seedling of Concord, and is the leading early white Grape. Ripens before Moore's Early.

**Niagara.** This is the standard white Grape, occupying the same position among the white varieties as Concord among the blacks. Bunches and berries large, green changing to pale yellow when fully ripe. Excellent for arbors.

**Pocklington.** Beautiful golden color when ripe. Ripens late and keeps well. Very juicy and tender, with but little pulp.

**Red Grapes**

**Agawam.** Berries large, thick skinned; excellent for wine making; Closely follows Concord.

**Catawba.** This is a very fine table and wine Grape. When ripe is a dark copper color; has a sweet, musky flavor.

**Delaware.** This is an elegant little dessert Grape, handsome, reliable, very highest quality; sweet and juicy.

---

**Grow Your Own Grapes for Juice and Jellies.**

**Caco—the Wonderful Red Grape**

See colored illustration on third cover page.

**Caco.** A novelty in Grape vines. The new introduction originated in Delaware. A cross between Catawba and Concord. This is a perfectly hardy variety that has been pronounced by America's most expert growers of Grapes to be the most delicious, equaling in quality the finest variety grown in greenhouses. The wonderful Caco can be grown in the back yard without much attention. Has a large wine-red berry hanging in bunches of good size ripening ten days to two weeks before Concord. Caco has been awarded a medal of merit by the American Institute of New York which is the highest honor that can be conferred on a variety of fruit. I cannot recommend Caco too highly. 2-yr., 60c each; $2.75 per 5; $5.00 per 25; 1-yr., 40c each; $1.75 per 5, $3.00 per 10.

---

**The Culture of the Grape—Continued**

**Grape Vineyards**

Rich soils produce a strong growth of canes and leaves at the expense of the fruit, and render the wood more liable to winter-killing. It is not known that this strong growth of leaves is much better than to have a considerable proportion of clay in the soil, provided there is a perfect underdrainage, is better than light sand or gravel. The most successful vineyards are planted along the borders of large open waters, where the soil is composed of what is termed "drift," giving a perfect natural drainage.

**How to Plant Grapes**

In the vineyard it is a common practice to place the lines of trellis eight feet apart, and the vines twelve feet from each other along the line of trellis. This distance appears to answer well; but some of the best growers give at least twelve feet each way, and others as much as sixteen feet. The space thus given not only tends to a more healthy growth and freedom from mildew, but it develops larger, finer, and more perfect grapes. For the home orchard, eight feet each way is about right. Make the soil mellow and plant the vines 10 to 12 inches deep in holes large enough to admit roots without curling them, pressing soil solid about roots. Cut vines back to within three or four buds of the roots.

**Grape Spray**

Grapes should be sprayer with Bordeaux mixture. Use 4 pounds blue stone, 4 pounds lump lime and 50 gallons of water for Grapes, and add 1 1/2 pounds dry lead arsenate to 50 gallons water. This will control anthracnose, mildew and all leaf-eating insects.

*Caution.* Do not use lime-sulphur in spraying Grapes.

**When to Spray**

1. Just before blossoms open.
2. After blossoming, when the Grapes are the size of small shot.
3. Two weeks after No. 2.
4. Ten days to two weeks after No. 2.
May's Strawberries
There Are None Better

Everybody likes strawberry short cake and strawberries with cream. The bigger and richer the strawberries, the more they are enjoyed. I want you to grow some of my perfect varieties. They are the best plants you can get anywhere. You will have plenty of fine berries for your table and many more for making jam.

The best time to plant strawberries in the Middle West is from the 15th of March to the 25th of April, depending upon locality and weather conditions. We can ship them until April 25th. Our plants are fresh, spring-dug and dug only before the moment they are shipped. Order early because the plants cannot be shipped without damage during warm weather.

Plant strawberries in well-drained soil. A springy land that is well-drained is the ideal soil. Soil in which such crops as potatoes, corn, onions and cabbage have previously been planted is well adapted to Strawberries.

June or Spring-Bearing Varieties

No. 1 strong plants, fresh dug, 45c per 25, 65c per 50; $1.25 per 100; $2.25 for 200; $4.00 per 500; $7.00 per 1,000, delivery POSTPAID.

AZOYA. Large, dark red. Late. This is a good pol-lenerizer for other varieties. Perfect flower.

SENIOR DUNLAP. A strawberry without a fault. Perfect flower. Medium early; very large and red.

May's Everbearing Varieties

Everbearing Strawberries bear heavily in the spring and fall and in favorable weather bear off and on throughout the entire summer. There are now three of the Everbearing varieties which do well here in the Middle West, the Mastodon described below, and the following:

MAY'S CHAMPION. Big in size. Big in yield. Rich in flavor. More drought resistant than other ever-bearers. It is old enough and well enough established throughout the country so that it is not an experiment. 70c per 25; $1.25 per 50; $2.25 per 100; $4.25 per 200; $8.75 per 500; $15.00 per 1,000, delivery POSTPAID.

MAY'S IMPROVED PROGRESSIVE. Berry resembles Dunlap in color and shape. Good yielding and one of the first successful everbearing Strawberries introduced. By planting the Improved Progressive it. Order early and get it at these new low prices.

How to Plant Strawberries

TOO DEEP TOO SHALLOW JUST RIGHT

Push spade into ground to its full depth in spot where plant is to be. Rest it to one side. Insert roots and spread them out in fan shape and hanging down to their full length. Set plant with crown at surface or a little below it. (See illustration.) Brush spade and press dirt against roots by placing foot on either side of the plant and tramping lightly with ball of feet. Leave loose soil around plants.

Remove all old leaves, leaving two or three younger ones. Extremely long roots may be cut back. Carry plants in pail of water. It will pay to water each plant after planting.

MAY'S EVERBEARING MASTODON
The Finest Everbearer I Can Offer You

Let me assure you that you will want some of my genuinely perfected MASTODON Strawberries. This great everbearing strawberry, only developed a few years ago and now surprisingly well known, has been tested in my nurseries the past several seasons. I am convinced from the test results that it is the best and the most prolific of all strawberries. Authorities all over the country are saying the same thing.

From practically every section of United States come glowing reports about this strawberry. In some places it is said that this plant of the berry family produces three to four times as much fruit in a season as any four other varieties combined.

Friends who used my MASTODON last year are exceedingly enthusiastic about it. It has produced on our grower's farm, 1,356 crates of strawberries on four acres.

I know that this MASTODON is all that I claim it is. The plants are large, vigorous, and well-crowned. The berries are world-beaters. They are big, dark red, solid and deliciously flavored. They are showy on the market stand. This MASTODON also outyields spring-bearing varieties for the regular June crop and keeps on bearing all summer. When fall rains come they start right in and bear another crop during September and October. It is not uncommon to find a plant with a 100 berries on it.

Give my MASTODON a chance and it will do all these things for you and probably more. It will bear the first year. It will not be hurt by light frosts. One year old plants sprinkling up in the patch can be used to start a new bed. You will agree with me about MASTODON when you try it. Order early and get it at these new low prices.

NEW LOW PRICES ON MASTODON: $15.00 per 500; $9.50 per 200; $2.75 per 100; $1.50 per 50; $1.00 per 25, postpaid.

The Old Reliable Senator Dunlap

you will get berries clear up until snow flies. 600 per 25; $1.10 per 50; $2.00 per 100; $3.75 per 200; $5.00 per 500, POSTPAID.

Mastodon
ASPARAGUS ROOTS
Grow Your Own Asparagus—It's Better

Home grown Asparagus is particularly good for your health. You should grow some varieties of this rich and tender vegetable.

My Asparagus plants are heavy and vigorous, grown on the very best of soil and are sound and healthy. Under ordinary circumstances you should be able to cut stalks from my plants during the first year. Do not plant in wet soil. Plant deep enough so the crowns will be covered by three to four inches of rich soil.

Common varieties, 1-yr., strong plants, 20c per 10; 45c per 25; $1.40 per 100 postpaid. 2-yr., heavy, will make tops for table first year, 30c per 10; 60c per 25; $2.00 per 100, postpaid.

CONOVER'S COLOSSAL. Rich and tender shoots. Green stems.

NEW WASHINGTON RUST PROOF. The best in Asparagus; it is a rust resistant strain. My stock is of the highest quality plants. If you want a choice bed of Asparagus, try this New Washington. 2-yr. old plant roots, 45c per 10; $1.00 per 25; $3.00 per 100. 1-yr. 30c per 10; 60c per 25; $2.00 per 100. Seed, pkt. 10c; oz., 25c. Both roots and seed postpaid.

RHUBARB [Pie Plant]
The first thing in the Spring to furnish material for pie and sauce. Its health-giving, tonic properties make it invaluable as a Spring regulator. Easy to grow. Should be in every home garden. Plant in rows 4 feet apart with roots 3 feet apart in row.

MAY'S NEW SEEDLESS. Practically seedless. Guaranteed to produce the first year. I realize the price on this is high but May's New Seedless Rhubarb is propagated from root stalks only. You will be pleased with the results from this Seedless variety.

VICTORIA. This is the largest and best of the seeded varieties. Good, heavy stalks, juicy stems. 10c each; 4 for 25c; 45c per 10; $4.00 per 100, postpaid.

Chives
Grown for their mild, onion flavor for sausages, salads, etc. 3 for 15c; 50c per 12, postpaid.

Sage
One of the best herbs for seasoning. Good, strong roots. 15c each; 2 for 40c; $1.25 per 10, postpaid.

WATER LILIES
Easy to Grow in Tubs or in Pools

There is a lure about water lilies which makes them one of the most fascinating flowers to grow. Few people realize how beautiful water lilies are or how easy they are to grow. The water garden requires no weeding, no hoeing, no watering. Simply plant the lilies and watch them grow. The tub garden is the simplest water garden of all to have, requires no weeding, no hoeing, no watering. Simply plant the lilies and watch them grow. The tub garden is the simplest water garden of all to have, and yet one of the most fascinating. Any container such as a tub or half barrel is suitable to use in it you may grow and enjoy water lilies and other aquatics. Usually it is best to sink the tub in the ground. Then you can plant other flowering plants around the edge of it and altogether have a perfect garden in a very small area. When rocks are available it always adds to the attractiveness of the tub garden, to plant a few around the outside of the pool and plant rock-loving plants between them.

We handle only the hardy varieties. These are perennial but they will not stand freezing. For pools plant them in a pail, using very rich soil, the richer the better. We use one-third well rotted cow manure and two-thirds rich garden soil and a little cow manure or horse manure may be substituted for cow manure, one quart to a bushel of soil. Place the tuber in the soil until only the crown from which the leaves start, protrudes. Weight the tuber down with a small stone so that it will not float, and sink your pail in the soil. The water should cover the crown 8 inches.

In winter, store the pails in a cool basement or cellar away from heat. The roots must not dry out. The Lilies multiply rapidly and should be divided every three years. When Lilies are planted in pails or small boxes it is best to renew the soil about the roots each

New Washington Asparagus

Horse Radish
The good old kind that doesn't need a description. Crowns, 15c each; 5 for 60c; 10 for $1.00. Cuttings, 25c per 10; $1.50 per 100.

May's Water Lilies Cause Much Excitement
August 21, 1928.

Dear Sir:
The water lily, Marliacea Rosea, that I received from you this spring is sure something fine. I don't think there is any one thing in the neighborhood that has caused as much excitement as my lily.

Yours truly,
F. L. Compton, Mason, Wis.
**MAY'S Ornamental Shade TREES**

**A** ll trees add beauty, comfort and value to a home, but ornamental trees offer the same things in greater amount. I can supply trees in quantity for parks, cemeteries, street planting, and have a fine lot of Specimen Memorial Trees. Write for quotations on varieties not listed here.

**Bechtel’s Flowering Crab**

This is the ELM, NATIVE AMERICAN WHITE. Our finest variety. Called by CATALPA BUNGEI. A hardy tree suitable for planting in this latitude, of medium size, smooth bark, headed, dense and regular. The tree is covered from July until winter with large clusters of bright red berries which make it a very desirable ornamental tree. You should plant some of these trees this spring as they are rapid growers and will develop fast and will increase the value of your property.

**NOTE:** Transportation charges are prepaid on all orders for Ornamental Trees amounting to $10.00 or over. Orders under $10.00 by freight or express at customer's expense.

**CHINESE ELM**. A new, quick-growing tree from Asia. Forma a very dense head. Extremely large. Smaller, darker leaves than the American Elm, which stay on the tree much longer in the autumn. The branches form almost right angles with the trunk. A hardy, attractive variety for planting on the lawn. 5-6 ft., $1.25 each, $3.25 per 5; 6-8 ft., $1.60 each, $4.00 per 5.

**MOLINE ELM**. A distinctive, attractive type of Elm, which we propagate entirely by budding in order that the beauty of the original form may be retained. This variety is from a tree found growing near Moline, Illinois. The young tree is very rapid and erect in growth, producing an appearance somewhat like a Lombardy Poplar, with leaves often 6 inches across. 6-8 ft., $1.65 each, $7.00 per 5; 8-10 ft., $2.10 each, $9.00 per 5.

**VASE SHAPED ELM**. This is another Elm which we reproduce entirely by budding, so as to retain the unusually graceful form of the original—a true vase-shaped tree. The young trees are very fast growers, much more so than common seedlings, and all strictly uniform in habit, showing the vase-like habit even in the nursery rows. We recommend its use in landscape and boulevard plantings where grace, dignity, uniformity and rapid growth are desired.

**AMERICAN LINDEN**. Basswood. A pyramidal growing tree with large leaves and fragrant flowers. Valuable for street and lawn planting as these trees develop into beautiful specimens. A rapid grower and perfectly hardy; a desirable addition to any lawn planting. 5-6 ft., $1.25 each, $5.60 per 5; 6-8 ft., $1.60 each, $6.25 per 5.

**MAPLE, HARD or SUGAR**. Maple turns a beautiful golden yellow in Autumn. Fine for lawn and avenue planting. 6-8 ft., $2.25 each, $10.00 per 5; 8-10 ft., $2.95 each, $13.75 per 5.

**Catalpa Bungei Along Entrance Walk**

Seedlings for Your Woodlot, Fence Posts and Windbreak, at Lowest Prices, Page 19

MAPLE, NORWAY. A native of Europe. Beautiful foliage. Very similar to the Hard Maple.

Lombardy Poplar. Growes to an immense height, and bears large leaves, very symmetrical. It branches out close to the ground and for this reason is fine for screen purposes. In landscape work, breaks the monotony of the lower, round-top trees.

CAROLINA POPULAR. One of the most rapid growing trees adapted to this territory. It has large handsome glossy deep green leaves. When properly trimmed up, it makes a spreading head and in landscape work, breaks the monotony of the lower, round-top trees.

CAROLINA POPULAR. One of the most rapid growing trees adapted to this territory. It has large handsome glossy deep green leaves. When properly trimmed up, it makes a spreading head and in landscape work, breaks the monotony of the lower, round-top trees.

Redbud. Grows about 15 to 20 feet. Is a blaze of beautiful bright red flowers in May. One of these in a yard is a sight to behold. It grows wild in the woods through Iowa and Illinois. Our stock is from hardy, vigorous seeds, grown in symmetrical shape and sure to please. 2-3 ft., 70c each; 3-4 ft., 55c each.

Tea Weeping Mulberry

WILLOW, NIOBE, WEEPING. Attractive golden bark. Vigorous grower. Very hardy. 4-5 ft., 50c each; 2-yr heads, 2-3 ft., 65c each; 5-6 ft., 60c each.

WISCONSIN WILLOW, WEEPING. The most useful and popular of Weeping Willows. Hardy. Graceful, drooping habit of growth. 4-5 ft., 50c each; 2-yr heads, 2-3 ft., 65c each; 5-6 ft., 60c each.

MULBERRY, TEA WEEPING. Has a fine, graceful, weeping head. Very hardy. Excellent for planting on the lawn as a specimen tree or in pairs on each side of the walk. The berries are very attractive to birds. One of the prettiest of the small weeping trees. 2-yr heads, 5-6 ft., budded $3.50 each; $6.00 per 2.

How to Plant Shade Trees

Follow this chart. With shade trees having a heavy top, at least one-third of the top should be removed. Prune branches at points indicated by black lines (see illustration). Prune to avoid crowding branches. Cut out some of the small branches, shorten back the side branches, but do not cut off the leader or main stem. Try to get well developed head, strong leader and branches at wide not close angles. Cut off all broken roots.

I Have a Wonderful Supply of Fine Trees This Year; Be Sure and Send in Your Order
MAY'S HARDY ORNAMENTAL EVERGREENS

For the Lawn or Windbreak

My Evergreens are at least 3 times transplanted. That means the trees are specimens, have a many branched root system and will not die out if the weather gets hot. Not small seedling trees but they are dug with a ball of earth and the roots are wrapped in burlap. That's what B. & B. means. These are good plants at reasonable prices. Enjoy that evergreen windbreak. Use them on the lawn. Everywhere for beauty and dignity.

All Evergreens F. O. B. Shenandoah. Boxing Free.

ARBORVITAE PYRAMIDALIS (PYRAMidal ARBORVITAE). Narrow and compact in habit of growth, pyramidal form deep rich green in color at practically all seasons, and hardy. It reaches a height of 15 or 20 feet, usually not measuring more than 2 feet in diameter at the base.

Seedlings for Your Woodlot, Fence Posts and Windbreak—Low Prices

Seedlings I am offering this year are all nursery grown, being produced in our nursery here at Shenandoah. I know how to grow them the best and cheaply. Our soil and climate are particularly adapted to the production of well rooted, thrifty young seedling trees that I am offering below. Every farmer should grow his own fence posts, have a windbreak of shade for live stock or at least a windbreak on the north and west sides of the house. My seedlings are grown for these purposes.

Seedlings shipped F. O. B. Shenandoah except those marked postpaid. Allow 25% additional for postage on 12-18 inch seedlings by parcel post. More than 100, 12-18 inch and all other sizes must go by freight or express. Include these in your fruit tree order of $10.00 or more and I'll pay the express.

Yes—We Will Have Binding Twine—The Price Is Right
Let Us Landscape Your Home FREE!

Hundreds Made Use of This Free Service in Beautifying Their Homes Last Year

I HAVE established a Home Planting Service especially for the benefit of those of my customer friends who wish to beautify their grounds with growing things, but who do not feel that they want to employ a professional Landscape Architect.

By this plan you can spend all your money for nursery products and still have the advantage of the advice and experience of an expert on landscape gardening.

To make use of our free landscaping service is easy. Simply send us a rough diagram of your grounds, giving the dimensions, indicating the building and the location of walks, trees and other planting, if any, and attach any other information you think necessary. The roughest kind of a diagram will be all that is necessary. If you have any photographs or snapshots of your grounds send them along.

Send us this information with a deposit fee of $1. The deposit is your evidence of good faith and we will give you a credit coupon good for the full $1 on an order amounting to $10 or more.

We will send you plans that are easy to follow. Each plan is accompanied by a layout that everyone will understand. These will show you how to go about the work step by step.

These Planting Suggestions Make It Easy to Plant

First, spade up the beds as shown in the drawing. Then space the tall shrubs, such as Lilac, 4 to 6 feet apart; the medium-height shrubs, such as Bridal Wreath, 3 to 4 feet apart; and the dwarf growers, such as Barberry, 3 to 3½ feet apart. Dig the holes of ample size, place the plant, and after filling in the hole two-thirds with top-soil, add water. Allow this to settle, then complete the filling with soil up to the ground level. If it is not convenient to water the shrubs, be sure to pack the soil very firmly about the roots with your feet. Leave a covering of loose soil on the surface to act as a mulch.

Our Shrubs usually come to you pruned ready for planting. Otherwise they should be shortened back by cutting away at least one-third the length of the branches as shown in the diagram on the right. Use no fertilizer except as a surface dressing.

Add a Little to Your Planting Every Year and Don’t Forget the Back Lawn Needs Planting, too.
**Plant Your Home With Dependable Shrubs—It Will Look Better**

I KNOW of nothing which will so quickly, and for so little cost, add so much to the beauty, cheerfulness and homelike appearance of your grounds as an assortment of our ornamental shrubs. They will be permanent improvements to your property and will increase in size and beauty, year after year, with just a little care.

**I Grow My Own Shrubs**

We have been developing good shrubs for a long time and know just how to grow them perfectly. As a result, our stock is all hardy, well rooted, true to the name, and will give satisfaction. We dig our stock in dormant condition, pack it well, cover its roots with moss or sawdust and guarantee it to reach you in good condition.

**We Prune All Shrubs Ready for Planting**

I prune back about half way on almost all the ornamental shrubs you plant. This will allow the roots to successfully establish themselves and produce a more vigorous top growth. We suggest that you do not get too impatient with it and expect it to start blooming the first week after it is planted. Give the roots time to establish themselves.

**SIZE TO PLANT.** We get many questions as to what size to plant. If you plant a 2 to 3 ft. Shrub and trim it back, such as a Hydrangea, you will get blooms the same year. That part of it is up to you, but always rest assured that the heavier the shrub, the more root system it has and the larger caliper, although smaller, it is all hardy, well rooted, true to the name, and will give satisfaction. We have been several times transplanted and will increase in size and beauty, year after year, because they have been several times transplanted and are permanent improvements to your property.

**P R I C E S.** The prices I am making you are very low, considering the grade of stock we are sending out. The question comes up, how can we make such good prices? The important point is that you get your stock direct from the grower. There is no middleman and there are only two people interested in the transaction. First, ourselves; second, you. That is the reason we can make you such reasonable prices for heavy rooted, vigorous stock.

**About Quantity Orders**

For friends who buy more than 1 shrub we are making a lower price on 2, 4, or 12, your choice of varieties. Get your neighbors to order an assortment and secure this price reduction in quantities.

All Ornamental Shrubs are postpaid.

**ALMOND, PINK FLOWERING.** (See illustration in color on this page.) One of the earliest bloomers of all the shrubs. Pretty dwarf bush bearing small pink flowers in great profusion early in the spring, resembling a rose bush in full bloom, but flowers are smaller and cling closely to the branches. 12-18 in., 30c each; 18-24 in., 50c each; 2-3 ft., 70c each.

**ALMOND, WHITE FLOWERING.** Same as the pink except has beautiful white flowers. Extremely hardy, 12-18 in., 30c each; 18-24 in., 50c each; 2-3 ft., 70c each.

**ALTHEA (Rose of Sharon).** These are the color spots for Fall as Lilacs and Weigelas are for Spring. They flower in September in all different colors of red, white, pink and purple. These should not be planted in cold Northern climates. Do not be disappointed in the New Red Leaved Japanese Barberry. 12-18 inch, 2 yr., 20c each; 18-24 inch, 3 yr., 35c each; 2-3 ft., 45c each.

**BUTTERFLY BUSH.** Beautiful racemes of lilac-like flowers appear during July, August and September. In the north, mulch a little over winter. 35c each.

**CYDONIA JAPONICA (Japan Quince).** (See illustration in color on third cover.) This is the shrub often called “Firebush.” When in full bloom it is just like a blaze of fire. Very hardy. Has little thorns on it and grows about six feet tall. 12-18 in., 25c each; 18-24 in., 40c each; 2-3 ft., 55c each.

**NEW RED LEAVED BARBERRY.** Similar in all respects to the green-leaved variety except the foliage is a rich lustrous bronze red. The foliage retains its coloring throughout the entire Summer, becoming more and more brilliant as time goes on until it changes to a vivid orange in the Fall. Must be planted in full sunlight in order to develop and keep its rich red color. You will not be disappointed in the New Red Leaved Japanese Barberry. 12-18 inch, 65c each; 2 for 1.35; 4 for 2.25.

The Shrubs and Plants from May's are Quality Plants—Always
**Deutzia**

Very splendid group of shrubs, varying considerably in height, but all bearing bell-shaped flowers along stems in May and June.

**Deutzia Gracilis.** A slender branching, dwarf-growing, dense, bushy shrub. White flowers in May. 12-15 in. 40c each; 15-18 in. 50c each.

**Deutzia Pride of Rochester.** Earliest blooming in May. Many large, double white flowers. Grows about 6 feet tall. Popular on account of its regal appearance. 12-18 in. 25c each; 18-24 in. 35c each; 2-3 ft. 45c each.

**Dogwood**

A valuable group of shrubs because of their brilliant bark and berries. All thrive in shady places as well as open ground. Vigorous, healthy foliage, growing well on moist soils.

**Paniculata Gray.** Gray branches. White flowers in May. Grows to 10 feet high. A compact grower. 18-24 inches, 40c each; 2-3 feet, 50c each.

**Siberica (Alba).** The one with the coral red bark. I think it is one of the best of all. Several in my own yard are very beautiful. Many white flowers in the Summer: porcelain blue berries on them in the Fall. 18-24 in., 35c each; 2-3 ft., 45c each.

**Vagiegated (Elegansisima).** Silver, gold and green variegated foliage. Branches and bark beautiful blood-red. Very desirable. 12-18 in., 40c each; 18-24 in., 60c each.

**Yellow Barked (Aurea).** Flaring yellow bark. A very beautiful sight when planted along with the red and gray, and shows up wonderfully well. 18-24 in., 35c each; 2-3 feet, 45c each.

**Euonymus**

**Euonymus Alatus.** (Winged Burning Bush). A very novel corky branched shrub. Has rich crimson-red leaves on it in the Fall. Called by some Cork-barked Straw-berry Tree. If you want something in your yard that is unique and different from what your friends and neighbors have, get a Cork-barked Euonymus Alatus. 18-24 in., 90c each.

**Euonymus A. T. O. P.** (Wahoo). Well known, one of the very finest golden-leaved shrubs. Can be pruned to a compact, neat bush. White flowers. 18-24 in., 35c each; 2-3 feet, 50c each; 3-4 feet, 60c each.

**Cut-leaved.** Deeply cut, dark green, fern-like foliage. Grows about 6 to 8 feet tall. 18-24 inches, 35c each; 2-3 ft., 45c each.

**Robleed.** White flowers in panicles in the Spring. Bright red berries in the Fall turning to flaming red buds in winter. Quite attractive for Winter decoration. 18-24 inches, 45c each; 2-3 feet, 60c each.

**Exochorda.** (Pearl Bush). Grows vigorously about 8 to 12 feet. The early buds look like pearls strung on slender threads, in May opening up to long, gleaming sprays of pure white. A wonderful sight on a lawn. 18-24 inches, 50c each; 2-3 feet, 65c each.

**Hazel.** This is the American Hazelnut. Valuable for its edible nuts as well as for its decorative value as a lawn shrub in mass planting. 2-3 feet, 60c each.

**White Kerria** (Rhodotypos or Jetbead). A beautiful yellowish-green foliage shrub that blooms in May and occasionally throughout the Summer. Flowers large white; black berries. It does well in shady locations. 18-24 in., 50c each; 2-3 feet, 65c each.

**White Kerria.**

---

**BEAUTIFY YOUR ENTRANCE WALK**

These two beds of shrubs on each side of your entrance walk will improve the looks of your place and I offer them at bargain prices.

- Entrance Walk Planting Plan
  - 4 White Snowberry 18-24 in. $1.40
  - 16 Barberry 18-24 in. 4.00
- Special price, $4.50, postpaid.

**“Best Service We Ever Had”**

April 14, 1928.

May Seed & Nursery Co., Shenandoah, Iowa.

Dear Mr. May:

I ordered a truckload of shrubs yesterday morning—a truck-load for the mail carrier. The order was filled perfectly. This was remarkable considering the large number and variety of shrubs ordered. It was the best service we have ever had. Thanking you for your promptness, accuracy and cooperation, I am

Very truly yours,

J. Robert Hall, County Agent,
Linn County Farm Bureau, Linnears, Missouri.
Forsythia—Golden Bell

A splendid family of old-fashioned shrubs. They light up the garden with masses of yellow flowers very early in Spring before the leaves appear. The upright forms make beautiful hedges. The creeping kind can be used for holding banks.

FORTUNEI. Upright forsythia growing 8 to 10 feet tall. Has dark green leaves which hang on late. Branches arch and bear throughout their entire length in the early spring, clusters of golden yellow blossoms. Plant a clump of these with Redbud or Lilacs. 12-18 in., 25c each; 18-24 in., 35c each.

INTERMEDIA (Border Golden Bell). The earliest blooming. Spreading habit of growth. 6 to 8 feet in height. Yellow blossoms. 12-18 in., 25c each; 18-24 in., 35c each.

Hydrangea

There is no plant or shrub better known than the Hydrangea, comprising some of the most showy plants in cultivation. It transplants easily, blooms the first season, has no insect enemies, is very reliable and hardy. Thrives in moisture and shade. Can be cut back to the ground early in the spring to make a dense shrub.

ARBORESCENS GRANDIFLORA (Snowball Hydrangea). "Hills of Snow." A rare beauty, bearing in great profusion immense clusters of pure white flowers that make a beautiful showing in June and July. 12-18 in., 35c each; 18-24 in., 50c each; 2-3 feet, 60c each.

PANICULATA GRANDIFLORA (Giant Panicled Hydrangea). (See illustration in color on third cover.) Grows 6 to 8 feet. Blooms in August and September. Is hardy. Branches bend under the weight of its enormous flower clusters when it is in full bloom. The blooms at first are white, then pink and bronze as the season advances. If watched carefully and cut as they turn to bronze you can hang them up in the house and make a beautiful decoration, retaining their color throughout the winter. 12-18 in., 40c each; 18-24 in., 60c each; 2-3 feet, 70c each.

TREE HYDRANGEA. This is the Paniculata Grandiflora with all its beauty of great clusters of blooms in tree shape. Will grow 10 to 12 feet high. 2-3 feet, $1.00 each; 3-4 feet, $1.25 each.

See my special shrub offer and colored illustration on third cover page.

Honeysuckle

Fragrant flowers, showy fruits and fine foliage possessed by this group of flowering shrubs have pushed them to the front of ornamental shrubs. They are hardy most anywhere, transplant easily and are adapted to most any shrub grouping. You can have a Honeysuckle Hedge. See my low prices—page 27.

JAPANESE MORROWI. A vigorous spreading grower. Foliage, dark restful green. Produces a mass of white flowers in early spring, followed with clusters of bright red berries. 12-18 in., 25c each; 18-24 in., 35c each; 2-3 feet, 45c each.

TATARIAN. White, Red or Pink. Your choice of color. Blooms in May. This is the favorite old-fashioned Bush Honeysuckle, with splendid, upright branches. 12-18 in., 25c each; 18-24 in., 35c each; 2-3 feet, 45c each.

Special Low Price Quantity Offer

On page 21 we list special prices for shrubs purchased in quantity. Take advantage of this offer and get your neighbors to order with you. They will thank you for calling their attention to this money saving offer.
Lilacs

You can have Lilacs most anywhere you live. They are hardy, vigorous and grow with such little attention. Each May they bear a profusion of colorful, fragrant panicles of blooms. In May they burst forth in bloom with great masses of large, beautiful flowers in all shades of red, pink and purple, very hardy.

**BIG PURPLE.** The old-fashioned Lilac which grows into a very high bush, sometimes getting 8 to 10 feet tall, with bright green heart-shaped leaves. Flowering in May the plant is covered with many light purple blooms in clusters. Purple Lilac used to good advantage for making a background for smaller shrubs, has a distinctive effect when planted alone or can be utilized very nicely for a fancy hedge. 12-18 inches, 35¢ each; 18-24 in., 45¢ each; 2-3 feet, 75¢ each.

**BIG WHITE.** This is the familiar white-flowering variety. Grows about the same height as the purple except has white flowers. 12-18 in., 45¢ each; 18-24 in., 60¢ each; 2-3 feet, 75¢ each.

**PERSON PURPLE.** Has slender branches, narrow leaves. Dwarf grower. This variety is suited for low and medium height foundation planting. 12-18 in., 25¢ each; 18-24 in., 30¢ each; 2-3 feet, 60¢ each.

**ROTHOMAGENSIS.** (Rouen Lilac). This grows 10-15 feet high. Has immense reddish purple panicles in May. To think this is the most beautiful of the Lilacs. 12-18 in., 40¢ each; 15-24 in., 50¢ each; 2-3 feet, 60¢ each.

French Lilacs

Perfected varieties of Lilacs from France. Hardy. We have a very fine selection of them. They are a great improvement over the old common varieties. No home or park is complete now without a good selection of these novel plants. We are pleased to enumerate here in a list of choice named varieties that will give you blooms the second year planted.

**ALPHONSE LAVALLE.** Large trusses of violet flowers. Double. 18-24 in., $1.00 each; 2-3 feet, $1.10.

**CHAS. X.** Beautiful purplish red. Single. 18-24 in., $1.00; 2-3 feet, $1.10.

**MARIE LEGRAYE.** Pure white. Free bloomer. Single. 18-24 in., $1.00 each; 2-3 feet, $1.10.

**MICHAEL BUCHNER.** Pure white. 18-24 in., $1.10 each; 2-3 feet, $1.10.

**PRES. GREVY.** Light blue. Fine large trusses. Double. 18-24 in., $1.00; 2-3 feet, $1.10.

**MAD. LEMOINE.** Large double white. 18-24 in., $1.00; 2-3 feet, $1.10.

Prerotagus

See Privet for hedging—page 27.

**REGEL’S PRIVET.** Low-spreading shrub bearing fragrant white flowers in June. Valuable for hedges and border planting. foliage richly colored in fall. 12-18 in., 25¢ each; 18-24 in., 30¢ each.

From Largest Plant to Smallest Seed

Satisfaction Guaranteed

See our Special Offer of Shrubs in Quantity Lots, Page 21
Philadelphus—Mock Orange

No garden is quite complete unless it has some of these old-fashioned shrubs. Strong grower in sun or partial shade. No insect enemies.

AUREA (Golden-Leafed). The best golden-leaved variety. Very beautiful. 12-15 in., 50c each; 15-18 in., 70c each.

CORONARIUS (Garland Syringa) (Mock Orange). Grows 8 to 10 feet tall. Blooms in very graceful sprays. Large, white flowers delightfully scented. Blooms in May. 12-18 in., 25c each; 18-24 in., 30c each; 2-3 ft., 40c each.

STAGHORN SUMAC

SUMAC

No artist can paint the variegated and gorgeous colors found in the Sumac family. Native, hardy shrub, valuable for foliage. SMOOTH SUMAC (Glabra). Our native Sumac very brilliant in Autumn with crimson seeds and foliage. Height 2 to 8 feet. 18-24 in., 25c each; 2-3 ft., 40c each.

PEARTREE SUMAC (Typhina). Picturesque and rugged. Flowers during June and July in dense terminal panicles, followed by impressive red fruits. Velvety branches. 18-24 in., 30c each; 2-3 ft., 40c each.

Fern-leaved Staghorn

SPOONSHAPED (Opulifolia). A very vigorous growing shrub. Heavy white flowers in June; older flower heads turn dark red in late summer. 18-24 in., 25c each; 2-3 ft., 45c each.

YELLOWNINEBARK (Opulifolia Aurea). Same as above except leaves flaring yellow. 18-24 in., 30c each; 2-3 ft., 45c each.

VAN HOUTTE (Bridal Wreath). (See illustration in color on third cover.) The best known of all Spireas. Hearty, hardy. Used also as a hedge or along the foundation or porch. We grow 125,000 each year so can supply you with heavy plants at bargain prices. The branches of Van Houtte droop with many beautiful white flowers. Just like a snow bank. Very hardy. 12-18 in., $1.40 per 10; 18-24 in., 2-yr., $1.45 each. 2 for 45c; 3 for $1.00; 12 for $2.00; 2-3 ft., 35c each. $3.00 per 10; 3-4 ft., 3-yr., 45c each; $4.00 per 10. Hedging prices on page 27.

Spireas

The most used group of shrubs. All are popular, affording the greatest range in size, habit, color of foliage and flowers, and period of bloom. Very hardy, easy to grow and easy to care for.

ARGUTA (Garland Spirea). A bushy shrub 3 to 5 feet high, growing taller and more vigorous than Spirea Thunbergi, with narrow, delicate, light-green leaves. Flowers are pure white and appear in early May. The earliest blooming Spirea. 18-24 in., 35c each; 2-3 ft., 45c each.

ANTHONY WATERER. Ever-blooming Red Dwarf. A valuable variety. Can be used for edging and borders. The color is bright crimson. It is a dwarf, dense grower, never exceeding 90 inches. Hardy everywhere. 12-18 in., 35c each; 18-24 in., 50c each.

BILLYARDI (Rosea). (See illustration in color on third cover.) Sometimes known as Red Bridal Wreath. This is a narrow, dense shrub that grows 6 feet high. Blooms in July and has dense panicles of rich pink flowers. A beautiful sight mixed in with Van Houtte and Thunbergi. 18-24 in., 25c each; 2-3 ft., 35c each. 18-24 in., 50c each.

CALLOSA ALBA (Japonica). This might be called a white sister to the Anthony Waterer. Foliage light, healthy green. It can be used in the same way, either for border or foundation planting. Blooms in June. Clear up until Fall. Be sure to plant a few of these. 12-18 in., 35c each; 18-24 in., 50c each.

NINEBARK. A very vigorous growing Spirea. Heavy white flowers in June; older flower heads turn dark red in late summer. 18-24 in., 25c each; 2-3 ft., 45c each.

YELLOW NINEBARK (Opulifolia Aurea). Same as above except leaves flaring yellow. 18-24 in., 30c each; 2-3 ft., 45c each.

VAN HOUTTE (Bridal Wreath). (See illustration in color on third cover.) The best known of all Spireas. Hearty, hardy. Used also as a hedge or along the foundation or porch. We grow 125,000 each year so can supply you with heavy plants at bargain prices. The branches of Van Houtte droop with many beautiful white flowers. Just like a snow bank. Very hardy. 12-18 in., $1.40 per 10; 18-24 in., 2-yr., $1.45 each. 2 for 45c; 3 for $1.00; 12 for $2.00; 2-3 ft., 35c each. $3.00 per 10; 3-4 ft., 3-yr., 45c each; $4.00 per 10. Hedging prices on page 27.
This group of shrubs is becoming more and more popular. Good for either wet or dry ground. We are listing the best varieties. Tamarix should be cut back each year almost to the ground. This will make it branch more and make it more attractive. If conditions are good it will bloom first year.

**HISPIDA.** A distinct variety with delicate, bright pink sprays of flowers in July and August, a time when shrubbery is comparatively bare of flowers. These have beautiful silvery foliage. The best of the Tamarix. 18-24 in., 50c each; 2-3 ft., 60c each.

**ODESSANA.** Graceful silvery green foliage. Has light pink flowers. 18-24 in., 35c each; 2-3 ft., 50c each.

**TETANDRA PURPUREA.** Has dark green foliage. Dense growth, purplish pink flowers midsummer. Red-brown bark. Quite hardy. 18-24 in., 30c; 2-3 ft., 40c each.

---

**Weigelas**

Weigelas thrive in almost any soil and are of upright habit when young, growing more graceful with age. In May and June the Weigelas are aglow with a wealth of flowers and some varieties bloom sparingly through the entire Summer. This is especially true of the Eva Rathke and Rosea. Colors—White, Pink and Red.

**CANDIDA (Snow Weigela).** Blooms in June. Beautiful ivory-white flowers almost covering its graceful branches. Medium size. Varying from light pink to deep rosy red on the same branch. 12-18 in., 25c each; 18-24 in., 35c each; 2-3 ft., 40c each.

**ROSEA (Pink Weigela).** A very popular shrub with trumpet-shaped flowers. Medium size. Varying from light pink to deep rosy red on the same branch. 12-18 in., 25c each; 18-24 in., 35c each; 2-3 ft., 40c each.

**EVA RATHKE.** One of the finest shrubs in existence. It blooms off and on throughout the Summer, flowering more abundantly some Summers than others. Dwarf in habit. I have three in my own yard. You cannot go wrong in planting Eva Rathke. 12-18 in., 35c each; 18-24 in., 50c each; 2-3 ft., 60c each.

**Special Quantity Prices**

See page 21 for special prices on shrubs in quantity. It pays to buy two, four or ten of a kind.

---

**May’s Helpful Planting Suggestions**

Use Our FREE LANDSCAPE Service—See Page 20

It is easy to be successful with planting if a few simple rules are adhered to. Just remember to:

- Plant in masses, leave open spaces and avoid straight lines. These are the A. B. C.’s of plant design.
- Don’t fail to spade up the beds before planting. It will double your chances for success.
- Watering along the foundation is important. Foundation plantings never get sufficient watering from rains.
- Fertilizing is necessary in closely planted beds. Don’t overdo it but remember it takes good soil to keep plants growing when set close together.
- Remember in planting groups to keep taller plants well to the rear, with the low growing ones in front.
- Don’t plant too many kinds in a single group. Try to clump three to five together on modest plantings and increase the number in large plantings.
- Stake out your places before digging holes. It is easier to move the stakes than the misplaced plant.
- Curves instead of straight lines should be sought in planting. The curved effect is much more pleasing. In the shrub beds or along foundations, try out your hose to get the right shape and curves to your groups.

I Want You to Send In An Order Each Year, That’s Why I Send Good Plants
May’s Plants for Hedges and Screen

My Quality Hedge Plants Give Quicker and Better Results

Ordinarily you secure small plants, but this year I am sending you heavier plants at lower prices. One couldn’t hope for any quicker and better results in growing hedges than it is possible to attain with these healthy, well rooted plants.

With a little attention, these plants will develop into pretty and effective hedges which will add value and enjoyment to your home. Plant the taller growing ones also as a screen.

Ornamental Varieties
Without Thorns

May’s Privet

AMOOR RIVER PRIVET. This is a hardy Privet. We recommend it highly for hedging in the Middle West. Has glossy green foliage and holds its leaves until very late in the Fall. Prune to the shape desired—will not injure the plant. It will increase the value of your place.

HARDY CALIFORNIA PRIVET (Ibotaum.) The most beautiful privet. Has attractive dark green foliage of the California Privet, but is much hardier and can be planted successfully in Southern Iowa and the South. Stands pruning.

RUSSIAN OLIVE. Its long narrow, silvery-white foliage and almost black, shining bark, make this a most effective lawn tree. Deliciously fragrant, yellow flowers. Stands pruning. See page 18 for prices.

HONIESUCKLE (Tatarian.) Blooms in May. Upright, somewhat spreading branches. Bright red berries appear after the flowers, and cling to the bush for several weeks. Can furnish this in red, white or pink.

PURPLE LILAC. The well-known, old-fashioned Lilac. Grows 9 to 10 feet tall, with heart-shaped leaves of a bright green. In May the plant is beautiful mass of light purple blooms in clusters.

RUSSIAN MULBERRY. A very hardy variety, well adapted for hedges and screens. Stands pruning quite well.

RUSSIAN OLIVE. Its long narrow, silvery-white foliage and almost black, shining bark, make this a most effective lawn tree. Deliciously fragrant, yellow flowers. Stands pruning. See page 18 for prices.

SPIREA VAN HOUTTE. For low hedges. Dwarf, compact bearing clusters of bright red flowers. Blooms throughout the entire summer. Hardy.

Ornamental Varieties
With Thorns

BARBERY THUNBERGI. (Japanese.) This variety does not carry rust. This thorny plant does well for hedging and foundation plantings. Brilliant red berries in fall.

BUCKETHORN. Hardy shrub, covered with pretty white blossoms in the spring and red berries in fall. A strong and vigorous grower.

CARAGANA (Siberian Pea Tree). Extremely hardy shrub with small, sharp thorns. Yellow flowers in May. Can be pruned. Extensively used as a hedge plant north of Sioux City.
Use May's Vigorous Vines to Cover Walls, Porches and to Screen Out Unsightly Places

Every home needs vines. They decorate porches and walls; add privacy, a touch of charm, and screen out unattractive views. Few well planned homes are seen nowadays without them. We have all the varieties of vines for your convenience and tastes. They are hardy and vigorous so we can assure you of good results. Since they are low priced they can be appreciated by everyone.

All vines on this page are postpaid.

Virginia Creeper or American Ivy (Ampelopsis Quinquefolia). This is the old-fashioned Virginia Creeper. An old favorite. Valuable for covering porches, arbors and trellises. Perfectly hardy everywhere. Will grow in practically every soil and location; must be tied as it will not cling to walls. 35c each; 2 for 60c.

Bittersweet. Native climber. Produces beautifully scarlet berries in late fall. 40c each; 2 for 75c.

Boston Ivy (Ampelopsis Veitchii). Small-leaved variety. Climbs on brick or stone. Should be planted on north side of the house here in the Middle West. We have some on the nursery office, north side. One of the finest climbers. 65c each; 2 for $1.25.

Dutchman's Pipe (Aristolochia Sipho). Has beautiful large green leaves. Beware of purchasing seedling Dutchman's Pipe, which does not bloom. In order to get blooms on these flowering varieties should be grafted and it requires special skill and knowledge to do it. The flowers on this vine resemble the old-fashioned Dutch pipes. 85c each; 2 for $1.50—true grafted variety.

Englemann's Ivy. This is the hardiest of all. Climbs rocks, wood, stone or brick. 40c each; 2 for 75c.

Trumpet Vine. The hardy native blooming vine with orange-scarlet trumpet-like flowers. A very prolific bloomer and useful for covering fences and old stone piles. 40c each; 2 for 75c.

Honeysuckle

Scarlet Trumpet. Fine for porches and trellises. Bright scarlet flowers trumpet shaped. 35c each; 2 for 60c.

Halliana or Hall's Japan. White and yellow flowers. Extremely fragrant. Used extensively as ground cover. 40c each; 2 for 75c.

Clematis

No other climbing plant equals in attractiveness the beautiful large-flowering Clematis. They need rich, deep soil, good drainage, abundance of water and, most important of all, they should be planted with the crowns three inches beneath the surface of the soil.

Large Flowering

This class of Clematis is the most beautiful of all. 2-year plants, $1.00 each; 2 for $1.75.

Henryi. Creamy white; large. 40c each; 2 for 75c.

Jackmani. Velvety violet-blue. Large flowers. 40c each; 2 for 75c.

Ramona. Deep Blue. 40c each; 2 for 75c.

Small Flowering

Coccinea. Flowers small, bright red and bell-shaped. Vine very hardy. 40c each; 2 for 75c.

Paniculata. The sweet-scented white Clematis from Japan. Hardy. Flowers medium size. Blooms late August and September. Blooms come in immense sheets. This vine is a wonderful sight when in full bloom. 40c each; 2 for 75c.

Wisteria

Purple. Grafted so you will secure the true flowering varieties. One of the most handsome of the flowering vines for porches, trellises, etc. Has drooping clusters of pea-shaped, purple flowers. 85c each; 2 for $1.50.

White. Grafted. 85c each; 2 for $1.50.

Climbing Rose

Clematis Paniculata

Use Vines to Screen Out Unsightly Objects and Make Them Beautiful
FRAGRANT, colorful, beautiful roses have been the most popular of flowers since early times. They are easy to raise and with good treatment they yield a wealth of beautiful flowers. All our roses can be grown very easily if you control the insects. The control is simple if you dust your Roses thoroughly every ten days with nine parts sulphur and one part of lead arsenate. This will control most rose slugs, mildew and black spot. If aphids or plant lice appear, spray with "Evergreen."—35c for 1/2 oz. bottle.

Climbing Roses
Any Three for $1.00

RED

CRIMSON RAMBLER. An old favorite. Large, red flowers.

CLIMBING AMERICAN BEAUTY. Large, red flowers. Very strong grower. Climbing type of the American Beauty.

DOROTHY PERKINS RED. (Excelsa.) Intense crimson, immense clusters; similar to Climbing Rambler in color and foliage, hardy and vigorous.

FLOWER OF FAIRFIELD. This is called the ever-blooming Climbing Rambler. Flowers are beautiful bright scarlet.

PAIN'S SCARLET CLIMBER. See color illustration on front cover. This is a bright, vivid scarlet climbing Rose, which is without doubt the most beautiful climbing red Rose in existence. Hardy and thrifty.

PRAIRIE QUEEN. A very rapid climber. Rose red. Hardy most everywhere.

SEVEN SISTERS. The name is due to the fact that there is usually a group of seven Roses on each cane. The flowers are pink and red combined. Very beautiful. You will be pleased with it.

PINK

DOROTHY PERKINS PINK. An old favorite Pink rose; Immense clusters numbering sometimes as much as a thousand blooms on one well-established plant. Hardy and stands lots of grief.

DR. VAN FLEET. See color illustration on front cover. This is the large flesh-pink Rose; is a very strong grower, profuse bloomer and the stems are long enough so that they can be used for cut flowers.

THOUSAND BEAUTIES or TAUSENDSCHÖN. The most sensational climbing Rose yet introduced. Blooms profusely from the 1st of June until the last of July. Flowers appear in large clusters, 10 to 15 blooms in a cluster. Colors are white to deep pink in all shades, all in the same cluster. There is no other Rose in cultivation like Thousand Beauties.

WHITE

DOROTHY PERKINS WHITE. See illustration in color on front cover. Similar to the Pink variety except it is white in color.

SILVER MOON. Here is something new and different. The flowers of this beautiful, white, climbing Rose are large and when they open they resemble the bloom of the white clematis. The center of them is golden.

WICHURIANA. This is a single white of the trailing habit, which is fine for ground covering and holding banks.

YELLOW

GARDENIA (Yellow Rambler.) This is that beautiful yellow Rose that looks so pretty "over the garden wall." It is a very strong grower, early flowering, fragrant and free bloomer. Bright yellow color.

How to Plant Roses

The real secret of success when planting roses is First, to cut back the tops severely; Second, to water the plant thoroughly; Third, to cover the newly set plants with a mound of soil. Do not expose their roots to sun or wind to dry out.

Prune all of the canes so that not more than four (4) buds remain on a cane. This is very important. Shorten the roots a little, making a smooth cut at the end of each root.

Put in the plant and half fill the hole with top soil. Do not use manure. Tamp the soil down hard, then pour in four gallons of water.

 Twenty-four hours after this has seeped away, finish filling the hole.

Next, draw up a mound of soil around the bush fully 6 to 10 inches high. This will bury the bush completely and deep enough to let the plant set well down in the hole.

Dig your holes at least 6 inches wider than the widest spread of the roots, and deep enough to let the plant set well down in the hole.

Allow the mound of soil to remain until the new growth has pushed through it fully six inches, then hoe the mound down gradually.

When planting roses in the fall, mulch the mounds with straw or strawy manure after the first hard freeze.

If you will plant your roses in this way, they will be certain to grow in a satisfactory manner.

If these instructions are not followed exactly, the plants may not satisfactorily survive the ordeal of transplanting.
Hybrid Perpetual Roses

Roses for the garden. Our Roses are all strong, two-year old, dormant, field-grown. The blooms come on the new growth and the more new growth you force, the more flowers you will have. All Roses except the Rugosas should have some winter protection.

45c each; 3 for $1.00, Delivered.

Any Three for $1.00

RED

AMERICAN BEAUTY. One of the most famous Roses ever grown. A hardy Rose of large size, rosy carmine. Fragrant.

GENERAL JACQUEMINOT. This is the famous Jack Rose. The fragrant, perfectly formed blossoms come early, are brilliant scarlet crimson and are borne on long strong stems.

BLACK PRINCE. Sometimes referred to as the Black Rose. A favorite because of its finely formed dark blood red blooms having a strong and pleasing fragrance.

PINK

PAUL NEYRON. One of the best Hybrid Perpetuals for outdoor culture. One of the largest roses grown, the flowers sometimes being six inches in diameter. Fragrant clear pink blossoms. The plant is a vigorous grower and hardy.

MRS. JOHN LAING. Large, long-pointed buds opening to moderately fragrant, beautiful, soft pink flowers. A gold medal of merit was awarded this plant by the National Rose Society.

WHITE

YELLOW

SOLEIL D’OR. Produces superb conical shaped buds, varying from orange yellow to reddish gold. The flower is very full, center petals incurved.

Everblooming Hybrid Tea Roses

Under this heading we offer the most complete list of the world’s best Hybrid Tea varieties, all of them sorts we have taken the pleasure of thoroughly testing and trying out on our test block in the trial grounds and the nursery. These Roses are all grown under ordinary field conditions, are hardy and adapted, and with ordinary care will bloom the first season. This is undoubtedly the finest collection of Hybrid Teas ever offered.

CULTURE. Complete instructions for planting Roses on bottom of page 29. 45c each; 3 for $1.00, Delivered.

Special Low Prices on Roses

We have cut our Rose prices practically in two this year and we are offering all our Roses, except as noted, at 45c each, 3 for $1.00, all Postpaid. This is a wonderful bargain.

My Roses are the Finest You Can Buy Anywhere Regardless of Price
Everblooming Roses [Cont.]

**J. L. MOCK.** Long stems. Beautiful for cut flowers.

**LADY HILLINGDON.** Deep apricot yellow, shading to pink. 

**PINK RADIANCE.** Brilliant, rosy opaline pink. The Rose that made Portland.

**M. C. TESTOUT.** One of the newest varieties of hybrid Tea Roses. Abundant bloomer.

**MME. EDOUARD HERIOT.** Golden red shaded with yellow. Very beautiful.

**G. A. VICTORIA.** Creamy white and yellow. Very beautiful.

**KILLARNEY WHITE.** The queen of all the white Tea Roses. Pure white. Large flowers.

**YELLOW.** Attractive light-salmon shading to yellow.

**GOLDEN EMBLEM.** Without a doubt one of the best of the newer yellow varieties. Color a rich, deep golden yellow.

**LADY BILLINGTON.** Deep apricot yellow, shading to orange.

**F. C. TESTOUT.** The Rose that made Portland, Oregon, famous. Rich pink.

**PINK RADIANCE.** Brilliant, rosy opaline pink.

**J. L. MOCK.** Long stems. Beautiful for cut flowers. Rose to bright red color, yellow reflection.

**LOS ANGELES.** This is without doubt one of the most beautiful of the Hybrid Tea Roses. Flame pink toned with golden yellow. Beautiful pointed foliage.

**MADAME EDOUARD HERIOT.** Golden red shaded with yellow and bright scarlet. Called the "Daily Mail Rose." Wonderful color combination.

**SUNBURST.** Intense orange-copper and golden yellow.

**Rugosa Roses**

Foliage is very attractive, being a heavy green. Bushes bear rich, red colored apples in the Fall. This group of Roses is very popular for hedges. They form shapely, compact, bushy specimens, most of them growing in great profusion from early in the season until severe frosts hit them. Pruning on these varieties is not necessary. Simply remove the past season's flower stems in pruning, and you will have plenty of flowers for the entire season from them. 45c each; 3 for $1.00.

**BABY RAMBLER.** The first red Baby Rambler introduced is of highest value because of compact habit. Very free bloomer.

**GOURDENDORST.** The Meal garden Rose. Rosa rugosa crossed with Red Baby Rambler. Blooms all summer, a strong grower, hardy, and the foliage is very disease resistant. Beautiful small red flowers borne in clusters that dazzle the eye with their brilliance. Should be in every garden. 90c each; 3 for $1.50.

**Hardy Roses for Yard and Decorative Planting**

A miscellaneous group of Roses, very hardy and can be used for lawn or cemetery planting.

**WICHURAIANA or MEMORIAL.** Of Japanese origin; flowers during June and July. The foliage is of a leathery texture, and fragrant, single, pure white flowers. Handsome for covering rockeries, mounds or embankments, especially valuable for cemetery planting.

**SWEET BRIER.** Famous for the fragrance of its flowers. A scent of beautiful crimson.

**PERSIAN YELLOW.** The hardy Yellow Rose of your Mother's garden. Flower semi-double, perfectly hardy.

Any Rose on Page 45c Each, 3 for $1.00

Excepting Grootendorst

Make up your own collection at these remarkably low prices. Just think of it—your choice of all different varieties at the rate of 3 for $1.00. All our Roses are Postpaid.

Baby Rambler Roses

This group of Roses is very popular for hedges. They form shapely, compact, bushy specimens, most of them growing in great profusion from early in the season until severe frosts hit them. Pruning on these varieties is not necessary. Simply remove the past season's flower stems in pruning, and you will have plenty of flowers for the entire season from them. 45c each; 3 for $1.00.

**CHARLES T. WORTH.** Attractive green foliage. Deep crimson flowers. A wonderful Rose for hedging purposes. The bush bears very large clusters of small double pure white flowers.

**HANS A.** Very fine cemetery planting.

Roses for Cut Flowers

The place to enjoy Roses is right in your own home

Where their fragrance and beauty can be appreciated all through the day. Cut the Roses early in the morning just as they are beginning to open and place them in water immediately. Cut the stems back under water each day and your Rose bushes will last several days as cut flowers. Cutting the flowers from the bushes will make them bloom all the more.
Planting Instructions

Read Carefully

Plant Peonies in the Spring or in the Fall between September 1st and freezing weather. If planted in late October, November or December, mulch well so that the roots will not become loosened by alternate freezing and thawing. Plant in full sun, away from trees, on well drained soil.

When the roots are received, immerse them in water for about 6 hours. They are then ready to be set out. Place plants at least 3 feet apart, and with the top of the pink buds 2 inches below the surface of the soil. Work the soil firmly around the roots with the fingers, being careful not to injure the bud. Finish filling the hole with loose soil, then keep the soil loosened on top of the ground around them.

Rating. The figures in parentheses are the rating given by the American Peony Society, on a basis of 10 being perfect.

You may apply the following prices in quantities of more than one peony:

Red and Dark Colors

EARLY

OFFICINALIS RUBRA. Vivid crimson. The earliest Peony of all. In bloom for Decoration Day. $1.00 each.

MIDSEASON

P. ORTEGAT (6.7). Deep crimson blooms with golden yellow anthers. Large flower of semi-rose type. Always out in full bloom for Decoration Day. 60c each.

GENERAL JACK. Same color as the famous Jack Rose. Good red. 60c each.

KARL ROSENFIELD (8.8). Very large, dark crimson. A brilliant and striking variety. Free bloomer in clusters. $1.25 each.

Felix Crousse, One of the Best Reds

RACHEL (7.9). Semi-rose type, ruby red in color, medium sized, and produces but one beautiful blossom on each stem. Fragrant. $1.00 each.

RUBRA TRIUMPHANS (6.7). Semi-double type, loose, very large, crimson flowers. 70c each.

LATE

ANDRE LAURIES. Dark rose, very late. Strong grower and a free bloomer. Does well anywhere. 50c each.

FULGIDA. Amaranth red, silver tipped. Medium size, loose, semi-double; tall, strong, erect grower. 70c each.

LOUIS VAN HOUTTE. Dark red. Semi-double, late bloomer, fairly good form and size; medium height. 60c each.

Pink and Medium Colors

EARLY

EDULIS SUPERBA (7.6). Decoration Day pink. Large, loose crown type, a bright pink with violet shadings at the base of the petals. Fragrant and a very free bloomer. 50c each.

MONS. JULES ELIE (9.2). Bomb type. Pale lilac rose overlaid with a sheen of silver. Fragrant. One of the most popular of all varieties, excellent for cut flowers as well as landscape. $1.00 each.

MIDSEASON

DELCATISSIMA (7.6). Rose type, pink, large, compact bloomer of a delicate one-color pink, borne in great profusion on erect, medium-length stems. One of the best all-around Peonies. Fine to plant for low hedge where one color is desired. 50c each.

LATE

VENUS (8.3). Pink, very large, pale hydrangea-pink; large petals; tall, free bloomer. Late. $1.00 each.

FRAGRANS. Dark pink, almost red. The last Peony to bloom. Very prolific bloomer. 50c each.
PEONIES (Continued)
White and Light Colors

EARLY
DUCHESSE DE NEMOURS (8.1). White. Crown type, early; follows Festiva Maxima a few days. Sulphur white, flowers with a greenish reflex that lights up the entire blossom which gradually changes to a pure white. Beautiful when half-opened. 60c each.

FESTIVA MAXIMA (5.3). Rose type; white with prominent markings; very fragrant. 50c each.

MME. DE VERNEVILLE (7.9). Bomb type; pure white, petals carmine tipped; pleasant odor. Extra strong and vigorous and extra free bloomer. It has a true June rose fragrance. 50c each.

MIDSEASON
GLORY OF THESSOOF. Creamy white shaded with light pink. 60c each.

QUEEN VICTORIA (6.8). Bomb type; pure milk white with occasional crimson flecks. Buds in clusters. Fragrant; medium height. 50c each.

LATE
AVALANCHE (8.7). Crown type; white flecked carmine with creamy collar. Medium grower, late. Odor pleasant. It is a waxy white, opens like a rose bud. 60c each.

COURONNE D'OR. White Semi-rose type with very large imbricated blooms of perfect form. Color milk white reflecting yellow, with golden stamens showing between the petals. A very beautiful flower. 50c each.

May's Tires Have Stood the Test. Customers Swear by Them.
Everybody Loves Iris

We Are Headquarters For First Quality Iris
Plant Some New Varieties Each Year

Like a close friend, the Iris can be depended upon. With its fine and delicate beauty it comes forth early in the spring and blooms consistently for a long season regardless of all the turmoils of bad weather and hot sun.

For some time the Iris has been known as the Rainbow Flower as it has, in its many varieties, all the colors of the rainbow. It is a beautiful flower which will add color to your grounds. Some of its unusual shades are: claret-purple, blue-lilac, faun-yellow and clear cerise.

Iris should be planted in a sunny location, and soil should be dry and well drained. Garden Iris cannot stand water around the roots. It should not be deeply planted. The bulbs should be just below the surface of the ground. Bone meal and finely ground limestone are good fertilizers. Iris should be taken up, divided, freed from grass and roots, and reset once in every four or five years. Iris may be planted any time during the year when not in bloom or when the ground is not frozen.

Suggestions for Planting Iris. The sunny side of a hedge is a good place for Iris. It will not suffer from being robbed of moisture and food from the larger plants. It is especially beautiful with lilacs and Spirea Van Houtte as a background. All these bloom at the same time.

Any 15c Iris, 4 for 50c; any 20c Iris, 4 for 70c; any 25c Iris, 5 for $1.00. POSTPAID.

German Iris, Cont'd.

**WHITE**

**MM. CHEREAU** (7.4). Frilled. Flowers pure white penciled blue border. Keeps well. 15c each.

**WYOMISSING**. Stem 36 inches. Very early. Bright yellow. 15c each.

**SHEIN NIKE**. Stem 36 inches. Mid-season. Rasperry purple, edged white. Originated on the Rhine of Germany. Its jaunty air suggested its name. Vigorous grower. 15c each.

**MME. CHEREAU**. Stem 36 inches. Early. Deep blue, penciled white border. Keeps well. 15c each.

**WYOMISSING**. Stem 36 inches. Mid-season. Very early. Bright yellow. 15c each.

**WHITE**

**MME. CHEREAU** (7.4). Frilled. Flowers pure white penciled blue border. Keeps well. 15c each.

**WYOMISSING**. Stem 36 inches. Very early. Bright yellow. 15c each.

**SHEIN NIKE**. Stem 36 inches. Mid-season. Rasperry purple, edged white. Originated on the Rhine of Germany. Its jaunty air suggested its name. Vigorous grower. 15c each.

**WYOMISSING**. Stem 36 inches. Mid-season. Very early. Bright yellow. 15c each.

**Siberian Iris**

A very practical, showy, prolific type of comparatively dwarf habit, with narrow grassy foliage and stems about 2 to 3 feet long. In the following colors:

**BLUE**, 15c each.

**DEEP PURPLE**, 15c each.

**WHITE**, 20c each.

**Iris Pumila**

(DWARF EARLY IRIS)

Pumila or Dwarf Irises are the first Irises to bloom in early April. They are followed by German, Siberian and Japanese in rapid succession. Remember, our plants are all healthy and vigorous and will produce blooms next season.

**SAPPHIRE**. 4-6 inches. It is the blue of our national colors, and with early red and white tulips make a good patriotic planting. 15c each.

**ALBA**. 4-6 inches. White dwarf. 20c each.

**SPRING SHIES**. 6 inches. Sky blue. 15c each.

**Japanese Iris**

The last of the wonderful Iris procession in period of blooming, but for size of flowers, richness of coloring and beauty there is nothing can equal them. Plant in a rich soil, give plenty of water and frequent cultivation. Set them twice as deep as other Iris. Your choice of varieties, 40c each; 5 for $1.00, postpaid.

**GEKKA-NO-NAMI**. (Waves under Moonlight) Creamy white.

**KOKO-NO-IRO**. Violet purple petals, golden throat.

**ZAMU-NORI**. White slightly shaded blue, very large.

**KUMO-NO-OBI**. (Band of Cloud.) Clear purple. White halo.

**MAROON**. Dark red.

**PURPLE AND GOLD**. Purple petals tipped with violet. Golden throat.

**UCHIU**. (Universe) S. white tipped blue. F. blue with golden center, white halo.

**CHRISTMAS GOLD**. Bright golden-yellow. Prize winner. 25c.

**CHIEFTAIN**. Best pink. Globular. Incurred. 25c.

**PINK MISTLETOE**. Delicate light pink. Very popular. 25c.

**PINK OSTRICH PLUME**. Jitsu. Beautiful clear pink. 25c.

**RICHMOND**. Bright golden-yellow. Prize winner. 25c.

**EXHIBITION HOUSE CHRYSANTHEMUMS**

**BLACK HAWK**. Deep velvety crimson. Petals reflexed 24c.

**OCTOBER FROST**. Pure white. Incurred Petals. 25c.

**WHITE MISTLETOE**. Blue white. Exquisite flowers. 25c.

**PINK PERFECTION**. A fine pink. Beautiful foliage. 25c.

**RICHMOND**. Bright golden-yellow. Prize winner. 25c.

**CHRISTMAS GOLD**. Golden yellow. Prize winner. 25c.

**VENUS (I) — A new begonia, distinctly different. Its dark, glossy green, deeply cut leaves combined with its free flowering habit, make it one of the most attractive plants grown. Blooms the year around. Plants 40c each; larger plants 75c.**

**CEOWN OF THORNS** (Euphorbia Splendens) — A curious plant with thick, fleshy, twining stems covered with sharp, stout spines. Foliage bright green; flowers beautiful coral-pink. 40c each.

For Good Music, Tune in on KMA with a Radio Set Approved and sold by Earl E. May
Mays Hardy Perennials

Achillea
All Perennials (except as noted), 25c each; 5 for $1.00; 12 for $2.00, postpaid.

Achillea (Milfoil or Yarrow)
Boule de Neige (Improved Pearl). Double white flowers borne in great profusion. Stands lots of heat. Blooms all summer, 18 inches high.

Millefolium (Rosy Milfoil). Rosy pink flowers, 18 inches high, blooms July and October.

Anchusa (Alkanet or Bugloss)
Italiana. Hardy and vigorous, growing 3 to 5 feet tall. Flowering May and June. Flowers exquisite blue.

Anthemis (Golden Marguerite)
Tinctoria. Also called Yellow Daisy. Finely cut foliage producing large golden yellow flowers. Blooms all summer. 15 inches.

Aquilegia or Columbine
This perennial is one of the daintiest of outdoor flowers. Good for rockeries.

Chrysanthemum
Bright yellow, long spurred flowers.

Grandiflora Nivea
Double, white, very distinctive.

May's Long Spurred Hybrids
Colors of pink, lavender, blue, white and red.

Rocky Mountain Columbine
Bine. Bright blue and white. Long spurred.

Skinneri
Petals yellow with long red spurs. A real beauty.

Artemisia (Wormwood)
Lactiflora (White Mugwort). This is a tall growing plant producing spikes of small white very fragrant flowers in August and September. Good for cut flowers. Plant them in your chicken yard—the leaves make good worm medicine.

How To Plant Perennials
The drawing below shows how to plant Perennials with different types of roots. No. 1 plants, such as Iris, should be planted with the main root just below the surface of the ground level. No. 2 plants, such as Peonies, should be planted with the tips of the buds at, or just below, the surface of the ground. No. 3 plants, in which the leaves spring from a crown, should be planted with this crown on the level of the dirt line. Do not sprinkle too much moist dirt on the top of them as it is liable to cause the crown or leaves to rot. No. 4 plants, such as Hollyhock or Baby's Breath, should be planted with the roots straight down and the buds just below the surface of the dirt. In all cases spread out the small fibrous roots naturally. Put some moisture on the roots, not on the crown.

Radios and Batteries Equal to Any You Can Buy at a Wonderful Price Saving. See Page 49
May's Famous Perennial Collection

The Ten Best

Coreopsis (1). 25c each; 5 for $1.00.

Many of These Varieties are Described on the Next Page
Hardy Garden Chrysanthemums

When all other flowers have dropped their colors, the Chrysanthemums come forth in an array of glory almost defying Winter. Perfectly hardy if soil is not too wet. Heavy rooted plants.

**MAY'S SUN GLOW.** Starts blooming late August. Free bloomer, rich yellow color. Our own introduction. We guarantee to please. 50c each. Following varieties at 25c each: 5 for $1.00.

**INDIAN.** Red.

**ROSY MORN.** Silver pink.

**SNOWCLAD.** White.

We are offering Crimson small blooms in May and June and July. The colors in the blooms are very rich, and in the Holborn Glory you will find practically the entire summer. Fine for cut flowers. My stock is grown from the choicest strain of seed. I guarantee my English Hybrids to be the best money can buy anywhere. All varieties except English Hybrids at regular prices.

**BELADONNA.** Sky blue.

**BELAMOSA.** Dark blue.

**CHINESE BLUE.** A dwarf blue with fine, feathery foliage.

**CHINESE WHITE.** Same form as the blue.

**MAY'S ENGLISH HYBRIDS.** The finest strain of all. Gives you all colors of blue down to purple in doubles and singles. 30c each; 5 for $1.25.

**YELLOW QUEEN.** Yellow.

**Deep Chestnut.**

**NEW ROSE.**

**HARDY GARDEN PINKS.**

**MARIE ANTOINETTE.**

**NEW ROSE.**

**BRONZE QUEEN.** Deep Chestnut.

**YELLOW QUEEN.** Yellow.

**25c each; 5 for $1.00.

**Delphinium—Hardy Larkspur**

Delphiniums are the cream of all perennials. Their blooming season covers practically the entire summer. Fine for cut flowers. My stock is grown from the choicest strain of seed. I guarantee my English Hybrids to be the best money can buy anywhere.

**SARABLET BEAUTY.** Crimson.

**BELLADONNA.** Sky blue.

**BELAMOSA.** Dark blue.

**CHINESE BLUE.** A dwarf blue with fine, feathery foliage.

**CHINESE WHITE.** Same form as the blue.

**MAY'S ENGLISH HYBRIDS.** The finest strain of all. Gives you all colors of blue down to purple in doubles and singles. 30c each; 5 for $1.25.

**Sweet William**

Illustrated on page 37.

An old-fashioned garden favorite, blooming in May, June and July. The colors in the blooms are very rich, and in the Holborn Glory you will find practically every color in the rainbow. An old-fashioned garden chrysanthemum is not complete without Sweet Williams.

**SCARLET BEAUTY.** Crimson. Blooms in May and June.

**DOUBLE WHITE.** Various colors.

**NEWPORT PINK.** A beautiful pink.

**DARK MAROON.** Almost black.

**MIXED.** Just a general assortment of all varieties and if making a large planting of Sweet Williams, believe this will take care of you better than separate varieties. 20c each; 3 for 50c.

**HARDY PINKS AND CARNATION PINKS**

**CARNA TION PINKS.** We are offering you separate colors. Everblooming.

**SCARLET.** 25c each; 5 for $1.00.

**WHITE.**

**MAIDEN PINK.**

**BRILLIANT.** Crimson small blooms in May and June. 6 inches high. Excellent for rockery purposes.

**Prices:**

Choice of any perennial (except as noted) 25c each; 5 for $1.00; 12 for $2.00, postpaid.

**Digitalis—Foxglove**

Flowers grow in stalks 4 to 6 feet high. We have separate colors.

**GRANITE SHIRLEY HYBRIDS.** Superfine mixture.

**Perennial Grass**

**GRACILLIMA.** Very narrow foliage, producing ornamental plumes. Dark green.

**Ferns—Hardy Outdoor**

Fines for shady places.

Why not have a nice bed of Ferns in that shady spot where other flowers would not do so well? I have these Hardy Ferns for shipment from Shenandoah. They are guaranteed to reach you in good condition and suitable for planting.

Do not bury Ferns too deep. Plant just deep enough so they are well covered. Put on top of them some moss, leaves, decayed manure or mulch. If you will observe Ferns in the northern woods you will find they grow and thrive in swamps with very little soil to support them.

I am listing the three hardiest and believe they will do well and thrive for you. These roots are large, heavy, of vigorous type and guaranteed to please you. Cover the Ferns with a light covering of leaves in Winter, as this makes them feel at home. Can make prompt shipment.

**OSTRICH.** Has graceful plumes. Very erect. One of the most satisfactory and easiest to grow of all Ferns for open, shady nooks. Use well rotted manure and peat and they will multiply rapidly. Is one of the tallest of the Ferns. Heavy roots.

**GOLDIE'S.** Will grow 3 feet high. Lines up with the Ostrich and Interrupted Fern in vigor. Fine for mass effect.

**Hardy Fern Collection**

I can offer you a fine collection of twelve of the above, my selection, prepaid by parcel post, for $2.00, or 25 for $3.75.

**Funkia—Blue Plantain Lily**

Has broad shiny foliage, producing sky blue flowers in July and August. Foliage wonderful even when not in bloom. Height 2 feet. 25c each; 5 for $1.00.

**WHITE DAY LILY.** Large, white-flowered variety. Blooms August and September. Likes shady locations. Very scarce. 50c each; 2 for 90c.

**Gaillardia—Blanket Flower**

Illustrated on page 37.

**Geum Avens**

_MRS. BRADSHAW._ One of the newer perennials. Foliage suggests the Strawberry. Flowers large, double scarlet; blooms from May to July. **30c each; 3 for $1.00.**

**Golden Glow**

Old-fashioned. One of the most popular garden plants producing beautiful, double golden yellow flowers in August. **25c each; 5 for $1.00. MIXED. 20c each; 3 for $1.00.**

**Gypsophila—Baby’s Breath**

Is of very easy culture. Will thrive anywhere. When in bloom has an abundance of minute filmy white flowers. Should be in every garden. Good for Winter bouquets when dried. **25c each; 5 for $1.00, postpaid.**

**Hibiscus—Mallow Marvels**

Also known as Rose Mallow. This is indeed a beautiful flower. The largest flower of all the perennials. They do best in damp locations. Grow about 8 to 10 feet high. Large leaves and showy. **YOUR CHOICE SEPARATE COLORS. Pink, White or Yellow. 25c each; 5 for $1.00. MIXED COLORS. 20c each, 3 for 50c.**

**May’s Superb Hollyhocks**

Statley and majestic. There is nothing finer than the old-fashioned Hollyhocks. **DOUBLE PINK, RED, WHITE and YELLOW. 25c each; 5 for $1.00. MIXED, ALL COLORS. 20c each; 3 for 50c.**

**Perennial Sweet Pea**

Similar to the annual Sweet Pea, except flowers are more wax-like in appearance. Large flowers. Perfectly hardy. **RED, PINK and WHITE. 25c each; 5 for $1.00. MIXED. 20c each; 3 for $1.00.**

**Blazing Star (Purple Cat Tail)**

A beautiful plant, producing beautiful flowers in July and August. Flowers are produced on a long, slender stem; very unusual, attracting lots of attention when in bloom. Grows about 5 feet tall. **Sweet Pea.**

**Lily of the Valley**

There is nothing more beautiful than these dainty little flowers of the Lily of the Valley. They are easy to grow but should be pur¬

**Regal Lily**

Single. June-July. New variety from western China. Hardy in all localities. Flowers are ivory-white striped on the outside with pink and splashed with canary-yellow at the base of each petal. Mammoth size bulbs. **40c each; 3 for $1.00.**

**Show Lily**

_Speciosum Rubrum._ August. White, spotted with rays of rosy red. Most satisfactory of all the Lilies. Mammoth size bulbs. Should be planted in late Fall or early Spring, if planted in Spring will bloom the same season. **40c each; 3 for $1.00.**

**Yellow Show Lily (Henryi).** Same form and appearance as Speciosum Rubrum but bright orange-yellow. **Flower spots. 20c each; 3 for 50c.**

**Tiger**

This is a bright rosy red Lily, covered with black tiger-like spots. Grows 4 to 5 feet and blooms in August. Stands heat well and is a beautiful flower to plant among the other shrubbery. **20c each; 3 for 50c.**

**Tiger Double Flowering**

This is a double form of the Common Tiger Lily. Very rare. **25c each, 5 for $1.00.**

**Hardy Blue Flax**

Has fine feathery foliage suitable for rockery purposes. Produces star-shaped blue flowers in July and August. **Flax.**

**Cardinal Flower**

**Forget-Me-Not**

My favorite old-fashioned flower. Excellent for a shady spot in the border. Fully hardy in all localities. **Forget-Me-Not.**
May's Superb Phlox

I guarantee that my Phlox will please you. I can do this with assurance because we ship only those plants which have bloomed once.

The ease with which they are cultivated, their long season of blooming from June until late autumn, combined with their varied and beautiful coloring, make them particularly valuable for home planting.

They will stand crowding. They produce a beautiful and harmonious contrast when massed against a background of shrubbery.

By all means include some of my improved varieties in your perennial garden. 30c each; 4 for $1.00. Your choice of any 12 Phlox $2.50 per dozen.

ATHIS. Beautiful salmon-pink.
BRIDESMAID. White with red eye.
CHAPELS ELYSEES. Dwarf grower, rich magenta-crimson.
CLAIREUR. Magenta with white eye.
FRAUDELLE von LASSBURG. White.
INDIANCE. Clear white.
IRIS. Lavender-pink. Very fragrant.
MISS LINGARD (Suffruticosa). Earliest white.
MRS. JENKINS. Very beautiful pure white.
RICHARD WALLACE. White with crimson eye.
RHEINLANDER. Salmon pink, clarat eye.
SPECIAL FRENCH. Rose pink, red eye.
SUNSET. A beautiful lavender-pink with rosy red.
LA VAGUE. Mauve with carmine eye.
MRS. CHARLES DORR. Beautiful shade of lavender.
RIJNSTROOM. Bright crimson-pink, immense flowers.
ROSENBERG. Reddish violet, blood-red eye.
R. P. STRUTHERS. Salmon-red.

Standard Mixed Phlox

We have in Phlox, mixed colors of red, white and pink. All excellent colors. 20c each; 5 for 50c; 12 for $1.75 delivered.

Chinese Lantern Plant

An ornamental variety of Winter Cherry. Produces bright orange-scarlet lantern-like fruits. Good for winter bouquets. Height 2 feet.

False Dragonhead

A midsummer blooming perennial growing in clumps 4 to 6 feet high, bearing spikes of dragonhead-like flowers of soft pink.

Platycodon Balloon Flower

Very similar to Campanula. Upright habit of growth, 1½ to 2 feet high, producing showy balloon-shaped flowers from July to October. Very good. Blue, White.

May's Oriental Poppy

We recommend August or September planting, for this is the time when Poppies are in their dormant state. However, we have a limited supply of potted Poppies for spring planting. Plant with dirt left on them.

MAY'S ORIENTAL HYBRID. Deep red.
40c each; 3 for $1.00.
PRINCESS VICTORIA LOUISE. Pale pink.
40c each; 3 for $1.00.

Variegated Ribbon Grass

An old-fashioned perennial which is found in practically every garden. Has variegated ribbon-like leaves. 15c each; 3 for 40c; 12 for $1.00.
Painted Daisy—Pyrethrum

Very valuable for cut flowers; blooms at intervals throughout the summer. Very hardy and will grow in most any soil.

GOLDEN FEATHER.

Dwarf, yellow flowers in July and August. 10 inches high.

HYBRID ROSEUM.

Various colors, white to red. 18 inches high. In full bloom by Decoration Day.

Garden Sage

The old-fashioned Sage plant that is used by most of us in making our turkey dressing for Christmas. 15c each; 3 for 40c; 12 for $1.00.

Pin Cushion Flower—Perennial

BLUE BONNET. Soft shade of lavender, blooming from June to September. 15 to 24 inches high.

Sedum—Live Forever Plant

GOLD MOSS STONECROP.

Bright yellow flowers. Dwarf. 3 inches high. White flowers: blooms in July.

PINK (Specabilis). Broad, light green foliage, bearing large heads of rose-colored flowers. August and September. 18 inches.

RED (Specabilis Brilliant). Same as PINK only it has brilliant red flowers.

Shasta Daisy

There is nothing better than this beautiful Daisy introduced by Luther Burbank. We have the two best varieties grown today. Reach their maximum of blossoming the second year. Grow heavy blooms at that time. Will flower the first season.

ALASKA. The hardiest of all Shastas. Blooms June-July. 2 feet. White with yellow center.

MAY'S DECORATION DAY. Earliest of all Shasta Daisies to bloom, always being in bloom on Decoration Day. Long, strong stems, excellent for cut flowers. Hardy anywhere. Large flowers.

Golden Rod

Large, golden-yellow terminal panicles. Flowers late summer. 3 to 5 feet high. The state flower of some states. 20c each; 3 for 50c.

Great Sea Lavender—Statice

A very valuable plant for either border or rockery purposes. Leaves have leafy appearance with immense flower heads bearing purplish-blue minute flowers. Blooms in July and August. Can be dried, making wonderful Winter bouquets for wall vases.

Cornflower Aster

Large, lavender-blue, aster-like flowers. Plant grows 18 to 24 inches high, flowering from early July to late October.

Red Hot Poker Plant

TRITOMA

Called by some Flame Flower or Torch Lily. Free and continuous bloomer. August to October. Spikes 3 to 4 feet high. Heads of a rich orange-scarlet. Effective singly or in groups. 30c each; 3 for 80c.

Blue Bird Flower

VERONICA

The real Blue Bird Flower. Has long, bright blue spikes which bloom in August and September. An outstanding blue flower. The best of the Veronicas. Height, 18 inches.

Perennial Pansy

VIOLA CORNUTA. Not the common Pansy but a very hardy perennial plant. Blooms from May until November, all colors. Shear several times during the season so the flowers will not go to seed. I am sure you will be well pleased with them.

MIXED COLORS.

Hardy Sweet Violets

DIXIE FAVORITE. There is nothing more beautiful than the Hardy Violet, called by some "The Gem of the Garden." Produces in early Spring great masses of fine, large, double purple flowers of exquisite fragrance. Old English strain. Very popular.

Hardy Verbena

Absolutely hardy. Lilac-pink flowers; attractive foliage; everblooming, and grows well anywhere.

Adam's Needle—Yucca

This is sometimes called "Spanish Sword." Stiff, broad, sword-like leaves growing very symmetrical. Flowers midsummer, creamy white. Remarkably drought resistant. Blooms on tall stalks. Heavy, vigorous roots.

VARIEGATED. This is our new Yucca. Similar to above except has variegated or striped foliage. 2-yr. extra large, 75c each; 3 for $2.00.

Choice of any perennial (except as noted) 25c each; 5 for $1.00; 12 for $2.00; postpaid.

Shasta Daisy

Blue Bird Flower (Veronica)

Evergreen Yucca

This Year We Offer You a Fine Line of Shoes—Splendid Values. See Page 58

**BABY TEARS (Helxine)**

A most attractive foliage plant for growing indoors as a pot plant or outdoors in shaded window boxes. Of compact, dense growth with miniature, moss-like leaves. Is of partially creeping or drooping tendency which adds much to its gracefulness. 36c each; 3 for $1.03.

**BEFORE TEARS (Helxine)**

Popular Oleanders

More handsome than a Palm for pot, tub or box culture. Varieties, Pink, White and Dark Red. 30c each.

**PORK HYDRANGEA**

Blue Bells

**Porch Hydrangeas**
**Umbrella Plant**

Large specimen, handsome as a Palm. Stems about two feet high, surmounted with a whorl of leaves, diverging horizontally. Indispensable for aquariums, fountains, etc. 22c each.

**Decorative Ferns**

**FLUFFY RUFFLES.** Dark feathery foliage.

- **WANNAMAKER.** Graceful fronds.
- **WHITMANII.** Dense and compact.
- **BOSTON.** Easy, rapid grower.
- **VERONA.** Exceedingly graceful.

Price: 30c each; large size 48c. Extra large size 75c and $1.50.

**Moss Fern**

Beautiful upright-growing Moss, numerous feathery stems. 25c each; 3 for 74c.

**Mammoth Rex Begonia**

Mammoth leaves of rich metallic lustre and colors blending from brightest green, glistening silver and orange to beautiful plum hues. Flowers blush-pink. 44c each. 3 Rex, all different, $1.50.

**Asparagus Sprengeri**

*(Feather Fern.)* Deep green, plume-like foliage. May be grown in bush or climbing form. Will thrive under practically all conditions. 25c each; larger plants 50c and 75c.

**Hardy Carnation**

**Crimson King**

Blooms all summer; never a day that you cannot cut blossoms. Color, a rich crimson. Absolutely hardy; will thrive in the garden during the winter. 34c each; 3 for 95c.

**American Wonder Lemon**

Blossoms very sweet scented. Fruits at all stages of growth. 30c; large plants, 75c and $1.25.

**Heliotrope Midnight**

Darkest lavender. Easily grown; sweetly scented. An old favorite. 25c each; 3 for 65c.

**SINGLE PETUNIAS**

Unsurpassed for bedding or border plant. Mixed colors. 20c each; 3 for 57c; 12 for $1.92.

**Box and Hanging Basket**

**COLLECTION NO. 1**

10 graceful, decorative plants of our selection, such as Boston Fern, English Ivy, Lantana, Asparagus, Geranium, Variegated Vinca, Petunias, Coleus and Single Geranium. Price, $2.00.

**COLLECTION NO. 2**

Same as above, 12 plants. Our selection. Price, $2.40.

**COLLECTION NO. 3**

Same as above, 15 plants. Our selection. Price, $3.00.

**Weeping Lantana**

Graceful, drooping habit; grows very rapidly and blooms continually summer and winter, producing large clusters of flowers of lilac or rosy-pink. 25c each, 3 for 60c.

**White Calla Lily**

Produces very large, pure white blossoms during the winter and spring. Flowers are held high and on stiff stems. 35c each; 3 for $1.08; larger size 60c each.

**Hardy Begonia Evansiana**

Here is one of the best of our house and garden plants. Beautiful foliage and clusters of pink flowers. Hardy anywhere; does well in sun or shade. 35c each; 3 for $1.08.
THESE showy and pretty flowers are very popular. They are one of the most beautiful summer-flowering bulbs. If you are not ready to plant when you receive your bulbs, open up the package and place them in a box of soil or sand so they will not rot.

When to Plant. Dahlias should be planted from May 15th to June 15th. A common mistake is made in planting them too early. If planted too early the plant makes a rank growth in early season and by the time the buds begin to form, dry weather comes along, hardens the wood and blasts the flowers.

Dahlias are excellent for cut flower purposes. There are four distinct types; namely, Cactus, Decorative, Show and Peony Flowered Dahlias.

Dahlias like a cool atmosphere and in order to get lots of blooms would suggest watering frequently.

When to Dig Dahlia Roots. Dahlias should be dug as soon as the frost has killed the tops. They should not be left too long after being frosted, for these frosted tops are sometimes harmful to the bulbs. If you are not quite ready to dig them after they have been frosted, cut the tops off, but be sure and dig them before the ground freezes, for Dahlia bulbs cannot stand freezing. Great care must be taken in digging the bulbs to see that the tuberous bulbs are not broken from the crown for Dahlia bulbs must have a crown in order to grow.

We always endeavor to fill your order with the variety that you order but because of the great demand we sometimes run short on different varieties. Tour assortment of varieties.

Our Dahlias are all hand dug. This eliminates split crowns, so that my Dahlias are sure to grow.

Cactus Dahlias

EDDIE MAY. Our best Dahlia. The cream of the list. Rich orange bronze. 35c each; 3 for $1.00; 6 for $1.85.

KREIMHILDE. Shell pink, shading to white in the center.

EARL OF PEMBROKE. Deep purple.

MARION THOMPSON. Pure lemon yellow. Flowers large. 3 for 55c; 6 for $1.50 per 6.

PERLE de LYON. Pure white. 30c each; 80c per 3; $1.50 per 6.

Decorative Dahlias

AMERICAN BEAUTY. Bright crimson. 3 for 70c; 6 for $1.25; 10c each.

STARLIGHT. Stripes of red on white background.

GOLDEN SUN. Golden yellow, shaded lighter in the center.

JACK ROSE. Brilliant crimson-red.

MINA BURGEL. Dark vivid red. 3 for 55c each; 80c per 3; $1.50 per 6.

MONEKBEAM. Clear canary yellow. 30c each; 80c per 3; $1.50 per 6.

ORA DOW. Purple tipped lavender.

STRADELLE. Large purple.

YELLOW DUKE. Primrose yellow.

Show Dahlias

BON TON. Ball shaped flower of deep garnet red.

MAY'S WHITE. Ball shaped flower. 30c each; 80c per 3; $1.50 per 6.

ORA DOW. Purple tipped lavender.

PEARL HILDA. Pink. 20c each; 3 for 55c; 6 for $1.00.

STRADLELLA. Large purple.

Peony Flowered Dahlias

MRS. BOLLES. Rose Salmon blended with gold.

Mixed Dahlias

In growing a quantity of Dahlias every year there is bound to be an over-supply on some varieties, and, as we are gradually working over and discarding old varieties and getting new ones in their place, we have a good mixture of Dahlias which we are glad to supply you at a reasonable price. This is an elegant chance to get some real Dahlias at a very moderate price. We can sell these to you at 15c each; 70c per 5; $1.25 per 10.

MAY’S CANNAS

Vigorous Outdoor Grown Bulbs
Guaranteed to Bloom the First Season

CANNAS are the most popular of all bedding plants. Of quick growth and tropical appearance they will give you an abundance of color over a long period of time. They last from early summer until frost.

In ordering Cannas, note the height of their growth so that when planted in groups, the tall ones will be at the back and the smaller ones will be in front. Try one of our "bed" assortments.

All of our Cannas are carefully shipped in a dormant condition.

Culture. Plant in May in good garden soil. Water sparingly at first until they start growing, then water liberally. Set the plants 18 inches apart each way. Tall-growing kinds in the center and dwarf ones along the edge.

Remember our plants are large, vigorous, dormant, outdoor grown, are not potted plants and are guaranteed to please.

ALL CANNAS ARE POSTPAID.

All 15c Cannas are 3 for 40c; 6 for 75c.

All 20c Cannas are 3 for 50c; 6 for 90c.

**Pink Shades with Green Foliage**

**CITY OF PORTLAND.** 3½ feet. The flowers are of the largest size, borne on heavy trusses. The color is a glowing shade of pink. The foliage is substantial and strong, or rich green color. 

0c each.

**MISS FLORENCE HALL.** 3½ feet. Bright pink. 15c each.

**Yellow Shades with Green Foliage**

**KING MIDAS.** 5 feet. Deep yellow flowers. 15c each.

**RICHARD WALLACE.** 4 feet. Canary yellow flowers. Very floriferous. One of the best yellows. 15c each.

**APRICOT.** 4 feet. A very attractive rich apricot yellow flower with green foliage. 20c each.

**Variegated Flowers—Green Foliage**

**GOLDEN GATE.** 4 feet. The flowers open almost pure gold but soon become richly rayed with orange-crimson and apricot center to the throat. 15c each.

**YELLOW KING HUMBERT.** 4 feet. Like Humbert in habit of growth and flowering and produces golden yellow flowers, blotted red. 15c each.

**MME. CROZY.** 3½ feet. Vermilion-scarlet edge and bright golden yellow. 15c each.

**Red Shades with Green Foliage**

**LOUISIANA.** 6 feet. Vivid scarlet. 15c each.

**PRESIDENT.** 4 feet. Beautiful red, with green foliage; flowers 7 inches across when fully opened. Strong grower. 15c each.

**WINTZER'S COLOSSAL.** 5 feet. Without a doubt the largest flowered Canna yet produced. Flowers of vivid scarlet. Sometimes measuring 8 inches across. 15c each.

**Bronze Foliage Varieties**

**KING HUMBERT.** 4 feet. Red. Bronze leaves, one of the best. 15c each.

**SHENANDOAH.** 4 feet. Flowers salmon-pink, borne in large clusters; foliage rich ruby-red. 20c each.

**STATUE OF LIBERTY.** 5 to 7 feet. Flowers blazoning flame red. The foliage is of a rich, luxuriant bronzy shade. The leaves are larger than any Canna we know. 20c each.

**WYOMING.** 5 feet. Brilliant orange. Purple foliage. 15c each.

**DAVID HARUM.** 3½ feet. Flowers intense vermilion-scarlet; very prolific. 15c each.

**Cream and White Shades with Green Foliage**

**EUREKA.** 4 feet. The best white Canna for all purposes. The large, substantial flowers are very freely produced on strong, vigorous plants. 20c each.

**Mixed Cannas**

**MIXED CANNAS.** Common unnamed. This list includes yellows, red and pinks, but we cannot give named varieties at these low prices. 10 for 75c; $3.60 per 50; $7.00 per 100.

Caught 481 Sparrows in Two Months

July 5, 1928.

Dear Sir:

Two months ago today I bought a Sparrow Trap of you and have kept a close record of my catch. To date have caught 481 sparrows. I heartily recommend your sparrow traps. Next spring I will want another one.

Yours respectfully,

G. F. Day, Fort Dodge, Iowa.

Try One of My Canna Bed Specials

Caution. Remember these plants are large, vigorous, dormant, outdoor grown and not potted plants.

A seven-foot Canna bed requires 20 bulbs. 5 Golden Gate for the middle, 6 King Humberts for the second row, 12 Florence Hall for the third or outside row. Value $3.60, special price, $2.10, postpaid.

A ten-foot Canna bed requires 35 bulbs. 5 Wintzer's Colossal for the inside, 12 Yellow King Humbert for the second row, and 15 David Harum for the third or outside row. Value $5.75, special price, $3.95, postpaid.

"Turn to Page 47 for the Best Bargains in Merchandise Ever Offered" —E.E. May
THE Gladioli are the most attractive of all summer flowering bulbs and are particularly worth while because they are one of the best types of cut flowers that are in existence.

The flowers are of almost every desirable color. By cutting the spikes when two or three flowers are open and placing them in water, each flower will open beautifully.

They should be planted early in the season, four or five inches deep. The bulbs should be taken up in the fall. The flowers will bloom from early in August until during October.

I am offering a very complete line of Gladioli. All of the bulbs are of large size. They are sent postpaid.

---

Here are Real Values in Gladioli

We grow only the best standard varieties of proven worth and beauty. The best selections we offer are grouped in these collections. If you want an abundance of wonderful flowers of the highest rating, try my collections. Any one of them will make a beautiful showing.

**Half Price Collection**

TWO EACH OF THE FOLLOWING—Large Blooming Size Bulbs.

- Anna Eberius—Purple
- Early Snowflake—White
- Black Hawk—Cardinal Red
- Jewell—Salmon and Gold
- Le Marechal Foch—Pink
- 1910 Rose—Rose
- Copper King—Bronze
- Crackerjack—Velvety Red

**May’s Famous Rainbow Gladioli Collection**

Growing as we do, on a large scale, we have a great many varieties in all colors. This famous mixture might be called the Rainbow Combination, as it will include practically all colors of the rainbow. A good mixture guaranteed to give satisfaction to those who want Gladioli of all colors for their Summer bouquets.

$1.00

---

**Caladium—Elephant Ears**

This is a beautiful tropical looking plant which has large leaves that resemble elephant ears. These plants will grow 6 to 7 feet high, with leaves 3 to 4 feet long, and 2½ feet wide. 20¢ each; 2 for 35c; 6 for $1.00, large size bulbs.

---

**Madiera Vine**

See page 28 for description and prices.

---

**Tuberoses**

A very waxy white flower which grows on tall stems, frequently from 30 to 50 flowers on one plant. Large sized bulbs, guaranteed to bloom the first season. 2 for 15¢; 4 for 25¢; 6 for $1.00, large size bulbs.

Plant Tuberoses one inch below the surface in a sunny position. They should be taken up in the Fall after first frost. Ours are the Mexican and Pearl varieties, which are the most satisfactory for blooming.

---

**Winter Blooming Bulbs**

For Fall planting, I offer a large assortment of choice Holland Bulbs, my own importation such as Tulips, Hyacinths, Narcissus, Crocuses, Snowdrops, Lilies; and grow my own Peonies, Iris and perennials. Write for Fall catalog next Summer. Ready August 1st.

May's Better Coffee—Less Money

The Taste Tells!—You Are the Judge

My Personal Guarantee: Send me an order for my Mellow, Rich Flavored Coffee. Make up as much as you want to. If it isn't as good or better than any coffee you ever tasted, regardless of price, I'll send your money back.

Always the Same

Every order of my coffee is absolutely the same; Fresh, Mellow and Powerful; and freshly roasted too; the same day your order is received. It goes farther—16 full ounces to every pound.

Enthusiastic letters from customers prove, without doubt, every claim I make about my coffee.

Here's What They Say:

"Have Tasted No Better Coffee"

My husband and I have used Koffee for the last twenty years. We have tasted no better coffee than May's Better Coffee. The flavor just suits our particular taste and it goes farther.

Mrs. D. S. Stewart Robinson, Pickering, Mo., Rt. 1.

"Goes Farther and Costs Less"

John Jansa, Jr., of Canestota, S. Dak., says—"I thought I used a good brand of koffee before using KMA coffee but from now on I will buy only yours. It is deliciously flavored, goes farther and costs less than other coffee.

"Breakfast Spoiled Without It"

I did not realize how better the flavor of your coffee is compared to other coffee until I had to branch off. Our breakfast seems almost spoiled without your coffee.

Mrs. G. H. Montague, Irving, Kansas.

You Try It

My Guarantee Protects You

Yes, the price is right. We've put the price right down to rock bottom so you can buy May's Better Coffee for Less Money

5 Pounds $2.40
10 Pounds $4.60
25 Pounds $10.95

KMA Guaranteed Radio Tubes

We guarantee these tubes to give you six months satisfactory service and will replace any tube within that period providing the filament is still intact. Tubes are sent POSTPAID in any quantity.

- TYPE 200A. Special Detector for sets using Storage "A" batteries. Brings in weak and distant stations. Fits any detector socket. Each $2.00

- TYPE 112A. Power Tube. Recommended for use in the last stage of all sets that are properly wired to allow the use of 135 volts of "B" battery with 9 volts of "C" battery. Each $2.00

- TYPE 171A. Power Tube. Often used as standard equipment on many of the newer sets, but not recommended wherever the set must be operated from dry "B" batteries because of heavy drain. Each $2.00

- TYPE 226-AC. Amplifier Tube. Standard equipment on practically all new AC Sets such as Atwater-Kent Model 37. Each $2.00

- TYPE 227-AC. Detector Tube—Five Prong Base. Standard equipment on nearly all AC Sets such as Atwater-Kent Model 37. Each $3.25

- TYPE UX-280. Rectifier Tube. Full wave Rectifier Tube used in many AC operated Sets and also in many "B" Battery Eliminators. Each $3.50

- TYPE UX-201A. Type UX-201A. This tube is used in the majority of sets today that are operated from a storage "A" battery, and can be used either as a detector or amplifier. Standard equipment on such sets as Atwater-Kent, Crosley Bandbox, etc. Each 86c

- TYPE UV-199. Dry Cell Tube. This Three Volt dry cell tube is standard equipment on such sets as the old Radiola Super-Heterodyne Receiver. Each $1.25

- TYPE 120. Dry Cell Power Tube. Standard equipment on Radiola 20, 25 and 28; requires 135 volts of "B" battery and 2 23/4 volts of "C" battery. Each $1.50

- TYPE WD-11. One Volt Dry Cell Tube. Standard equipment on Radiola 111A. Each $1.25

- TYPE WD-12. One Volt Dry Cell Tube. This Dry Cell Tube is fitted with the large base for use in standard sockets. Each $1.25

- TYPE UX-210. Half-Wave Rectifier Tube. Used in many of the radio and phonograph combinations, also in RCA loud speakers type 104. Each $4.00
Compare Our Prices With Others—See What You Save!

KMA LONG-LIFE “B” BATTERIES

Come to you fresh from the factory—full of pep—Low Priced and Guaranteed to give you more service per dollar than any other “B” battery on the market today.

OUR experience with Radio has taught us much about "B" batteries. Consequently, when we tell you that the Earl May KMA Special Radio "B" Battery will give you the most service for your money you can depend on it.

The unusually low prices are the result of a special arrangement with one of the best manufacturers in the country. We buy in tremendous quantities and the savings we secure are passed along to our customers. When you buy KMA "B" Batteries you get the highest grade, first quality batteries on the market today.

Next time you need "B" Batteries try a set of KMA. A trial will convince you that you can't get longer life or better service even though you pay considerably more. Why pay more when you can't get better batteries?

Giant Heavy Duty 45 Volt "B" Battery, postpaid... $3.50
Double Duty 45 Volt Jump "B" Battery, postpaid... $3.00
Standard Size 45 Volt "B" Battery, postpaid... $2.00
22½ Volt "B" and "C" Battery, postpaid... $1.25
Standard 4½ Volt "B" Battery, postpaid... $0.50

To Zone 4 add 25c each for postage.
To Zone 5 add 50c each for postage.
Safe delivery guaranteed.

KMA Guaranteed Batteries

Radio "A" Batteries
Guaranteed for 18 Months

By means of direct connection with one of the most reliable manufacturers in the country, we are able to give you a battery with 12 to 15 percent greater capacity than the batteries now in use, at a great savings.

Notice that our 100-120 ampere-hour battery has 12 heavy plates in place of 11, as formerly. The new construction gives 6 positive plates instead of 5. The capacity of the battery is in direct proportion to the number of positive plates.

100-120 Ampere-hour, 12 heavy duty plates rubber case... $8.25
110-150 Ampere-hour, 14 heavy duty plates rubber case... $10.25
160-175 Ampere-hour, 16 heavy duty plates rubber case... $12.25

Super-Power—200 Hour Battery

A big, husky battery especially suitable for those who must take their battery to town to be recharged.

The extra heavy construction gives long life, and its big capacity cuts your charging bills in half; to say nothing of your trips to town. It is guaranteed for 2 years of service... $14.25

All Storage Batteries are Priced F.O.B. Shenandoah and are Packed in Individual Crates, Filled, Fully Charged and Ready for Immediate Use.

Automobile Storage Batteries
Guaranteed for 18 Months

Only the best material is used throughout in the construction of our Heavy Duty Automobile Storage Battery for Ford cars. Genuine hard rubber cases are used, plates of extra thickness, separators of genuine Port Orford Cedar, a new type of construction which gives 12 to 15% more capacity, is used.

Heavy Duty Ford Battery. Heavy Plate Construction... $8.25

14 Heavy Plate Battery

The right size for larger cars such as the Master Six Buick, Studebaker, Hudson, New Dodge, etc. Each... $10.25

12 Volt Dodge Battery

This battery is used in the older model Dodge cars and is a real bargain at our price. Each... $12.25

18 Plate Battery

If you have one of the older models of Willys Knight or Packard this is the battery that will give you longest service. Each... $14.25
Every May-Tire has an unlimited guarantee as to time or mileage. It does not matter how far or how long a May-Tire has travelled, in case of defect, we will make a fair and equitable adjustment based on the service the tire has given you. This guarantee is in effect for at least 15,000 miles.

15,000 MILES AND MORE—Means that May-Tires have stood the test, over all kinds of roads and under every conceivable condition. Why? Because QUALITY is built right into May-Tires by expert tire builders.

LOWER PRICE—Have put the price right down. You can now buy May-Tires at a lower price. You save the middleman's profit; put it in your own pocket, when you buy a May-Tire. Be sure to read my guarantee.

New Safety Tread
Customers tell us we have the best NON-SKID tread of any tire. Holds the road and offers the maximum amount of traction. The tread is scientifically designed to free itself of mud, dirt, stones or other foreign substances that adhere to its surface, at each revolution of the tire.

AMERICA'S FINEST TIRE
I want to make comparisons and prove this point to your satisfaction. The large buying capacity that I have, together with the extremely low overhead, enables me to pass a good size profit along to my customers. And that has been my goal since I organized the May Seed and Nursery Co., to furnish you with good friends and dependable merchandise at low cost.

These prices are subject to change without notice.
May's Giant Heavy Duty
Bus and Truck Tires

All roads and all loads look alike to my big Giant truck tires. Massive over-size tires. The extra heavy rut ribs extending at right angles on the sides of the tires combat the ruts and the holes of the road. Cut down your truck tire bill by ordering MAY-TIRE HEAVY DUTY TRUCK TIRES. Carries my Guarantee. Postpaid in zones 1, 2 and 3.

Protected By My Unlimited Guarantee

May's Full Moulded Tubes

Increase Your Mileage 25% By Using My New Full Moulded Inner Tube

If your Tires pinch your tubes and cause blow outs and punctures order May’s Full Moulded Inner Tubes from me. Built like a tire. Fits the casing. Seamless. Can’t be pinched. Makes a tire last much longer.

See How They Fit. They go in tires just like they were tailor made. Don’t use the old style tubes when you can get May’s Full Moulded Tubes at no higher price.

In case of shortage we reserve the right to substitute regular tubes in place of full moulded on high pressure sizes.

All tubes Postpaid in zones 1, 2 and 3.

They Fit The Tire
Guatmtee. V 1 BACX THIS CU

ALL May's FARM BELT PAINTS are
sold, with the distinct understanding
that your money will be refunded if
you are not entirely satisfied. My Paints
and Varnishes are absolutely garan-
teed and you are the sole judge of their quality.

A man to man, I ask you—could anything be
fairer?
you plan to do any painting this year,
order MAY'S FARM BELT PAINT and
you'll get the best at the lowest price.

Our 2 Gallon Free Trial Offer
So positive am I that you will be pleased
with May's Farm Belt Paints that you may
take two gallons of it out of your order
and then if you are not satisfied, return the
balance and I will immediately refund all
your money.

$2.30 A Gallon
In 5 Gallon Lots

Thousands of property
owners are now using
My Paint. Every morn-
ing's mail brings repeat
orders and many new
customers, also scores of
unsolicited letters telling
of complete satisfaction.

Read what they
Say!

Can't Be Beat!
Just hear you telling about your
paint and I want to tell the word,

Get some of my paint and paint-
ed a dry building that had not been
painted for ten years. Gave it two
coats one year ago and it looks as
bright and good today as did the
day I painted it. I showed it to the
neighbors and it has gotten you
several orders. They can't beat it
at any price.

S. P. Nelson,
Gulford, Mo.

The Whitest Paint
We have our house painted with
your White House Paint and I tell
you it is the whitest paint around
here.

We enjoy all your programs,
Thomas Stephe, Dayton, Iowa.

Sure Like Your Paint
I bought it. I think it was 8 gal. of
White House Paint and 1 gal. of Red

Barn Paint last June. Painted my
house, garage and two other 12x146
buildings. White and Barn Red 2
coats, and can truthfully say they
look as well today as when they
were first painted. It is the white
paint I ever saw; slick and glossy,
and looks fine. Suits like your paint,
and everything else I have bought
of you. Have bought coffee, over-
alls, radio tubes, dress goods, paint
and other things, and have been
well satisfied with all of them.

O. E. Fowler,
Emporia, Kan.

### How to Measure Your Buildings

It is easy to measure a building for paint. Start at one corner of your building and measure it by feet all around. Multiply this by the average height of the building at the eaves with two feet added for eaves. This gives you the number of square feet in the building. Divide the number of square feet to be painted by 250 sq. ft. two coats to the gallon) and you will have the amount of paint required for two coats. Always allow 1 gallon of trim to each 5 gallons of body.

### Floor Paints

May's Farm Belt Floor Paint, Concrete Floor Paint and Porch Floor Paint are made in the following colors: Dust, slate, light lead, golden yellow, maroon, tan, dark yellow, and drab.

<table>

### Be Sure Your Order Totals 5 Gallons of Any Kind of Paint So You Will Save THE FREIGHT
The World's Greatest Farm Shoe

Here We Go Again!
Another Opportunity to Save Money

I AM giving you the best quality at the very lowest prices. Never before was such care taken in producing farm shoes. The BEST OF WORKMANSHIP, DESIGN and MATERIALS that cannot be beat, are in these shoes.

To win More than a Million Friends and continue gaining popularity, year after year, a farm shoe must prove itself always reliable in the toughest going. We and our customers positively know these shoes will.

They wear and wear. Moreover, they sure feel good and they sure look good.

My shoes have double nailed and sewed soles, soft double strength, extra heavy, barnyard acid resisting leather uppers. And, their leather insoles will protect your feet from the heat.

My Feature Shoes

May's "Bull Dog"

Black or tan.
Sizes 6 to 12.
Wide width.
Price, postpaid,....

May's "Strong Boy"
Moccasin blucher.
Tan.
Sizes 6 to 12.
Wide Width.
Price, postpaid.....

"Strong Boy" Junior
Sizes: 2½ to 7½ inc., postpaid.

These Shoes Are Made of Genuine Cordovan Horsehide

I CAN'T say more than what the name Genuine Cordovan Horsehide implies. I claim these shoes are the biggest values ever offered in work shoes, selling for these prices.

As for comfort, they feel as soft and as comfortable as a house slipper. As for service, they have the strength and endurance which always comes with only the best materials and the finished product of master craftsmen. As for appearance, use them for dress if you wish, because they are splendid looking shoes. As for economy, you couldn't buy their equal anywhere at my price.

Men who wear Genuine Cordovan Horsehide shoes know these things are true. Those who haven't worn them, naturally have a perfect right to know why they deserve such high praise. Here are the facts. First of all, they're Genuine Cordovan Horsehide.....a super layer of leather that nature places in the hide.......the one and only "wearproof" leather. The shoes are double tanned for strength, softness and resistance against soil and barnyard acids. Uskide soles, with non-skid tire effect bottom finish, will outwear two ordinary soles. Slip sole and inner-sole, first quality oak leather, stitched and double nailed with brass nails to insure more strength. Rubber heel, leather counter pocket, and top facing.

You're Getting a Whole Lot of Shoe for Very Little Money When You Buy May's Shoes
Farm Shoes at Farmer’s Prices

May’s “Broadcaster”
Munson Army Last—Goodyear Welt
Steel Arch Support

An improved service shoe for outdoor men. Extra tough and long wearing with the good looks of a dress shoe.

Uppers genuine Cordovan horshide, double tanned. Full leather soles with built-in steel arch to prevent foot fatigue. There are no tacks used in the construction of this shoe, which makes it very flexible.

Double re-enforced tip at the toe gives wear where wear is greatest, best quality rubber heels.

Wide Width—Sizes 6 to 12
Tan, Price Postpaid.............................. $5.45

May’s “Cornhusker”

Made of Genuine Cordovan Horshide Leather

A SUPER-SERVICE SHOE, built for wear and strength and has a dressy looking appearance. Blucher style. Double tanned uppers. Famous Uskide soles, spring step rubber heel, first quality oak leather insole and slip sole. The last is wide and roomy, both nailed and stitched soles, with extra row of brass nailing, making it doubly strong. Silk finished wax thread used throughout. Double tip at toes where it wears the most.

Wide Width—Sizes 6 to 12

Postpaid—Same Quality and Construction as Men's

Men's overalls come in sizes 30 to 42, add 10% for sizes 44 to 50 and 20% sizes over 52. Jackets sizes 36 to 44, add 10% for sizes 46 and over.

Farmers are the best judges of overalls, anyway. They buy more of them, use them harder and are not backward in letting us know what they want in overalls. We took the ideas and suggestions from our thousands of overall customers and built an overall that you want.

Here's how these overalls are made. Very best quality, extra heavy denim, pre-shrunk, double dyed and as near fade proof as denim can be made. LOOK AT THESE ADDITIONAL FEATURES. Double lined suspenders—can't roll. Watch pocket, pencil pocket, flap pocket, match pocket, plier and rule pocket, hammer loop, as well as the two big, roomy, heavily constructed pockets in front and two lined hip pockets. Men’s overalls triple stitched—a new pair if they rip.

Jackets have the same rugged construction as the overalls; big and roomy throughout, raglan sleeves insuring comfort across the shoulders, set up military collar, two buttons on lined cuff, four large pockets, detachable non-rusting buttons; same guarantee as overalls.

Cowboy Pants are made of high grade, extra heavy, pre-shrunk 8 oz. denim, copper riveted, triple stitched with orange thread, yoke back and take-up strap, extra wide belt loops. A mighty serviceable garment.

Triple Stitched Work Shirts
Will Give You Longer Wear

Friends, here's a shirt that is the best I have ever seen. It is cut extra large, in fact, the entire shirt is made over dimensions several inches larger in proportion to the neck size than the majority of work shirts. No binding tightness when you buy these shirts. Two button pockets. Lined collar and cuffs. Coat style. Extra heavy Chambray. Fully guaranteed—you can write your own ticket.

**I Have Cut the Price to Rock Bottom**

I sold thousands of these coats last season and already the inquiries are coming in for more of them. Owing to the enormous quantity purchased for this season I have been able to improve the coat in a great many ways and sell it to you at a new low price.

**Satisfaction or Your Money Back**

This coat is made especially for me and is made to my rigid specifications and I sell it on "SATISFACTION OR MONEY BACK" basis.

**Features of This Better Coat**

- Heavy strips of leather reinforce the pocket corners which prevents ripping and tearing.
- The arm holes are cut extra full permitting free arm movement, they are also especially reinforced to give longer wear.
- The linings are carefully selected from only first quality imported pelts which are thick, generously soft, and warm.
- The sleeves are equipped with soft knitted wristlets which fit the wrists snugly.

If you have never owned a Sheep Lined Coat—get one now by all means. If you have owned one—you will want another one. This coat formerly sold for $15.00 to $20.00. We have cut the price to rock bottom this year.

---

**My Guarantee**

I guarantee the lining in this coat to be genuine especially selected good quality sheepskins.

I guarantee the material to be heavy weight moleskin and the workmanship to be equal to that in coats sold elsewhere for more money.

If after receiving and thoroughly inspecting this coat you are not entirely satisfied, return the coat and I will promptly refund your money.

Earl E. May

Your Money Back if you are not Delighted with

**Eva Hopkins’ Creme Powder and Rouge**

Everyone Knows Eva Hopkins, Who Talks to You Each Day from KMA

**Eva Hopkins’ Creme Powder**

In just a little more than a year, over 30,000 women have found satisfaction in these marvelous cosmetics. The powder, in addition to beautifying, has a soothing, healing effect and is a perfect preventative for sunburn and tan. Try it, you'll be delighted.

**PRICE (Sponge Free) $1.00 Postpaid**

**Eva Hopkins' Rouge**

Eva’s rouge is the most clinging and velvety rouge on the market today. It is made in shades for blondes and brunettes.

**PRICE (Lipstick Free) $1.00 Postpaid**

**DIRECTIONS:** Cleanse the face well with a good soap and lukewarm water—then rinse with cold water, or ice—then moisten sponge with water, rub over Eva’s Creme Powder and apply. Smooth with finger tips to avoid streaking. Use Eva’s Rouge under Eva’s Creme Powder. If skin is dry or harsh, remove powder at night with cleansing cream—if oily, use soap and water.

**May’s Bargain Bundles of New Dress Goods**

**Fast Color — High Quality**

Five 3½ yd. lengths for $5.00
Five 4 yd. lengths for $6.00

**We Pay the Postage**

A remarkable opportunity to buy fresh, new dress goods, in the very latest patterns and colors, at a price far below what you would expect to pay for such fine materials.

The bundle will consist of selections made from the following high grade fabrics:

- **HIGH GRADE RAYON** — lustrous and washable, a quality usually selling at 75¢ or 80¢ per yd.
- **PONGEE** — soft, smooth and evenly woven. Especially fine for children’s clothes.
- **GENUINE BROADCLOTH** — noted for its long-wearing qualities. Excellent for men’s shirts, etc.
- **CHALLIE** — figured or plain. This popular material has many uses.
- **FANCY COTTON WASH FABRICS** — Especially good for making school dresses.
- **ENGLISH PRINTS** — lovely new patterns of good firm materials. Light or dark colors as you wish, commercially fast colors. Each bundle contains two lengths of these fine English prints.

**OTHER MATERIALS** — as they come to us from the mills.
ANNUAL FLOWER SEEDS

TO GET a beautiful flower garden quickly, plant seeds of some of the annual flowers. These flowers will develop into a wonderful mass of blooms, but will brighten your grounds for a season and will be gone before you have to bother about protecting them from cold weather. As a general rule most seeds should be covered three times their thickness.

As edging plants, you will find nothing better than Sweet Alyssum, English daisies, Candytuft, Ageratum, Phlox, Drummondi, California Poppy, and several others which you will find in this list of annual flowers.

**Ageratum**

1011 **Acrocinium**. A pretty annual. Everlasting. Grows about 15 inches high. Bears daisy-like flowers. When cut in the bud state can be dried and used in Winter bouquets. Double mixed, pkt., 10c; ½ oz., 35c.

**Ageratum Tom Thumb**

1012 **Little White Star**. Pkt., 10c.

1013 **Little Blue Star**. The most satisfactory blue for our climate. Pkt., 20c.

**Alyssum** (Sweet Alyssum or Madwort). Pretty little plants for beds or vases, blooming all Summer long. Very sweetly scented.

1015 **Little Gem or Carpet of Snow**. The plants, which when seeded thickly, show very dense and are completely covered with snow-white flowers. Unsuspected for borders. Pkt., 10c; ½ oz., 35c.

1016 **Lilac Queen**. Deep lavender-lilac. Of dwarf habit. Pkt., 10c.

1020 **Amsaranthus** (Snapdragon). Snapdragons are very popular. Flowering from July to frost in a wide range of colors, it makes an ideal garden or cut flower. Dark glossy leaves and beautiful spikes of flowers with finely marked throats. One of the most showy border plants. Semi-Tall Sorts. 18 to 20 inches.

1021 **Aurora**. Scarlet with white throat. Pkt., 10c.

1022 **Amber Queen**. Amber color. Pkt., 10c.

1023 **Bonfire**. Orange or flame color. Pkt., 10c.

1024 **Buff Queen**. Rose-canary. Lip shaded orange. Pkt., 10c.

1025 **Queen of the North**. Large, fragrant, white flowers. Nice for pot culture as well as borders. Pkt., 10c.

1026 **Dwarf Sorts Mixed**. All sorts of red and yellow. Best for cutting. Pkt., 10c.

1027 **Dwarf Sorts Mixed**. 8 inches high. Large variety of colors. Best for edging. Pkt., 10c.

**Asters**

One of the most important Summer and Autumn flowers. The early sorts begin blooming in July, followed by the mid-season sorts, which are at their best in August. Then come the late blooming kinds, which bloom through September and October.

**Crego Asters**. Late. This variety produces the largest flowers of the Comet type. Very full and fluffy. Blooms 4 to 5 inches in diameter. When cut they outlast all other types.

1030 **Crego Crimson**. Pkt., 10c; 3 for 25c.

1031 **Crego White**. Pure white. Pkt., 10c; 3 for 25c.

1032 **Crego Shell Pink**. A clear pink. Pkt., 10c; 3 for 25c.

1033 **Crego Lavender**. A very fine lavender. Pkt., 10c; 3 for 25c.

1034 **Crego Purple**. Clear dark purple. Pkt., 10c; 3 for 25c.

1035 **Crego Mixed**. All colors. Pkt., 10c; 3 for 25c.

1037 **Branching**. Large late blooming. Mixed colors. At their best in September. Pkt., 10c; 3 for 25c.

1040 **Giant**. Very dark red. Grows about 2 feet tall. One of the finest, largest, and perfectly double. Habit, tall and well branched. Color, clear lavender, which combines well with other colors. It took me a long time to find this one. If you want something extra fine, try this variety. Pkt., 15c; 2 for 25c.

1041 **Heart of France**. One of the largest flowering Asters. Very dark red. Grows about 2½ feet tall. One of the finest, largest, and perfectly double. Habit, tall and well branched. Color, clear lavender, which combines well with other colors. It took me a long time to find this one. If you want something extra fine, try this variety. Pkt., 15c; 2 for 25c.

1042 **Hoffenzollern Improved**. Flowers large and double with curled petals. Has long stems. Hard to beat. Pkt., 10c.

1044 **Mayfair Lavender**. One of the finest, largest, and perfectly double. Habit, tall and well branched. Color, clear lavender, which combines well with other colors. It took me a long time to find this one. If you want something extra fine, try this variety. Pkt., 15c; 2 for 25c.

1045 **Soleil d'Or** (Golden Sun). Best yellow Aster. The quilled flowers are of fair size. They are borne on long stems. The color is a pleasing shade of yellow. Pkt., 20c; 2 for 25c.

FLOWER SEEDS—Continued

1051 ALONSOA WARSCEWICZI. 15 inches high. A fine plant with bright vermilion-scarlet flowers. Suitable for bedding. For a red, white and blue border, plant Alonsoa for red, Sweet Alyssum for white, and Ageratum Blue for blue. Pkt., 10c.

1052 RALPH S. Camellia Flowered, Sometimes called "Touch-Me-Not" or "Lady's Slipper." An old favorite garden flower producing brilliant colored flowers in great profusion. Flowers very large, perfect in form, double and produced in abundance. Mixed colors. Pkt., 10c.

1053 BROWALLIA ELATA. A beautiful little annual which should be better known. 12 inches tall. Blooms midsummer to frost. Mixed blue and white. Pkt., 10c.

1054 BALSAM. Camellia (Pot Marigold) "Lady's Slipper." An old favorite garden flower producing brilliant colored flowers in great profusion. Flowers very large, perfect in form, double and produced in abundance. Mixed colors. Pkt., 10c.

1055 CALANDRA. An annual favorite garden flower profuse bloomers. They soon flower from seed and reseed itself. Mixed colors. Pkt., 10c.

1056 CALLIOPSIS. Very hardy and showy annual with bright yellow and red, white and blue flowers very hardy and showy annual with bright yellow and red, white and blue flowers. Mixed. Pkt., 10c.

1057 CALLIOPSIS. Very hardy and showy annual with bright yellow and reddish brown, single, daisy-like flowers. Easily grown and useful both for garden decoration and cutting. Sow early and thin to 12 inches apart. Mixed. Pkt., 10c.

1058 CALENDULA (Pot Marigold). Dwarf. Fine for rock gardens or in the border. Pkt., 10c.

1059 CANDYTUFT. These Candytufts are of fine habit and profuse bloomers. They soon flower from seed and remain long in beauty. For massing in flower beds and edgings they make a wonderful showing. Good for cutting.

1062 Chrysanthemums, Annual Varieties. They produce long, stiff-stemmed flowers in attractive shades. They are very showy and effective garden favorites. Blooms keep well in water for a long time.

1063 CLEOMA (Indian Shot). Stately plants with handsome foliage and showy flowers. The seeds should be soaked twenty-four hours before water-mention planting. If sown in February should bloom in July.

1064 CRASZY'S DWARF Hybrid. Saved from the largest flowerers only. All colors. Pkt., 10c.

1065 DHYFRA (Cockscomb). Pkt., 10c.

1067 COTTON SEED. Very hardy and showy annual with bright yellow and reddish brown, single, daisy-like flowers. Easily grown and useful both for garden decoration and cutting. Sow early and thin to 12 inches apart. Mixed. Pkt., 10c.

1069 DUSTY MILLER. Bottle, Ragged Sailor or Corn Flower. Is a hardy annual coming up year after year from self-sown seed. Mixed. Pkt., 10c.

1072 Goldengirl. Striking yellow flower with a crimson ring near center. Pkt., 10c.

1074 Northern Star. Large, pure white, fringed petals with carmine-yellow around a dark brown eye. Pkt., 10c.

1076 Queen Mary. Double. Rose-carmine. Pkt., 10c.

1077 Single Annual Chrysanthemums

1078 The Sultan. Rich wallflower-red with narrow yellow zone around the brown disc. Pkt., 10c.

1079 Mixed Varieties. All colors and shades. Pkt., 10c.

1080 CALLIOPSIS. Very hardy and showy annual with bright yellow and reddish brown, single, daisy-like flowers. Easily grown and useful both for garden decoration and cutting. Pkt., 10c.

1081 CALLIOPSIS. Very hardy and showy annual with bright yellow and reddish brown, single, daisy-like flowers. Easily grown and useful both for garden decoration and cutting. Pkt., 10c.

1082 CALLIOPSIS. Very hardy and showy annual with bright yellow and reddish brown, single, daisy-like flowers. Easily grown and useful both for garden decoration and cutting. Pkt., 10c.

1083 Cyanus Cyanus (Bachelor's Button). Also called Blue Bottle, Ragged Sailor or Corn Flower. Is a hardy annual coming up year after year from self-sown seed. Mixed. Pkt., 10c.

1086 Queen Mary. Double. Rose-carmine. Pkt., 10c.

1087 Mixed Colors. All varieties. Pkt., 10c.

1088 Queen Mary. Double. Rose-carmine. Pkt., 10c.
FLOWER SEEDS—Continued

COSMOS. Beautiful Summer and Autumn blooming plants. Plants are very bushy and compact. They produce thousands of artistic flowers in pure white, pink and crimson shades. Sow in Spring after danger of frost is past. Plant about 18 inches apart in rows or in masses in beds. When the plants are about a foot high the tops should be pinched out to make a bushy growth. Early Flowering Mammoth. Giant flowered early sorts.

1090 — White. Pkt., 10c.
1091 — Pink. Pkt., 10c.
1092 — Crimson. Pkt., 10c.
1093 — Lady Lenox Pink. Pkt., 10c.
1094 — Lady Lenox White. Pkt., 10c.
1095 Mammoth Giant Mixed. All colors. Pkt., 10c.

Anemone Flowered or Crown and Crested. These are different than other Cosmos in the formation of the center of the flower, which develops a crown or crest like an Anemone. The guard petals remain the same.

1096 — Pink Beauty. Pkt., 15c; 2 for 25c.
1097 — White Queen. Pkt., 15c; 2 for 25c.
1098 — Mixed. Pkt., 15c; 2 for 25c.
1099 CHINESE FORGET-ME-NOT (Cynoglossum Amabile). Sometimes new; a biennial but we grow it as an annual. 18 to 24 inches high. Covered with vivid blue "forget-me-not-like" flowers throughout summer. Very fine for cutting. Pkt., 10c

1100 COLEUS. The most popular of all foliage plants. The leaves often measure 10 inches in length and 8 inches in width. Are crimped and frilled with beautiful combination of colors. Sometimes called "Foliage Plant." Fine Mixed. Pkt., 10c.

1101 CHINESE WOOLFLOWER (Celosia Childsi). A variety of Cockscomb. Plants grow 2 to 3 feet high, the bloom starting early. It often reaches the immense size of 2 feet in circumference. Scores of branches are thrown out, each bearing a ball of scarlet wool. Will not fade until hit by frost. Fine for winter bouquets. Pkt., 15c; 2 for 25c.

COIX (Job’s Tears.)
1102 Zachrymae. 2 to 4 feet. An ornamental grass with curious seeds which may be used as beads. Oz., 10c; ¼ lb., 35c.

CYCLAMEN

Chinese Woolflower

Dianthus Pinks

1104 DAHLIAS. Dahlias do not come true-to-name from seed, hence, the improvement and pleasure derived from new varieties. Pkt., 10c.
1105 DATURA (Sweet Nightingale). A large, strong plant with trumpet-shaped, fragrant, pearl-white flowers. 3 feet high. Pkt., 10c.

DIANTHUS OR PINKS. Exquisite fragrance. Stock flowered. Early bloomer. The varieties classed as annuals are really biennials. They may be sown outdoors after danger of frost and in a few weeks' time are a solid mass of bloom, continuing until heavy frost. Quite often they will survive the Winter if given some protection. They grow about a foot high. Make very good plants for beds or borders. We have all colors of these carnation-like flowers.

Double Annual Pinks.
1109 — Snowball. Beautiful large, double white. Pkt., 15c.
1110 — Violet Queen. Very rich viole. Pkt., 15c.

Single Annual Pinks.

1115 — Snowball. Pure white. Pkt., 10c.
1116 — Mixed. All colors. Pkt., 10c.
1117 DIDISCUS COBULAE (Blue Laceflower). An old-fashioned annual which has been forgotten; broad lacy heads on 2 ft. stems. Clear blue; good cut flower. Pkt., 10c.
1118 African Daisy. An extremely showy annual Daisy from South Africa, which suits our climatic conditions perfectly. The bushy plant grows 12 to 15 inches high. The flowers, which are 2½ inches across, are a rich glossy orange-yellow, with dark disc and halo. Pkt., 10c.
1119 ESCHSCHOLTZIA (California Poppy). A hardy, free-blooming annual growing about 15 inches high and producing quantities of single, poppy-shaped blooms in shades of yellow, orange or red. Pkt., 10c.
FLOWER SEEDS—Continued

1123 FEVERFEW (See Matricaria, page 50).

1124 FOUR O'CLOCK (Marvel of Peru). Another good old-fashioned flower bearing hundreds of flowers during the season, of white, yellow, crimson and violet. Mixed. Pkt., 10c.

GAUILLARDIA (Blanket Flower).

1125 PICTA LORENTZIANA. This annual has heads of star-shaped, tufted flowers and are greatly admired for their rich blending of red, yellow and orange. 1½ feet. Pkt., 10c.

1127 GYPSOPHILA ROSEA. Very soft pink in color. Pkt. 10c.

1128 GOLDEN FEATHER (Globe Amaryllis). Pkt., 5c.

HELIANTHUS (Sunflower). Remarkable for the stately growth, size and brilliancy of their flowers, making a very good effect among shrubbery and for screens.

1129 Dwarf Double. 5 feet. Double dark yellow. Pkt., 5c.

1131 HELIOTROPE. In shades of purple. Fine for bouquets; the sweet vanilla odor is liked by all. Pkt., 10c.

HELICHRYSUM (Strawflower). Everlasting hardy annual. 1½ feet. Flowers are round, flat but thick, very full of short, stiff, incurved petals surrounding a depressed center. Their chief value is for Winter use in baskets and vases, dried, cut with long stems when about a third opened. Suspend bunch (heads down) in a cool, dry place until thoroughly dried.

1134 Silver Ball. Frost-white.

1135 Golden Ball. Golden-yellow.

1136 Rose Queen. Carmine-rose.

1137 Salmon Queen. Salmon-pink.

1138 Violet Queen. Violet.

1139 Mixed. All colors.

All above varieties. Pkt., 10c each.

1150 WE HAVE A STRAWFLOWER COLLECTION, ONE PKT. EACH OF THE SIX VARIETIES FOR 50c, POSTPAID.

1151 ICE PLANT. (See Mesembryanthemum—page 50.) Pkt., 10c.

1152 IMPATIENS Sultani. Rosy carmine flower one inch in diameter, produced freely throughout the season. Although a house plant, it does fine out of doors. 1½ feet. Pkt., 10c.

1153 KOCHIA (Burning Bush or Summer Cypress). 2½ feet. The globe-shaped or pyramidal bushes are close and compact, and of a pleasing light green color. The plant may be grown singly or in the form of a hedge or background. In early Autumn the whole bush becomes carmine or blood-red and is called Burning Bush. Pkt., 10c.

1154 LANTANA. Shrubby plants with Verbena-like flowers, in shades of white, red and yellow. Pkt., 10c.

1155 White. Pure snow-white elegant flowers set closely on long stately spikes. Pkt., 10c.

1157 Dark Blue. Dark blue flowers of large size, set so closely on the stem as to form a solid mass of color. Pkt., 10c.

1158 Pink. A delicate shade of clear pink. Pkt., 10c.

LOBELIA. This charming class forms compact little bushes about six inches high and is fairly sheathed with bloom throughout the season. Highly desirable for edging, ribbon bedding and garden decoration as well as for pot culture.

1160 Crystal Palace (Compact). Deepest blue and very dark foliage. Pkt., 10c.

Marigold

The Marigolds are old favorites, free-flowering annuals of easy culture. They light the garden with a glitter of yellow far into the frosts of Autumn. The African varieties produce large, self-colored blossoms on tall plants. The French are much smaller but the markings are very attractive.

DOUBLE TALL AFRICAN VARIETIES.
1165 Eldorado. Large, double flowers in yellow shades. Pkt., 10c.
1166 Lemon Queen. Lemon color; the flower is very much like the Orange Queen. Pkt., 10c.
1167 Orange Queen. Large, perfect, double, quilled flowers of rich deep golden orange color. Very attractive. Pkt., 10c.

DOUBLE DWARF, AFRICAN.

DWARF FRENCH DOUBLE.
10 inches.
1171 Lemon Ball. Light lemon yellow. Pkt., 10c.

DWARF SINGLE FRENCH.
1172 Legion of Honor. A single-flowering variety forming compact bushes about 9 inches high. Flowers early and up to frost. Golden yellow marked with a large spot of velvety crimson at the base of each petal. Pkt., 25c.
1174 Golden Star. Flowers have golden yellow petals with purple-red streaks. Pkt., 10c.
1175 GERANIUM. Favorite house plant. Seed started early will bloom the first year. Mixed colors. Pkt., 10c.
1151 MESEMBRYANTHEMUM (Ice Plant). Suitable for rock work, hanging baskets, etc. Foliage thick, waxlike white flowers. Pkt., 10c.
1123 MATRICARIA (Feverfew). 3 feet. Neat, small, double, white flowers adapted for bedding and cutting. Pkt., 10c.
1180 MIMOSA (Sensitive Plant). A curious and pretty plant; pinkish white flowers. The leaves close and drop when touched or shaken. A great curiosity. Pkt., 10c.

MIGNONETTE. A delightfully fragrant, hardy annual blooming the entire season in the flower border. Also fine for pot culture during the Winter and Spring.
1181 Defiance. This magnificent variety, when grown under proper conditions, will produce spikes 12 to 15 inches long. Pkt., 10c.
1182 Large Flowering. The common sweet Mignonette an old favorite. Pkt., 10c.

NICOTIANA (Sweet Scented Tobacco Plant).
1183 Aftnis. This is the pure white form and is very popular. White, sweet-scented, star-shaped flowers. Pkt., 10c.
1184 Hybrid Mixed. A great variety of colors and star-shaped flowers. If the plants are taken up in the Fall, cut back and potted, they will bloom nicely in the house during the Winter. 2 to 3 feet. Pkt., 10c.

Nasturtiums

Nasturtiums cannot be equalled for duration of bloom, ease of culture, brilliancy of coloring, and general excellence. Only the best and most distinct varieties are offered below.

DWARF NASTURTIUMS. Suitable for edging and bedding. Grow quickly and furnish the greatest abundance of long lasting, sweet scented cut flowers. The most popular annual and should be in every planting.
1190 Beauty. Scarlet splashed canary. Pkt., 10c; oz., 20c.
1191 Pearl. White. Pkt., 10c; oz., 20c.
1192 Golden King. Bright yellow. Pkt., 10c; oz., 20c.
1193 Rose. Pkt., 10c; oz., 20c.
1194 King Theodore. Dark maroon; dark foliage. Pkt., 10c; oz., 20c.
1196 King of Tom Thumbs. Intense deep scarlet; dark foliage. Pkt., 10c; oz., 25c.
1197 Mixed Dwarf. All varieties and colors. Pkt., 10c; oz., 20c; ¼ lb., 60c; ½ lb., $2.00.

TALL OR CLIMBING VARIETIES. 8 to 10 ft. Should be planted in dry, poor soil, as on rich ground they are inclined to run to leaf.
1198 Atropurpureum. Crimson color. Pkt., 10c; oz., 20c.
1200 Jupiter. Great, rich yellow flowers resembling orchids in their beauty. Pkt., 10c; oz., 25c.
1202 Pearl (Moonlight). Creamy white. Pkt., 10c; oz., 20c.
1203 Vesuvius. Salmon-rose; dark foliage. Pkt., 10c; oz., 20c.
1204 Mixed Tall Varieties. All sorts and colors. This mixture includes popular strains of Mad Gunther, Hybrids, Lobbs and Chameleon. Pkt., 10c; oz., 15c; ¼ lb., 50c.

"IF MAY SELLS IT—IT GROWS"

SEEDS FOR HEDGES
Pour O'Clock, Salvia (Flowering Sage), Kochia (Summer Cypress or Burning Bush), Zinnia, Geranium.

Highest Quality at Lowest Prices is Guaranteed at May's
May’s Miracle Mixed Pansies

PANSIES, because of their distinctiveness and coloring, are loved and known by almost everyone. They are nicely grown in beds or along the front of a border. Always they will be among the most interesting flowers in your garden. Their plants will furnish you many small bouquets for the house.

My Miracle Mixed Pansies form robust plants with desirable compact round blooms. They have long stems and if grown in good soil will develop to enormous size. They will bloom throughout the entire summer and fall.

If the seed is sown in shallow boxes in the house, they will produce a wonderful lot of flowers during the Summer and late Fall. If sown outdoors during the Spring in a partially shaded location they will bloom in August. The plants can be saved through the winter if properly mulched.

PREPARING BED FOR GERMINATING SEED

1. Have your ground perfectly clean and free of weeds and trash.
2. On the level surface spread evenly a layer of pulverized manure, thoroughly pulverized.
3. Overlay manure with half inch of the best soil you have, thoroughly pulverized.
4. Roll or rake down and tamp surface smooth.
5. Use the hose freely and soak the bed down several inches.
6. Sow your seed in drills or broadcast. We sow broadcast.
7. Cover as lightly as possible with your best soil or sand. Sand is best.
8. Use spray of water to moisten surface.
9. Allowing plenty of ventilation, keep your beds moist, quite moist, but not soaking wet, until plants come up.

Named Varieties and Mixed

ANY 15c PACKET 2 FOR 25c. POSTPAID

1210 BRONZE MASTODON. Very large. All shades from burnished brass to gold, tinged with nearly every color known to Pansies. Pkt., 15c.
1211 BLACK MASTODON. Nearly all jet black; a few very dark purple and all velvety in substance and of immense size. Pkt., 15c.
1212 MASTODON BEACONSFIELD. New. A fine bluish purple with a distinctive lavender tinge on the upper part of the upper petals; a beautiful European variety, but having the size of the true Mastodon type. Pkt., 15c.
1213 STEEL’S IMPROVED VOLCANO. A rich, velvety burgundy red of immense size. Pkt., 15c.
1215 MASTODON STRIATA. Our novelty. Of great size and varied type, mostly dark and rose-pink shades, mottled and beautifully striped in true sunburst fashion. Pkt., 15c.
1216 STEEL’S MADAME PERRETT. A beautiful and distinct type with edges of petals frilled and bordered white; colors dark wine, pink and red. Pkt., 15c.
1219 HORTENSE ROSE. Light and dark rose colored flowers with prominent blotches on petals; blooms marvelous in size. Pkt., 15c.
1220 GOLDEN QUEEN. Large size with good form and rich coloring of petals. Pure yellow. Very attractive. Pkt., 15c.

A Few Annuals Ideal for Cut Flowers

For cutting flowers, there is nothing finer than a bed of Snapdragons, Asters, Calendulas, Caliopes, Centaureas, Cosmos, Pinks, Gallardias, Lupines, Gypsophila, Salpiglossis, Scabiosa, Sweet Sultan, Sweet Peas, Clarkia, Sweet William and African Marigolds.

May’s Miracle Mixed Pansies

Plants

All Colors

My mixture is composed of all colors of the very best varieties including ruffled flowers, smoky rims, henna shades, etc., a fine mixture and I am sure they will please you. 75c per doz., 3 doz. for $1.40; $5.00 per 100, postpaid in zones 1, 2, 3 and 4.

Dear Mr. May:
May 4, 1928.
I am writing to let you know I received the Delphinium—it sure looks healthy and nice. I just wish you could see my garden peas. I plant them in two long rows and they were up about two inches when that heavy snow came. Now they are up about five or six inches and will soon have blossoms about to open. The rest of my garden seed is up. The Morning Glories are up too, and I sure want to thank you for all.
Mrs. Gilbert M. Jones, R. D. No. 1, Falls City, Nebr.
Petunias

Few plants equal the Petunias for freedom of bloom and variety of color. Petunias will produce handsome, sweet-scented flowers in their delicate and gorgeous colors throughout the whole Summer. Unsurpassed for boxes, beds or informal garden planting.

**Phlox Drummondii**

The showiest and most easily raised of all annuals. All the tints of the rainbow are represented with all possible variations of stripes, veins and edges of contrasting shades. We know of nothing which produces such a continuous supply of the most attractive flowers and a wonderful range of colors. 18 inches high.

- **Scarlet.** Flory scarlet.
- **Alba.** Snow white with dark eye; a good contrast.
- **Rosy Chamois.** Deep rose.
- **Sabelina.** Yellow.
- **Extra Choice Mixed.** Best large flowers.
- **Starry and Fringed.** Very dwarf flowers, fringed and distinctly edged with white; mixed.

Any of the above packets, 10c each; 3 for 25c.

**Portulaca (Rose Moss)**

Forms masses of delicate green foliage covered with bright colored flowers somewhat resembling small roses. Will bloom profusely in hot dry situation. Easily transplanted.

- **Single Mixed.** 10c each; 3 for 25c.
- **Double Mixed.** 10c each; 3 for 25c.

**May's Poppies**

Annual Poppies should be sown as early in the Spring as possible, where they are to remain, as they do not stand transplanting. Sow very thinly. If they come up too thickly, they must be thinned to stand out 3 to 4 inches apart. It is well to make several sowings at intervals to keep up a succession of blooms. They are noted for their satiny flowers of silk-like texture in many brilliant color combinations.

- **Tulip.** One of the most brilliant flowers. 3 inches across. Black spots at base and at the petals. Single. Pkt., 10c.
- **Peony Flowered Mixture.** Double, ball-shaped flowers of gigantic size. Pkt., 10c.
- **Shirley Mixed.** Beautiful and delicate shades of rose, apricot, salmon-pink and bluish to glowing crimson, with a sprinkling of blues. Pkt., 10c.
- **White Swan.** Fringed double white. Pkt., 10c.
- **Carnation Flowered Mixture of Double Poppies.** Large size flowers of all shades. Many striped. Pkt., 10c.
- **American Legion.** A greatly improved English scarlet or Flanders Poppy. Very large flowers of dazzling orange-scarlet. Pkt., 15c.
- **Pyrethrum (Golden Feather).** 6 inches. One of the best plants for edging. Grown for its beautiful orange foliage. Pkt., 10c.

**Baccharis (Castor Bean)**

- **Zanzibarensis.** Mixed. 10 to 12 feet. The oriental leaves, beautifully lobed, are 2 1/2 to 4 feet across. Well adapted for backgrounds. Pkt., 10c.

**Salpiglossis (Painted Tongue).** These are one of the very finest annuals, and are of the easiest culture, succeeding in any good ordinary soil and in a sunny position. The plants grow from 34 to 30 inches high. They are splendid for cutting, lasting well.

- **Mixed colors.** 10c per pkt.
- **Crimson.** 10c per pkt.
- **Purple and Gold.** 10c per pkt.
- **Scarlet and Gold.** 10c per pkt.
- **White and Gold.** 10c per pkt.

Don't Miss My Bargains in House and Garden Plants—Page 42.
Flower Seeds (Continued)

SALVIA (Scarlet Sage). The Salvia is an excellent bedding plant that keeps the garden bright with color until late Autumn. Also makes a good pot plant. Does well in window boxes and is useful for cutting. Its best use, however, is as a hedge or border plant for color effect.

1262 America or Globe of Fire. Continuous bloomer, uniform in habit of growth, which makes it particularly valuable for bedding or planting in lines. Pkt., 15c.

1263 Blue Bird. Very similar to other Salvias, but with bright blue flowers.

1265 Nana Magnifica Rosea. The plant is dwarf and erect. The foliage dark green, flowers beautiful tender rose passing to fresh coral-pink. Develops in full Summer light and does equally well as a cut flower. Pkt., 25c.

1180 SENSITIVE PLANT (See Mimosa, page 50).

SMILAX. Desirable for window vines on account of its charming glossy green foliage. Sow seed in February and March. Keep in moist place. Pkt., 10c.

SNAPDRAGON (See Antirrhinum, page 63).

STATICE SINUATA. The best of the annual varieties. 18 inches. Fine for winter bouquets. Pkt., 10c.

VERBENA. A very popular garden annual. For beds and borders, and window boxes. Particularly fine as an under growth for tall plants.

1275 Alba. Pure white. Pkt., 10c; 3 for 25c.

1276 Mayflower. A delicate pink; very fragrant. Pkt., 10c; 3 for 25c.

1277 Hybrid Blue. Blue shades. Pkt., 10c; 3 for 25c.

1278 Purple. Purple shades. Pkt., 10c; 3 for 25c.

1279 Scarlet. Pkt., 10c; 3 for 25c.

1280 Choice Mixed. All colors. Pkt., 10c; 3 for 25c.

1282 STOCKS. Early Ten Weeks. One of the most popular annuals, either for bedding or pot culture. Pkt., 10c.

SCABIOSA (Mourning Bride). Commonly known as Pink Cushion Plant, owing to the queer effect of the center of the flower. Effective in borders and beds. Fine for cutting. A great favorite with many customers.

1268 Tall German. Double, mixed, all colors. Pkt., 10c; 3 for 25c.

1270 Snowball. Elegant white flowers. Sure to be wanted for vases and bouquets. Pkt., 10c; 3 for 25c.

1272 Peach Blossom. Large, double pink. Something new. Pkt., 10c; 3 for 25c.

Other House and Garden Plants Are Listed on Page 42.
May's Giant Dahlia Flowered Double Zinnias

This special strain of Zinnias is as large as a perfect Decorative Dahlia. The flowers are of immense size, from 5 to 6 inches across and are made up of a great number of small petals. These fine Zinnias are continuous and free flowering, having a wonderful range of rich color and flower early in Summer and keep on until hard frost.

1285 GOLDEN WEST. A fine shade of yellow. The flowers are perfectly double and always the largest size. Pkt., 15c.
1286 VESUVIUS. A rich shade of light purple, very attractive bright color. Pkt., 15c.
1287 DAYBREAK. Orange-scarlet, very attractive bright color. Pkt., 15c.
1288 GLORIA. Reddish rose with a little deeper rose in the center. Pkt., 15c.
1289 ENCHANTRESS. A rich shade of red; very double flowers, immense size. Pkt., 15c.

1291 One packet each of the above six Giant Dahlia-flowered Double Varieties for 75c, postpaid.

Double Flowered Zinnias

1292 APPLE BLOSSOM. Pkt., 15c; 2 for 25c.
1293 BURNT ORANGE. Pkt., 15c; 2 for 25c.
1294 ISABELLINA. A creamy yellow. Pkt., 15c; 2 for 25c.
1295 JACQUEMINOT. Blood-red. Pkt., 15c.
1296 LILAC. Pkt., 15c.
1297 DOUBLE MIXED. All colors. Pkt., 10c; 1/2 oz., 35c; oz., 65c.
1298 GIANT WHITE. Pure white; large size. Pkt., 15c.

Dwarf Zinnias

1299 FIREBALL. Double flowers of fiery scarlet. Pkt., 10c; 3 for 25c.
1300 SNOWBALL. Purest snow-white. Pkt., 10c; 3 for 25c.
1301 DWARF MIXED. Pkt., 10c; 3 for 25c.

My Finest Mixed Dahlia-Flowered Double Zinnias

1302 This is a mixture of all colors, Red, Yellow, Orange, Purple and Rose. Large pkt. 25c.

FERTILIZER

For your flower garden, use Bone Meal for fertilizer. Fine for all kinds of perennials, shrubs, and bulbs. Use a good handful for each plant, 5 pounds to 100 square feet. Price, 5 lbs., 65c; 10 lbs., $1.00; postpaid zones 1, 2 and 3.

May's Special Flower Garden Collections

I want everyone to have a flower garden. With this in mind I am putting up these special Flower seed collections. Either of these will make you a fine all around display in the garden or in vases in your home. For the gardener who wants a well-balanced cut flower garden at a minimum outlay. Sure-to-bloom varieties.

If you have a little more room in your back yard buy this one:

MY "SHENANDOAH CUT FLOWER COLLECTION"
Aster, Giant Branching. All colors.

Postpaid.

May’s Rainbow Gladioli Collection, 50 Blooming Size Bulbs—$1.00 Postpaid
May's Supreme Sweet Peas

These are among the most beautiful and fragrant of flowers. They should be sown as soon as the ground can be worked in the Spring. The soil should be thoroughly mixed with a good fertilizer. I would advise using Bone Meal for this purpose. When the plants are well up, use wire or strings to support them. These flowers may also be sown late in the Fall, about the middle of November.

Spencer Sweet Peas

I am listing an entirely new assortment of Spencer type Sweet Peas. They are a distinct race of enormous flowered Sweet Peas and in every way surpassing the old Grandiflora type. They all produce enormous frilled blossoms and very long stems. I am sure that you would be pleased with this new assortment. All Sweet Peas postpaid.

1306 FLORENCE NIGHTINGALE. Lavender. A soft, clear, rich lavender, enlivened by a faint sheen of rose-pink. Pkt., 10c; oz., 25c.

1308 ILLUMINATOR. Cerise. Glowing cerise-salmon with bright orange. Under artificial light the flowers appear to be a glowing orange-scarlet. Pkt., 10c; oz., 25c.

1309 KING WHITE. Large flowering. Glistening purity of the whiteness and the perfect finish of the flower make this popular. Truly gigantic; very free bloomer. Pkt., 10c; oz., 25c.

1310 MRS. TOM JONES. Bright delphinium-blue. Flowers large; beautifully waved, usually four on a stem. Pkt., 10c; ¼ oz., 25c.

May's Rainbow Collection of Gladioli

Growing as we do on a large scale we have a great many varieties of Gladioli of all colors. This famous mixture might be called the “Rainbow Combination” as it will include practically all colors of the rainbow. My Rainbow Collection of beautiful red, white, pink, blue, yellow and variegated are mighty fine bulbs. Guaranteed to give satisfaction to those who want all colors for their Summer bouquets. They are the ideal cut flower for the busy man or woman. 50 blooming size bulbs for $1.00 postpaid.

Plant May's Seeds for Better Gardens

Mr. May:

I planted your Fill Basket Garden Peas in March and I think every pea came up and is growing in spite of the cool weather. They have been covered with snow twice but are looking fine now. I planted your garden seed last year and I never had a better garden. The Burpee Improved Bush Lima Beans were especially nice—large, meaty beans. The Oxheart Carrots were fine—I had carrots to use all winter. I am using your garden seed collection (on back of catalog) this year.

Respectfully,

Ida M. Scott, LaBelle, Mo.

Like May's Seeds Better Than Any Other

May 11, 1928.

Dear Mr. May:

Thanks for the Syringa you sent us. We have used your seeds the past two years and like them better than any we ever used before. Yours for success,

Mr. and Mrs. John Moss,

Menlo, Kansas.

Five Supreme Spencers

This group is selected for the magnificent size of flowers and most attractive range of colors.

1321 KING EDMUND. Deep rich crimson; a strong and beautiful color. Does not fade. Pkt., 10c; oz., 25c.

1322 ROYAL PURPLE. The color is a rich warm purple, the younger flowers having a slightly softer color tone. Pkt., 10c; oz., 35c.

1323 VERNION BRILLIANT. Brilliant scarlet. The standard and wings are of an intense, pure scarlet color. Pkt., 10c; oz., 35c.

1324 One packet each of the five Supreme Spencers for 65c; one ounce each of the five Supreme Spencers for $1.50.

1325 SPENCER MIXED. All varieties. Pkt., 10c; oz., 25c; ¼ lb., 90c; lb., $3.00.

Cupid or Dwarf Sweet Peas

These grow only about 6 to 8 inches high, with flower stems about 6 inches long, which bear 3 to 4 blossoms each.

1326 CUPID FIXED. A fine mixture. Pkt., 10c; oz., 25c.

Annual Flower Mixture

1328 A whole annual garden all in one packet. Dozens of different varieties. When sowing give plenty of room. You will have cut flowers all summer and fall from this mixture. Large Pkt., 10c; 3 for 25c.

Buy May's Guaranteed Paint. Money Back if You Are Not Satisfied
Annual Climbers

1330 ARISTOCHIA (Dutchman's Pipe). An ornamental climber with brownish flowers resembling a miniature pipe. A perfectly hardy perennial, standing any climate an oak will. Pkt., 10c.

1331 BALLOON VINE (Love-in-a-Puff). A rapid grower with fne white flowers, followed by inflated seed pods resembling small balloons. Height, 10 feet. Pkt., 10c.

1332 BALSAM APPLE AND PEAR. Very rapid and dense climbers with golden yellow fruit, which opens when ripe, showing the seed and blood-red inside. Mixed. Pkt., 10c.

1333 MOONFLOWER (Ipomea noctiflora). One of the most vigorous climbers. Will grow thirty feet; its large, white flowers open evening white, and cloudy days. Seed should be scarified and planted in warm, rich ground. Keep soil moist. Pkt., 10c.

1334 CARDINAL CLIMBER. We consider this a most beautiful and distinct annual climber and rapid grower, attaining a height of twenty feet or more, with beautiful, deeply cut leaves, not unlike some of the Japanese Maples, and is literally covered with a haze of circular, fiery, cardinal-red flowers from mid-July to frost. Pkt., 10c.

1333 DOLOCHOS (Hyacinth Bean). A rapid climber, flowering freely in erect racemes, followed by ornamental seed-pods. Fine for arbors and trellises. Pkt., 10c.

1335 SCARLET RUNNER BEAN. An old favorite; strong growers. Grown for ornamental purposes, for they are edible but not very good quality. Scarlet flowers; blooms freely. Pkt., 5c.

1336 PASSION FLOWER. One of the best Summer vines for general growing. The beautiful blue flowers somewhat resemble a water lily in shape. Pkt., 10c.

1337 CYPRESS VINE. A beautiful climber with a profusion of scarlet, or white, star-shaped blossoms and fern-like foliage, adapted to ornamental work. Pkt., 10c.

1338 MEXICAN MORNING GLORY. Large, blue, will not produce flowers unless the seeds have been covered by one or two feet of soil. Standard Morning Glory; Original stock of seed secured in Mexico. Pkt., 10c.

1339 PARDALIS. An old favorite which resembles a water lily in shape. Pkt., 10c.

1340 PASSION FLOWER. One of the best Summer vines for general growing. The beautiful blue flowers somewhat resemble a water lily in shape. Pkt., 10c.

1341 HOLLYHOCK. All shades and colors. Mixed flowering hardy, easily grown from seed. Pkt., 20c.

1342 SWEET WILLIAM. A beautiful climber with a profusion of scarlet, or white, star-shaped blossoms and fern-like foliage, adapted to ornamental work. Pkt., 10c.

1343 POPPIES. A charming Summer flowering hardy, plant with great showy flowers. Pkt., 20c.

1344 MEXICAN MORNING GLORY. Large, blue, will not produce flowers unless the seeds have been covered by one or two feet of soil. Standard Morning Glory; Original stock of seed secured in Mexico. Pkt., 10c.

1345 BALSAM APPLE AND PEAR. Very rapid and dense climbers with golden yellow fruit, which opens when ripe, showing the seed and blood-red inside. Mixed. Pkt., 10c.

1346 Sakata's Imperial Extra Large Flowering Morning Glory

As a result of our careful and painstaking selection, extending over a period of many years, we are now able to offer a wonderful Japanese Imperial Morning Glory seed, sold under the name of Sakata's Extra Large Flowering Morning Glory. The average individual flowers measure from 3 to 6 inches across, sometimes even making a span of 7 inches, see illustration above. They also have a vast range of many beautiful and striking colors and this feature is rather exceptional for this family. The flowers are also often round and slightly fringed, which, of course, adds very materially to their beauty.

We consider Sakata's Extra Large Flowering Morning Glory as one of the most important and striking novelties yet introduced, and recommend it very highly for every home gardener and lover of beautiful flowers. It will not only surprise you, but please you immensely. Pkt., 15c each; 2 for 25c.

Hardy Perennial Flower Seeds

1501 AQUILEGIA OR COLUMBINE. Mixed. Hardy and easily grown from seed. Columbine may be sown in the early Spring and will usually bloom the same season, or, planted in the Fall, will bloom abundantly the following Summer or Fall. Pkt., 25c.

1502 HARDY PERENNIAL ASTER. A good mixture of various colors. Fine for fall bloom in the perennial garden or border. Pkt., 25c.

1503 COREOPSIS. One of the finest of hardy plants, with large, showy, yellow flowers, produced in great abundance from June until frost. Flowers the first year if sown early. Pkt., 25c.

1504 GAillardia. GRANDIFLORA (Perennial Blanket Flower). Should be in every garden. Flowers in all shades — yellow, orange, and red, with bright yellow center. Pkt., 25c.

1505 ORIENTAL POPPY. A charming Summer flowering hardy, plant with great showy flowers. Pkt., 20c.

1507 HARDY VIOLET. Fine hardy Violet for the border, easily grown from seed. Pkt., 20c.

1508 DELPHINIUM, ENGLISH HYBRIDS. A strain of our own hybridizing. This variety has been developed by me, as I have ever seen in the way of Delphiniums. All shades and colors. Pkt., 25c.

1509 DELPHINIUM, BELLADONNA. Flowers will be clear, light blue, set rather loosely on the stem. Branching habit of growth. Pkt., 20c.

1510 DELPHINIUM, BELLAMOSA. Like Belladonna, except a darker shade of blue. Pkt., 20c.

1511 HOLLYHOCK. All colors. Mixed, single and double. Fine for background or screen. Can be used for cut flowers. Pkt., 20c.

1512 SWEET WILLIAM. An old favorite—needs no introduction. Our mixture contains the very finest shades and colors. Pkt., 20c.

1513 GYPSOPHILA, PANICULATA (Baby's Breath). Tiny white flowers on branching stems, producing a soft and feathery mist over the plants. Can be dried for winter bouquets. Pkt., 20c.

1514 MAY'S SAMPLE PACKET PERENNIAL COLLECTION. One of each of the above 13 varieties for $1.50, postpaid. These are smaller than the regular size packets, but give you a good assortment of perennials.

May's Guaranteed Paint Goes Farther, Lasts Longer, Looks Better, Costs Less
Every Home Can Profit By Growing Vegetables

Use May’s Seeds If You Want the Best Results

Someday someone is going to prepare some statistics showing how much happier the home owner who has his own vegetable and fruit garden. Whether the home owner lives on a farm or in town he gets certain definite benefits and pleasures from such a garden.

Such gardens provide fascinating recreation, are profitable, save money and furnish the home with a great plenty of good fresh food.

They mean a real home where the children will love to watch and help you cultivate things. They will provide extra food that you may give to your friends.

Many people miss the complete satisfaction of a garden when they plant only a small plot containing onions, radishes, lettuce and a few other items. The real garden contains fruit and a greater variety of vegetables that not only can be used on the table all season, but which may be canned, dried and stored for winter use.

Plant the garden in long straight rows far enough apart to cultivate with a team and steel cultivators, if you have room. Then every time you hitch up the team to cultivate the corn or the potatoes go through the garden and give it a good cultivation. It will take only a few minutes and then you won’t have to bother about pulling weeds. A garden like this will give the largest return for the smallest amount of hand labor. Get at the garden in time, make a plan for it, hang the plan on the wall, talk about it, then lay out the garden, get the seed, make up your mind when you will plant the different things and then plant them.

Group your vegetables according to their habit or climatic requirements. If the early plants, cool temperature plants, are together it will make better working conditions than if everything were mixed up throughout the garden. Plant perennial plants like Rhubarb and Asparagus along one side so they will be left without bothering when harrowing and plowing.

“Good seed is cheap at any price.”

Asparagus

SEED AND ROOTS

It is generally thought that it requires too much space for growing Asparagus, but a plot 6 feet wide and 50 feet long will be sufficient to plant 100 of our mammoth roots which is a sufficient quantity for the ordinary family.

Culture. Dig a trench 1 1/2 feet deep and 1 foot wide, fill in 4 inches of well-rotted manure and on top of this, 5 inches of good, rich soil. Then lay the roots in about 8 inches apart, taking care to spread well, having the crown in an upright position. Cover to within 4 inches of the top of the trench and as the plants grow, gradually fill the trench to the surface. Rows 18 inches apart.

Common varieties, 1-yr., strong plants, 20c per 10; 45c per 25; $1.50 per 100, postpaid. 2-yr., heavy, will make tips for table first year, 30c per 10; 60c per 25; $2.00 per 100, postpaid. Seed, pkt., 5c; oz., 10c; 1/2 lb., 40c; 1 lb., $1.35.

201 CONOVER’S COLOSSAL. Rich and tender shoots. Green stems.

202 PALMETTO. The earliest of all. Good yielder. Green stems.

205 NEW WASHINGTON RUST PROOF. The best in Asparagus; it is a rust resistant strain. My stock is of the highest yielding plants. If you want a choice bed of Asparagus, try this New Washington. 2-yr.-old giant roots, 45c per 10; $1.00 per 25; $3.00 per 100. 1-yr., 30c per 10; 60c per 25; $2.00 per 100. Seed, pkt., 10c; oz., 25c. Both roots and seed postpaid.

Garden Seed Collection

Thousands of gardeners have approved my garden seed collection, illustrated and described on back-cover page. You can find no greater value in good seeds than this. Collection includes one packet free, of Sakata’s Giant Morning Glory Seed complete.$1.95

Postpaid
Beans

Dwarf or Bush Beans

One pound will plant 100 feet of drill; 90 pounds of seed per acre.

Culture: Plant as soon as danger of frost is over; placing the seed 2 to 3 inches apart and about 2½ inches deep. The rows should be 2 feet apart. Keep the Pods from touching the ground. Most Beans should be picked when about 4 inches long. Frequent pickings insure a more prolonged bearing season. Avoid jerking the plant, as this frequently disturbs young feeding roots. Do not pick when bushes are wet as this may cause blight and rust. In green podded sorts, Giant Stringless, May’s Prolific are the leaders.

We offer Beans and Peas by the half pound and pound instead of by the pint and quart. 15 lbs. equals one peck; 60 lbs. equals about 1 quart; 2 lbs. equal about 1 quart.

Green Pod Bush Beans

101 GIANT STRINGLESS GREEN POD. (40 days.)
This Bean remains among the very best, first, early, round podded Bush Beans; a very free bearer and entirely stringless; averages 3 inches long; slightly curved. Stands dry weather well. Pkt., 5¢; ½ lb., 25¢; lb., 40¢; 3 lbs., $1.00; 5 lbs., $1.50, postpaid.

102 BURPEE’S NEW STRINGLESS. (42 days.)
Very early hardy. Pods are a dark green, tender and absolutely stringless. Pkt., 5¢; ½ lb., 25¢; lb., 40¢; 3 lbs., $1.00; 5 lbs., $1.50, postpaid.

103 IMPROVED RED VALENTINE. (45 days.)
This variety is valuable, because it remains on the bush a long time, without becoming tough and hard. Pods very fleshy, round and saddle back with slight strings. Bushes grow uniformly, about 14 lb., 20¢; 1 lb., 35¢; 3 lbs., 90¢; 5 lbs., $1.25; 10 lbs., $2.50, postpaid.

Dwarf or Bush Wax-Podded Beans

One pound will plant 100 feet of drill; 90 pounds of seed per acre.

125 MAY’S EARLY WONDER WAX. (35 days.) Flat podded variety, grows a strong plant, 18 inches high and 2 feet across; is well loaded with pods 5 to 7 inches long and clear waxy yellow color. The pods are tender, brittle and of fine texture. We claim this is the earliest wax podded Bean, practically rust-proof and bountiful, continuous yielder. Ready to pick in 35 days. Pkt., 10¢; ½ lb., 25¢; lb., 40¢; 3 lbs., $1.00; 5 lbs., $1.50, postpaid.

126 IMPROVED RUST-PROOF GOLDEN WAX. (42 days.)
Practically Rust-proof. Although this is not the earliest dwarf Wax Bean, yet it is sure to produce heavy crops. The pods are of large size, very thick and fleshy, yields well on practically all soils. Pkt., 10¢; ½ lb., 25¢; lb., 45¢; 3 lbs., $1.25; 5 lbs., $2.50, postpaid.

127 BRITTLE WAX. (40 days.)
One of the earliest of all Wax Beans, great cropper, stringless, extremely prolific, pods often measuring 4½ to 6 inches long. They are broad and solid, tender, brittle and entirely stringless at all stages of growth. Pods have white seeds showing only a small black dot at the eye. Pkt., 10¢; ½ lb., 25¢; lb., 40¢; 3 lbs., $1.10; 5 lbs., $1.50, postpaid.

128 IMPROVED BLACK WAX. (40 days.)
The pods are round and they are yielded in large quantities, early, very meaty and tender. Seed black. Pkt., 5¢; ½ lb., 25¢; lb., 45¢; 3 lbs., $1.00; 5 lbs., $1.50, postpaid.

129 SURE CROP STRINGLESS WAX. (43 days.)
Stringless, rust-proof, yellow pods, averaging 6 to 7 inches in length, heavy yielder. Pkt., 5¢; ½ lb., 25¢; lb., 45¢; 3 lbs., $1.25; 5 lbs., $1.85, postpaid.

Farm Beans

108 HARVEST HOME. Snowy white variety of uniform small size. Plants grow upright and bear the pods well off the ground. A field Bean of which a large acreage is grown. Pkt., 5¢; ½ lb., 20¢; lb., 35¢; 3 lbs., 90¢; 5 lbs., $1.35; 10 lbs., $2.50, postpaid.

109 RED KIDNEY BEANS. One of the very best of the dry shell beans; hardy and vigorous grower, heavy yielder. Pkt., 5¢; ½ lb., 25¢; lb., 40¢; postpaid.

Increase Your Yield of Beans by Using ‘‘NITRAGIN.’’
**Dwarf Bush Lima Beans**

One pound will plant 40 feet of drill.

Cultivation of Lima Beans. Don’t sow before danger of frost is over. Sow bush sorts in rows 2 feet apart and 3 inches deep. Beans 2 inches apart in the row EYE DOWN. Later thin so that the plants stand 6 to 8 inches apart.

112 **FORDHOOK.** An improved form of the popular Challenge or Potato Lima. Both pods and Beans are almost twice the size of the Dreer’s Lima. Pods measure 4 to 5 inches. Dependable yielder for the midwest. Fine beans of the finest flavor. Pkt., 10c; ½ lb., 30c; lb., 50c; 3 lbs., $1.35; 5 lbs., $2.15, postpaid.

113 **DREER’S BUSH LIMA** (Dwarf Potato Lima). A thick, almost round Bean, the pods growing close together on the vines. Very productive. Pkt., 10c; ½ lb., 25c; lb., 45c; 3 lbs., $1.25; 5 lbs., $1.95, postpaid.

114 **BURPEE’S IMPROVED BUSH LIMA.** Vigorous, large size, the single Beans of Burpee’s Improved, large and of better quality than the original Burpee’s Bush Lima. An immense yielder. The pods are 5 to 6 inches long. Pkt., 10c; ½ lb., 25c; lb., 45c; 3 lbs., $1.25; 5 lbs., $1.95, postpaid.

115 **HENDERSON’S BUSH LIMA or BABY LIMA.** Both pods and Beans are small but they are produced in large quantities. Standard Lima for canning. Pkt., 10c; ½ lb., 25c; lb., 40c; 3 lbs., $1.10; 5 lbs., $1.75, postpaid.

**Pole Lima Beans**

For Pole varieties put 6 seeds in each hill, arranging the hills 3 feet apart each way, require a pole 7 feet high and when the vines have reached the top, pinch them and so increase the yield.

120 **EARLY LEVIATHAN.** Earliest variety of the Pole Lima. Pods straight, long and borne in clusters. A splendid variety where the season is short. Pkt., 10c; ½ lb., 25c; lb., 45c; 3 lbs., $1.25; 5 lbs., $2.00, postpaid.

121 **LARGE LIMA BUTTER POLE BEAN.** (70 days.) Pods are in clusters, 5 inches long; broad and very thin, medium green. Pkt., 10c; ½ lb., 30c; 1b., 50c; 3 lbs., $1.35; 5 lbs., $2.00, postpaid.

**Pole or Running Beans**

One pound will plant 200 hills.

For Pole varieties put 6 seeds in each hill, arranging the hills 3 feet apart each way, require a pole 7 feet high and when the vines have reached the top, pinch them and so increase the yield.

135 **OLD HOMESTEAD or KENTUCKY WONDER WAX.** (65 days.) An improved sort of this well known Bean, the pods are entirely stringless and of silvery green color, hanging in large clusters from the top to the bottom of the pole. One of the most prolific. Pkt., 10c; ½ lb., 30c; lb., 50c; 3 lbs., $1.35; 5 lbs., $2.00, postpaid.

136 **EARLY GOLDEN CLUSTER WAX.** (70 days.) The leading early Wax Pole Bean, pods are tender and of fine flavor. Bears wonderfully well. Few Beans equal this as a snap sort while young or as a dry, whole pod for Winter use. Seed pure white. Pkt., 10c; ½ lb., 25c; lb., 45c; 3 lbs., $1.10; 5 lbs., $1.65, postpaid.

137 **KENTUCKY WONDER WAX.** (60 days.) Quicker to yield from seeding than most others. The long, golden yellow pods are meaty, brittle and of a good flavor. Seeds medium sized, very regular, somewhat shriveled and dark brown. Pkt., 10c; ½ lb., 25c; lb., 45c; 3 lbs., $1.20; 5 lbs., $1.75, postpaid.

138 **LAZY WIFE.** Green pod, the best late green pod Pole Bean. Pod and beans are small but they are produced in large quantities. Standard Lima for canning. Pkt., 10c; ½ lb., 25c; lb., 40c; 3 lbs.; $1.10; 5 lbs., $1.75, postpaid.

---

**Tune in on KMA Every Day—You Cannot Afford to Miss the News and Programs.**

**Beets**

**One Ounce Will Sow 75 Feet of Drill; 5 to 6 Pounds to the Acre**

The seed should be sown as early as the ground is not frozen: the ground should be spaded well and deep, placing the rows 18 inches apart and plant 1 inch apart in the row. Plant in rich soil. Cover the seed carefully and firm in the ground by walking over the drills. When seedlings appear about 3 inches above the ground, thin out to 4 inches between the plants. Beets are best for pulling when about 2 inches in diameter. Swiss Chard is a variety of Beet grown for its leaves.

201 IMPROVED EARLY BLOOD TURNIP. (50 days.) This is a splendid early Beet of extra fine quality, and the color is rich, dark red. It always cuts and cooks a rich, dark blood red. It is tender, sweet and crisp and a standard sort for home use. Pkt., 5c; oz., 10c; ½ lb., 30c; lb., 50c, postpaid.

202 DETROIT DARK RED. (45 days.) One of the best main crop, all-purpose Beets in cultivation. For the home garden it is especially desirable on account of its high quality, being sweet, tender and fine grained without any trace of woodiness. Rich, dark red color. Pkt., 5c; oz., 10c; ½ lb., 35c; lb., $1.15, postpaid.

203 BLACK RED BALL. (38 days.) Uniform in shape; deep red and sweet. Free from woody fibre. Deep red color is retained when cooked, making the Beets most attractive for pickling. Pkt., 5c; oz., 10c; ½ lb., 35c; lb., $1.00, postpaid.

204 IMPROVED EARLY BLOOD TURNIP. (50 days.) This is a splendid early Beet of extra fine quality, and the color is rich, dark red. It always cuts and cooks a rich, dark blood red. It is tender, sweet and crisp and a standard sort for home use. Pkt., 5c; oz., 10c; ½ lb., 30c; lb., 50c, postpaid.

205 DETROIT DARK RED. (45 days.) One of the best main crop, all-purpose Beets in cultivation. For the home garden it is especially desirable on account of its high quality, being sweet, tender and fine grained without any trace of woodiness. Rich, dark red color. Pkt., 5c; oz., 10c; ½ lb., 35c; lb., $1.15, postpaid.

206 CRIMSON GLOBE. (45 days.) Of fine shape, with a smooth and attractive dark red skin and a small tap root. The interior is a rich deep crimson and fine grained in texture. Flesh is sweet, tender and never stringy. Pkt., 5c; oz., 10c; ½ lb., 35c; lb., $1.00, postpaid.

207 LONG DARK BLOOD. (65 days.) A very dark red; stands dry weather better than any other Beet, and keeps the longest. Tapering roots of excellent quality; retains original dark red color when cooked. Pkt., 5c; oz., 10c; ½ lb., 30c; lb., $1.00, postpaid.

210 SWISS CHARD. Constant crop from July until Winter. Leaves used for greens same as spinach. Sow early in the Spring in rows 16 inches apart and thin to 8 inches apart in the row. Can be used all Summer when spinach is not available. Pkt., 5c; oz., 10c; ½ lb., 30c; lb., 90c.

---

**Stock Beets or Mangels**

Cultivation. Mangels require deep, well enriched soil. Sow in May or June in rows 18 inches to 2 feet apart and 6 to 8 inches in the row. Young plants may be transplanted to fill up vacancies. As soon as frost occurs, dig the crop. For Winter, store in cellar or in pits. Sow 5 to 6 pounds per acre.

All live stock greatly relish Mangel Beets. Very high in feeding value. Note our Special Reduced Prices.

216 MAMMOTH LONG RED. (150 days.) This variety will yield more tons per acre than any other. It grows to an immense size and is extremely productive and profitable if grown on rich soil; an excellent keeper. Oz., 10c; ½ lb., 20c; ½ lb., 30c; lb., 55c; 5 lbs., $2.00, postpaid.

218 GOLDEN TANKARD MANGEL. (140 days.) Deep yellow in color, oval in shape and sets entirely on top of the ground. Heavy yielder and the best yellow variety. Oz., 5c; ½ lb., 15c; ½ lb., 25c; 1 lb., 45c; 1½ lbs., $1.90, postpaid.

219 GIANT HALF-SUGAR ROSE. (140 days.) Roots of this variety are green above the ground and rose color below. Very valuable for feeding purposes. Oz., 10c; ½ lb., 20c; ½ lb., 35c; 1 lb., 60c; 5 lbs., $7.45, postpaid.

221 KLEIN WANZLEBEN SUGAR BEET. (140 days.) This is one of the best varieties of Sugar Beets. It is extensively grown for sugar factories on account of the high sugar content of the roots and the tremendous yield produced from fertile soil. The roots are rather small, 3 to 5 inches long and quite thick. Wanzleben is also extensively grown for stock feeding. Oz., 10c; ½ lb., 20c; ½ lb., 35c; 1 lb., 60c; 5 pounds $2.45, postpaid.

---

**New Richared Delicious Apple**

Positively the World's Most Wonderful Apple

This amazing and startling new apple is a "super" Delicious. Its blood red color in August, when all the other varieties of the Delicious are still green, not only makes it the most beautiful apple in the world but also makes it worth millions of dollars to the apple industry. It can be picked earlier, marketed earlier, and as a result there is no loss from wind fall. It is a firmer apple; it has wonderful keeping qualities and is a fancy apple that brings a big price on the market. It has every advantage over other varieties so it is not surprising that it is beginning to replace plantings of every other Delicious variety. All tests show this apple is the best from every standpoint. Do not hesitate to immediately grasp the opportunities this great new apple offers you. See the illustration of this apple in color on the inside front cover page and description on page 4.
**Cabbage**

One ounce will produce about 2500 plants. Sow early kinds in hotbeds in February and early March and in the ground during April and May. Late varieties for Fall or Winter use should also be sown in May. Early sorts may be planted in rows 1 foot apart with 1 foot between the plains in the rows. Late kinds should stand at least 2 feet each way. Cabbage requires a deep, rich, loamy soil, but should it be too rich, some late kinds may show signs of bursting. If this occurs, push the plants over to one side and so check their growth. Dust with slug shot while the dew is on when the worms first appear or use "Evergreen." (See page 102.)

**Extra Early Varieties**

232 NEW COPENHAGEN MARKET. (60 days.) My seed comes direct from Denmark. The best, main crop round-head Cabbage on the market; heads large and solid and excellent quality. Stands longer in the field without bursting than any other known variety. Pkt., 5c; % oz., 15c; oz., 25c; % lb., 75c, postpaid.

233 GOLDEN ACRE. (42 days.) The earliest variety of cabbage. Quality excellent. A week earlier than Early Jersey Wakefield; heads very solid and round; weight 4 to 5 lbs. We offer the genuine strain. Pkt., 5c; % oz., 15c; oz., 25c; % lb., 75c, postpaid.

234 IMPROVED EARLY JERSEY WAKEFIELD. (55 days.) Produces larger heads than Early Jersey Wakefield but is a week later in maturing; a heavy yielder of fine quality. Pkt., 5c; % oz., 15c; oz., 25c; % lb., 75c, postpaid.

236 CHARLESTON OR LARGE TYPE WAKEFIELD. (62 days.) Produces larger heads than Early Jersey Wakefield but is a week later in maturing; a heavy yielder of fine quality. Pkt., 5c; % oz., 15c; oz., 25c; % lb., 75c, postpaid.

**Early Flat and Round Head Varieties**

240 ALL SEASONS (Vandergaw). One of the best second-early or late: growing to a large size quickly. The heads are extremely hard and solid, round, flattened at the top. It is called All Seasons because it is good for Autumn as well as early summer. Pkt., 5c; % oz., 15c; oz., 25c; % lb., 75c, postpaid.

242 EARLY DRUMHEAD or HOLLANDER. (100 days.) Stands dry weather well. Very hardy, compact, flat heads; one of the best for home use. An old reliable variety known by all. Pkt., 5c; % oz., 15c; oz., 25c; % lb., 75c, postpaid.

254 PREMIUM LATE FLAT DUTCH. (120 days.) Heads are flat on top, solid and large. Cuts white and crisp; flavor excellent, no stringiness; splendid keeper, good for Fall and Winter. Pkt., 5c; % oz., 15c; oz., 25c; % lb., 75c, postpaid.

256 SUREHEAD. (110 days.) Heads are very uniform in shape, of the Flat Dutch type. Ordinarily range from 10 to 15 pounds each. Drought resisting, certain to head. Pkt., 5c; % oz., 15c; oz., 25c; % lb., 75c, postpaid.

257 MAMMOTH RED ROCK. (120 days.) The large, red, pickling sort, heads often weigh 12 lbs. Round, cone very solid and deep red color. Pkt., 10c; % oz., 20c; oz., 35c; % lb., $1.25, postpaid.

**Iacope Cabbage Seed**

250 A strain of Copenhagen Market which has been developed by the Iowa Agricultural Experiment Station at Ames, Iowa, under the direction of Prof. Melhus. It is a strain that is resistant to Cabbage yellows, a disease that is quite prevalent throughout the Corn Belt territory. Per pkt., 20c; % oz., 65c; oz., $1.15, postpaid.
Chinese Cabbage

260 PE-TSAI. A wonderful new salad plant, not hard to grow and resembles Celery. Best crops are grown from July-August sowing. Firm, crisp head, easily blanched. A long keeper; excellent cooked with greens. For proper and successful raising, Pe-Tsai should have cool weather. Sow the seed thin in rows and thin the plants to about a foot apart. Also can be cooked in the same manner as Cabbage. Pkt., 10c; ¼ oz., 20c; ½ oz., 35c, postpaid.

Celery

One ounce will produce 3000 plants.

Sow the seed in cold frame or dry border as early as the ground can be worked in drills 8 to 10 inches apart, covering the seed one-quarter inch deep. If your soil produces good lettuce and cabbage, it will produce Celery very satisfactorily. When fairly out of the seed leaf, they may be transplanted or thinned out to 3 or 6 inches apart. Early in July is the proper time to set the plants out in trenches, as soon after early July as possible. The rows should be 3 feet apart, plants 8 inches apart in the rows. As the plants grow, they should be earthed up to blanch them, care being taken not to let the earth get into the heart of the plant. For keeping over Winter, they can be banked up with earth and covered with litter to protect them from frost where they have grown, placing boards on top to keep out the rain.

Golden Self-Blanching

272 GOLDEN SELF BLANCHING. (110 days.) The most popular variety. Easily grown. Good shipper and of high quality. Golden yellow in color and excels all other varieties. Pkt., 5c; ¼ oz., 25c; oz., 45c; ¼ lb., $1.60, postpaid.

274 IMPROVED WHITE PLUME. (130 days.) Of the white varieties, this is recognized as the best. Very crisp and tender, and a vigorous grower. Stalks are uniformly white and large size. Pkt., 5c; ¼ oz., 20c; oz., 35c; ¼ lb., $1.00, postpaid.

276 GIANT PASCAL. (140 days.) It blanches very easily and quickly. The heart is golden yellow. It is a selection from Golden Self Blanching, and possesses many of the qualities of that strain. Pkt., 5c; ¼ oz., 20c; oz., 35c; ¼ lb., $1.00, postpaid.

Endive

One ounce will sow 200 feet of drill.

One of the best Autumn and Winter salads, especially refreshing when served as lettuce with plain French dressing. Sow seed from the middle of June to the last of August. When plants are fully grown, tie all the outside leaves together over the heart and blanch the inner leaves which will take about a week. Don't tie when leaves are wet as this will cause them to decay.

282 GREEN CURLED ROSE RIBBED. Leaves large and broad, well rounded heads. Pkt., 5c; oz., 20c; ¼ lb., 65c, postpaid.

284 DWARF WINTER CURLED. Compact with large, deep green leaves curled and crimpled. Pkt., 5c; oz., 20c; ¼ lb., 65c, postpaid.

Egg Plant

One ounce will produce about 1000 plants.

Sow during March in a warm box in light, rich soil. Transplant or thin so that the young plants stand 3 inches each way. Also keep the young plants warm and do not plant out until settled, warm weather has arrived. They need to stand 2 feet apart each way to be planted outside.

292 NEW YORK IMPROVED PURPLE. (Spineless). A standard sort both North and South. A very large size, fine quality and productive. Fruits oval; color a splendid dark purple. Ready for table in 145 days. Pkt., 10c; ¼ oz., 25c; oz., 40c; ¼ lb., $1.35, postpaid.

294 BLACK BEAUTY. Very early; average weight 2 to 3 pounds. Dwarf growing. Pkt., 10c; ¼ oz., 20c; oz., 35c; ¼ lb., $1.25, postpaid.

7 lbs. for $1.25 in zones 4 and 5

May's Rainbow Collection of Gladioli-50 Blooming Size Bulbs, Only $1.00, Postpaid
Carrots

One ounce will sow 100 feet of drill.

To produce the finest crop, the land should be thoroughly manured the previous season. Forked roots will result if the seed is sown on freshly manured soil, or on poorly prepared ground. Sow the early sorts in March and April one inch deep and row 14 inches apart. The main crops are sown in May or beginning of June. It is very essential to see that the soil is firm over the seed, either by the feet, roller or garden drill. Store in pits or boxes of sand in basement for winter use.

301 OXHEART. (60 days.) A favorite for home garden. Early, thick Carrot and good quality; deep orange color. Pkt., 5c; oz., 15c; ½ lb., 40c; lb., $1.25, postpaid.

302 SELECTED CHANTENAY. (65 days.) A first class table variety. Stump-rooted and about 5 to 6 inches long. Rich orange color and a splendid keeper. Fine variety to grow for Winter use. Pkt., 5c; oz., 15c; ½ lb., 45c; lb., $1.35, postpaid.

304 HALF-LONG SCARLET NANTES. (70 days.) A handsome half-long Variety with a very small tap root. 6 inches long, 1½ inches thick and fine quality. Pkt., 10c; oz., 15c; ½ lb., 50c; lb., $1.50, postpaid.

306 DANVERS HALF-LONG. (80 days.) Half-long Carrot; very productive. Roots 6 to 8 inches long; color deep orange. Good variety for Winter use. Pkt., 5c; oz., 15c; ½ lb., 45c; lb., $1.25, postpaid.

Carrots for Stock Feeding

Stock Carrots are most valuable for the feeding of stock and are very easily grown. The seed should be sown in drills 3 feet apart, using about 4 pounds per acre. A large yield can be taken from a small piece of ground.

308 LARGE VICTORIA. Largest and best feeding Carrot of the yellow varieties. Roots are very large and thick. Color is orange-red. Oz., 15c; ½ lb., 30c; lb., 90c; 5 lbs., $4.00.

311 LARGE WHITE BELGIAN. Roots pure white. Grows one-third out of the ground. Green above the ground. Small tops, coarse flesh. Oz., 10c; ½ lb., 25c; lb., 75c; 5 lbs., $3.00, postpaid.

Cauliflower

One ounce will produce about 3000 plants.

Sow the first week in May, transplant in July. For wintering under glass, sow in the second and last weeks of September. Transplant thickly in the hotbed and transplant in April. Select new ground if possible. Plant in rows 2 feet apart and 20 inches apart in the rows. To be successful with this vegetable, rich soil and abundant moisture at all stages of development are absolutely essential. Cauliflower does not form solid heads in hot, dry climates.

330 MAY'S EARLY SNOWBALL. The earliest and surest heading Cauliflower grown. No variety produces more deep solid heads and of such pure snowy whiteness as the Snowball. Extremely hardy. Pkt., 15c; ¼ oz., 75c; ½ oz., $1.35; oz., $2.40; ¼ lb., $7.50, postpaid.

332 DANISH GIANT. It is especially adapted to dry situations and to resist drought. Forms pure white, solid heads, and seed is Denmark grown. Pkt., 20c; ¼ oz., 80c; ½ oz., $1.40; oz., $2.50; ¼ lb., $7.65, postpaid.

If I Was Not Sure My Merchandise Was Dependable I Could Not Afford to Make A Money-Back Guarantee
Sweet Corn

One pound will plant 200 feet of drill or 200 to 300 hills.

Plant for succession of crop every 3 weeks from April to July in hills 3 feet apart each way and 6 seeds in a hill, cover about a half inch and thin out to 3 plants. Don't forget the main varieties such as Charlevoix, Stowell's Evergreen and Country Gentleman.

Stowell's Evergreen. A fine quality Sweet Corn; exceptionally early. Can be planted early, as it will stand some frost. Ears tender and sweet. Pkt, 5c; ¼ lb. 20c; lb., 30c; 2 lbs., 55c; 5 lbs., $1.25, postpaid.

Early Sunshine. This is the earliest Sweet Corn of good size. White cob and kernels. Larger than Adams and a trifle earlier. I am sure that you will be pleased with this new variety of Sweet Corn. Pkt, 10c; ½ lb., 30c; 1 lb., 45c; 2 lbs., 80c; 5 lbs., $1.35, postpaid.

Golden Bantam. Golden Bantam is the sweetest and choicest of all Sweet Corn. The ears grow 5 to 6 inches long, just a handy size to be eaten from the cob. The golden yellow kernels are broad, deep and exceptionally meaty. They have a thin, tender skin. Our special stock is selected and unexcelled, and the seed comes from growers who specialize in growing Golden Bantam, and not the remnants of a commercial crop. Our growers specialize in Sweet Corn exclusively. Pkt, 5c; ¼ lb., 20c; lb., 30c; 2 lbs., 55c; 5 lbs., $1.25, postpaid.

Country Gentleman. Shoe Peg. (65 days.) Extremely productive, small cob, densely covered with irregular rows of long, slender grains. The milky kernels are plump, pearly white and very prolific. Will average 2 to 3 ears to a stalk. Pkt, 5c; ¼ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., $1.35, postpaid.

Early Sunshine

Pop Corn Selected for Seed

Baby Golden. Very small ears, averaging about 2 to 2½ inches in length. Stalks grow 3 to 4 feet high and 2 to 3 ears to the stalk. One of the best for popping, being free from hulls and very tender. Pkt, 10c; ½ lb., 25c; 1 lb., 50c; 2 lbs., $1.00, postpaid.

Japanese Hullless. Without question the best Pop Corn for popping. The kernels are similar to the best strains of White Rice but a little longer; white in color. It is a wonder when it comes to popping; fine flavor and absence of hull or shell. All commercial Corn poppers prefer this variety. Pkt, 10c; ½ lb., 25c; 1 lb., 50c; 5 lbs., $1.00, postpaid.

Monarch White Rice. An old variety known by everyone: reliable and heavy yielder. Ears large; kernels are long-pointed and white. Pkt, 5c; ¼ lb., 15c; lb., 25c; 5 lbs., $1.00, postpaid.

Gather Sweet Corn Daily from June to Oct.
Cucumbers for Slicing and Pickles

One Ounce Will Plant About 50 Hills

The first planting should be made early in May. For pickles, plant during the last two weeks in June. The yellow striped Cucumber beetle is the most serious insect enemy of the crop. "Evergreen", by far the best remedy yet discovered. Use as per directions on each bottle. In dusting vines, use Slug Shot listed on page 102.

352 MAY'S WHITE SPINE. White skin, white flesh, almost seedless. It is by far one of the best Cucumbers I ever raised. Fine for slicing and pickling. I have tested this variety on my May View Trial Grounds several years and have found it to be a heavy yielder of Cucumbers of the very best quality. I want you to try this new Cucumber as I am sure that you will be pleased with it. Pkt., 10c; oz., 25c; ¼ lb., 60c, postpaid.

354 STAYS GREEN. Stays Green is the earliest of the White Spine type; fruit seven to eight inches long, cylindrical in shape. Color a beautiful dark green from stem to blossom end, which is retained longer than any variety we know of. Vigorous grower, enormous yielder, shipping quality unexcelled and always commands the highest market price. Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., $1.25, postpaid.

356 ARLINGTON WHITE SPINE. (55 days.) This Cucumber is uniform size, averaging 7 to 8 inches in length. Flesh white, crisp and solid with very few seeds. Vines of vigorous growth. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.20, postpaid.

357 BOSTON PICKLING CUCUMBER. A very prolific variety widely used for pickles. Fully developed fruits average 4-5 inches and on account of their fine quality are often used for slicing; but are used generally for medium sized pickles; also known as the Early Green Prolific. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.20, postpaid.

358 MAY'S SELECT PICKLE. (65 days.) Long, even and slim; rich, dark green color. Very productive and uniform shape. Mighty good for pickling, and excellent for slicing. A heavy yielder. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $1.40, postpaid.

359 DAISY PERFECTION. (60 days.) Fruits medium to large; very even. Color, dark green; flesh thick and tender. Small seed cavity, making it extra fine for slicing. Vines vigorous and bear over a long period. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $1.40, postpaid.

355 MAY'S IMPROVED LONG GREEN CUCUMBER. We had one Cucumber measuring 15 inches long, 11 inches around and held a guessing contest over radio as to how many seeds it contained. Dark green in color and fine for both slicing and pickling. Young Cucumbers make very fine pickles. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., $1.35, postpaid.

374 EVERBEARING. (65 days.) Fruits are medium size, rich, dark green color, average from 4 to 5 inches in length. Will continue bearing throughout the season. An excellent variety for producing pickles. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.25, postpaid.

376 EARLY FORTUNE. (52 days.) Fruits 7 to 8 inches long, slightly tapering; flesh white; very firm and solid. This plant is very hardy, withstanding blight remarkably well. Very productive. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.20, postpaid.

378 IMPROVED CHICAGO PICKLING. (68 days.) Fruits are of uniform size and good color. Medium size. Used almost exclusively by all pickling houses. Very heavy bearer. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.25, postpaid.

382 JAPANESE CLIMBING. A creeping or climbing variety, while other Cucumbers are running vines. Climbs very rapidly on poles or trellises. Cucumbers are thick, tender; flesh white; skin dark green; netted when ripe. Suitable for slicing. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $1.40, postpaid.

384 MIXED CUCUMBER SEED. I often have inquiries for mixed Cucumber seed for those who want to use the crop themselves for pickling and slicing. My mixture is made up of all the very best varieties. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., $1.00, postpaid.
Lettuce

One Ounce Will Sow a Row 80 Feet Long
4 Pounds to the Acre

Culture. Lettuce needs cool weather and plenty of moisture. Young Lettuce plants are very hardy and consequently can be planted very early in the Spring. To have good Lettuce you should keep it growing rapidly. Can be planted at intervals during the Summer. The loose-leaf varieties are more popular, such as Early Curled Simpson and Grand Rapids. In Head Lettuce use May’s Brittle Ice, and May’s Wonderful, as they form large heads and are all fine varieties for forcing.

Early Loose Leaf Lettuce

These do not form solid heads but where the plants are grown singly at a suitable distance apart they make a large cluster of leaves.

401 SIMPSON’S EARLY CURLLED. (40 days.) Leaves broad, very much curled, forming a large, loose head, light green in color; sweet, tender and well flavored. One of the most reliable varieties. Seed white. Pkt., 5c; oz., 15c; ½ lb., 40c; lb., $1.45, postpaid.

402 BLACK SEEDED SIMPSON. (40 days.) Always reliable and easily grown. Large and compact; leaves finely fringed and very crisp and tender. Very good in hot weather. Pkt., 5c; oz., 15c; ½ lb., 40c; lb., $1.45, postpaid.

404 MAY’S PROLIFIC. (45 days.) Very similar to Simpson’s Black Seeded, except better quality and the leaves having a brownish red tinge. Exceptionally tender. Try my new Prolific— you’ll like it. Pkt., 10c; oz., 20c; ½ lb., 60c; lb., $1.80, postpaid.

406 GRAND RAPIDS. (40 days.) This does not form solid heads but makes large compact bunches of light green leaves with attractive green edges, especially adapted to greenhouse culture in Winter. Pkt., 5c; oz., 15c; ½ lb., 45c; lb., $1.50, postpaid.

Crisp Head Lettuce

A quick grower and forms large heads of conical shape, not so tightly folded as butter head varieties. To grow good head lettuce start early in the house or hotbed, transplant later to the garden, a foot apart each way. Rich soil, early planting and lots of moisture is necessary for good Head Lettuce.

410 MAY’S BRITTLE ICE. (47 days.) The leaves are soft, bright green, sweet and crisp. Largest of all crisp heading varieties. Adapted for mid-summer use. Pkt., 5c; oz., 15c; ½ lb., 45c; lb., $1.50, postpaid.

Simpson’s Early Curled Lettuce

412 BIG BOSTON. (50 days.) Large forcing sort; very hardy, vigorous; broad, smooth, light green leaves. Heads quite solid; an old favorite. Good for late summer planting too. Pkt., 5c; oz., 15c; ½ lb., 40c; lb., $1.40, postpaid.

414 HANSON. (50 days.) A sure heading variety, for late planting; standing the heat remarkably well. Large, flat heads and so slow to form seed stalk that it often fails to seed at all. Pkt., 5c; oz., 15c; ½ lb., 45c; lb., $1.50, postpaid.

415 MAY’S WONDERFUL. (48 days.) The best of the newer heading varieties; heads very compact and large; bleaches perfectly. My variety is grown for the market in our large commercial Lettuce growing district. This is very popular and is the variety usually obtained from your grocer when buying head lettuce. Very good for the home gardener. Pkt., 10c; oz., 20c; ½ lb., 65c; lb., $2.00, postpaid.

416 ICEBERG. (50 days.) Large, crisp heads, tightly folded and well branched; mild flavor, even during hot Summer months. Tender and sweet. Pkt., 10c; oz., 20c; ½ lb., 55c; lb., $1.25, postpaid.

418 MAY’S MIXED LETTUCE SEED. All kinds mixed together. Do not sow too thickly and your crop will come on continuously. My very best varieties included in this mixture. Pkt., 5c; oz., 15c; ½ lb., 35c; lb., $1.25, postpaid.

Butter Head Varieties

These varieties grow to good size and head solidly in rounded form, the leaves being light golden color or buttery yellow.

420 CALIFORNIA CREAM BUTTER. (50 days.) Leaves are broad, very thick and crumpled. Interior of head rich, golden yellow; outside darker, producing large, solid heads of beautiful appearance. Pkt., 10c; oz., 20c; ½ lb., 60c; lb., $1.50, postpaid.

422 CRISP AS ICE. The hardest of all Lettuces, sometimes remaining in the garden until Thanksgiving. Heads somewhat globe-shaped, dark green and bronze; the heart is splendid. Pkt., 5c; oz., 15c; ½ lb., 50c; lb., $1.60, postpaid.

Big Full Sized Packets
Make Firm Friends of May’s Customers
Try My Garden Seed Collections of Fresh New Crop Seeds

Start Each Day Right With a Cup of May’s Delicious Coffee
May's Muskmelons or Cantaloupes

One Ounce Will Sow 80 Hills.

Culture. Sow the seed in May in hills 6 feet apart each way. Plant in each hill from 8 to 10 seeds, covering one-half inch deep. When the plants have produced rough leaves thin out to three plants. The hills should be prepared by trenching in rotten manure and sand. As soon as the plants make their appearance above the ground, dust them with soot, charcoal dust or Slug Shot to prevent the ravages of the bugs. In green-fleshed varieties we suggest May's Extra Early, Rocky Ford and Jenny Lind. In golden-fleshed sorts, Hearts of Gold, Mayfair Surprise and Mayview Favorite. All garden seeds are postpaid.

Green Fleshed Kind

452 MAY'S IMPROVED ROCKY FORD. (70 days.) The popular, early variety of Cantaloupe. Our seed is from crops grown for seed purposes only. Our Rocky Ford is slightly ribbed, well netted, and has thick, green flesh of delicious flavor. Does well in most any locality. Very productive, medium early. Vines are very vigorous. One of the best for home use. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.25, postpaid.

453 GOLD LINED. (92 days.) A novelty of merit in the green fleshed Rocky Ford. Gold lining next to seed cavity. Matures medium-late. Flesh thick, sweet and spicy. Weight, 2 lb., 5c; ¼ lb., 15c; lb., $1.50.

454 HONEY DEW. (120 days.) Requires longer and warmer season than other Melons. Smooth white rind, green flesh and flavor something like honey. Has small seed cavity, juicy. They are best when put into a cool place two or three days before eating and are about right for eating when they appear a trifle overripe. My seed is from Melons of uniform size. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $1.60, postpaid.

455 JENNY LIND. (70 days.) Considered by many the sweetest of all green fleshed Melons. Small seed cavity, flesh thick and ripens early. Standard, early, home garden variety. Weight, 1 lb., 5c; ¼ lb., 15c; ½ lb., $1.50, postpaid.

456 EXTRA EARLY HACKENSACK. (65 days.) Fruits round and flattened at the end. Very heavily netted and irregularly ribbed. One of the best early green-meated sorts. Melons weigh 4 lb. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.30, postpaid.

Golden or Orange Flesbed

457 ISBELL'S LAKE CHAMPLAIN. (57 days.) Here is a golden yellow Melon that is without question one of the best varieties known. This is a new Melon that beats them all in earliness, quality, productiveness and hardiness. Medium size; flesh deep golden color; plant very vigorous. Try a few seeds of this new Lake Champlain in your garden and I am sure that you will be well pleased. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $1.50, postpaid.

458 BURRELL GEM. (75 days.) Similar to Rocky Ford, but has orange colored flesh. Flesh is fine grained, spicy and good keeper. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.35, postpaid.

459 HEARTS OF GOLD. An orange-fleshed, round Melon, finely netted, medium size, ideal for shipping and home garden. Flesh is thick, firm, of fine texture and delicious flavor. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., $1.50, postpaid.

460 MAYVIEW FAVORITE. (70 days.) Pink and orange variety, smail like the Rocky Ford and mighty good for home garden. It is very vigorous and a heavy bearer. Try it on my recommendation. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $1.60, postpaid.

461 MAYFAIR SURPRISE. (84 days.) Here's a real surprise for you. A real beauty of a melon and that's the reason we called it Mayfair. Matures in 94 days. Has a heavy coarse netting completely covering the fruit. Is slightly ribbed. Flesh is a deep orange. Very highly flavored. Weight up to 10 lbs. Pkt., 10c; oz., 25c; ¼ lb., 80c; lb., $2.50, postpaid.

462 OSAGE or MILLER'S CREAM. (80 days.) Larger than Emerald Gem, having thick, firm, orange flesh of fine quality. One of the best yellow-meated sorts. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.35, postpaid.

463 BANANA CANTALOUIPE. (85 days.) The flesh of this Melon is very solid, rich salmon color, of mighty good flavor when the Melon is thoroughly ripe. Grows from 20 to 30 inches in length and is very prolific; very peculiar in appearance. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.25, postpaid.

464 SHUMWAY'S GIANT. (75 days.) The giant of the pink meated muskmelons. Creamy yellow. Some melons get 25 lbs. Very pleasant taste, does not get stringy. The largest melon I know of. Shape a little flat. Weight, 12 to 14 lbs. Size 9x10 inches. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.40, postpaid.

465 MIXED MUSKMELONS. Give the boys a packet or ounce of this seed for their own melon patch. Lots of good ones in this mixture—the cream of the crop. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.15, postpaid.
May's Watermelons

One ounce will plant about 30 hills.

Treat the same as Muskmeons except they should be planted 8 to 10 feet apart according to variety. Plant 7 to 10 seeds in a hill. It is important that the seed should not be planted before the ground becomes warm and dry. After insects have left, leave but 3 to 4 strong plants. Slug is not serious except in varietos very effective for the insects which work on melon vines.

For melon lice use Evergreen. Sweet Heart is the Melon, and don't forget our Improved Kleckley Sweet. This Melon is one of the sweetest and largest—many of them weighing 50 pounds each. One ounce of seed to 30 hills, 3 to 4 lbs. per acre. All garden seeds are postpaid.

472 COLE'S EARLY. (80 days.) One of the earliest Melons of all and especially good for family use. Very productive; rind green, striped with a lighter shade; flesh bright red, crisp and sweet; good shipper. Pkt., 5c; oz., 10c; ½ lb., 30c; lb., 90c; 5 lbs., $3.50, postpaid.

474 SWEET HEART. (90 days.) Large, heavy Melons of oval or round shape. Skin light green and very thin rind. Excellent flavor, crisp and exceedingly sweet; dark seeds. Pkt., 5c; oz., 10c; ½ lb., 35c; lb., $1.00; 5 lbs., $4.00, postpaid.

478 IMPROVED KLECKLEY SWEET. (85 days.) The most popular melon in the Central West, and as far as that is concerned, everywhere it is regular in shape, rich, sweet, and of high quality. It has an even, dark green skin, and there should not be a stand every in any way where its large and generous heart is frosty red, and deliciously sweet. The seed we offer is taken from melons weighing 25 lbs., or more and is grown exclusively for seed purposes, not seed selected from the left-over melons of a commercial patch. Pkt., 10c; oz., 15c; ½ lb., 45c; lb., $1.25; 5 lbs., $5.00, postpaid.

484 GOLDEN HONEY. (90 days.) Beautiful golden flesh Melon of the best quality; very tender and sweet; round or oblong shape, light green. Pkt., 5c; oz., 15c; ½ lb., 45c; lb., $1.25; 5 lb., $5.00, postpaid.

488 GIPSY OR GEORGIA RATTLE SNAKE. (90 days.) The second-best early home garden Melon; light green in color with motelled stripes of darker shade; seeds creamy white; black tips. Uniformly large. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., $3.50, postpaid.

488 TOM WATSON. The Tom Watson is an excellent all-purpose Melon for you to grow for nearby markets, and is an excellent shipper on account of its thick rind. Dark green in color. A long melon with rich red heart. The seed from these Melons is from a selected strain of Melons of uniform size. Will weigh from 50 to 65 pounds each. My seed is of the best and very hardy. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 90c; 5 lbs., $4.00, postpaid.

490 NEW IRISH GRAY. (95 days.) Also called General Pershing. Irish Gray is the most satisfactory late summer Melon available because it is just right when other sorts die out. Uniformly large size. Closely resembles

Kleckley Sweet, except the color, which is a yellowish-gray. The brilliant, sparkling, red, sweet, firm flesh is without a hard center; rind almost as touch as a citron, making a good shipper. Plant Irish Gray for home use or market and you will be delighted. Seeds white. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., 85c; 5 lbs., $3.50, postpaid.

492 MAY'S EARLY HONEY. (85 days.) Here's a Melon for home use in the Central West that bids fair to outdo Kleckley Sweet in popularity. Every farm home and town garden should have this Honey Melon in it. Seeds are white with black tips. The rind is a deep green with fine veins. The melons will average 25 pounds. Slightly ridged, long, and blunt at both ends. The flesh is a beautiful crimson, very crisp and tender. Not a very good shipper. No stringy pulp is left even after the largest bite of delicious, sweet heart. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $2.00; 5 lbs., $8.00, postpaid.

493 COLORADO PRESERVING CITRON. (100 days.) Fruits large, very solid, practically white. Make delicious preserves. Fruit round and perfectly marbled, green seeded. Pkt., 5c; oz., 15c; postpaid.

494 MIXED MELONS. A good mixture of our most popular varieties. A few new ones for trial included. Let your boys have that melon patch for pleasure and profit. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 5 lbs., $3.00, postpaid.

Try This
"Wonder Apple"

New Richared Delicious Apple

The greatest Apple discovery ever made. Endorsed by authorities everywhere. Has early color, double red, good keeper, can be picked early and there are no windfalls. Earl E. May says, "This is the best Apple I know of for the central west and I am glad to recommend it to my customers. I want all of you to plant some of these trees for I know you will always thank me for this advice." See page 4.
Yellow Globe Danvers

Colorado Grown Onion Sets are Best

Green Onions from your sets will be your first garden crop in the Spring. One quart of seed will plant a 40-foot row, 10 to 12 bushes per acre. The Onions are ready for table use in about 40 days. If you are wanting sets that are clean and will grow, try May's.

Our sets are grown in Colorado, a mile high and will stand all sorts of grief, hardship and will grow better Onions than any other sets.

All Onion Sets Postpaid.

Onion Seed

One Ounce (or 100 Feet of Drill, 5 to 6 Pounds Per Acre)

Culture. Sow in rich, sandy soil in drills one foot apart as early as possible in the Spring. Cover with fine soil and firm well, either with roller or back of spade. When plants are strong enough, thin out to 3 or 4 inches. For sets, sow 50 to 60 pounds for an acre. For thrips, use "Evergreen.

Cultivate and keep free from weeds. Sow in rich, sandy soil in drills one foot apart as early as possible in the Spring. Cover with fine soil and firm well, either with roller or back of spade. When plants are strong enough, thin out to 3 or 4 inches. For sets, sow 50 to 60 pounds for an acre. For thrips, use "Evergreen."

EXTRA LARGE RED WETHERSFIELD. (110 days.) This is the largest of the Red Onions, flat, broad and flat; flesh crisp, solid, very mild. Not a good keeper; but very popular because of its mild, sweet flavor. Pkt., 10c; oz., 35c; ¼ lb., $2.25, postpaid.

MAMMOTH SILVER KING. (125 days.) This variety is one of the largest in cultivation; skin is a beautiful silvery white; flesh snowy white and tender. Mild, sweet flavor. Pkt., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.25, postpaid.

WHITE PORTUGAL or SILVERSKIN. (115 days.) Similar in shape to other Southport Onions but differing in color; rich golden yellow, mild and sweet. Will average from 3 to 3½ inches in diameter. Pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $2.25; 5 lbs., $14.75, postpaid.

Southport Yellow Globe. (110 days.) Similar in shape to other Southport Onions but differing in color; rich golden yellow, mild and sweet. Will average from 3 to 3½ inches in diameter. Pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $2.25; 5 lbs., $10.00, postpaid.

GLOBE DANVERS. (115 days.) Main crop yellow Onion for home garden. Medium size and globe-shape; ripens evenly, very mild and good keeper. Pkt., 5c; oz., 25c; ¼ lb., 65c; lb., $2.25, postpaid.

MAMMOTH YELLOW GIANT. (110 days.) This bright straw-colored, globe-shaped onion is the most enormous onion that grows, and will weigh up to 6 or 8 pounds. Produces splendid crops, some averaging running up as high as 1,200 bushels to the acre. A leading market variety. Pkt., 10c; oz., 25c; ¾ lb., 65c; lb., $2.25; 5 lbs., $10.00, postpaid.

504 SOUTHPORT RED GLOBE. (110 days.) This is one of the most popular varieties for family use. 1 lb., 90c; lb., $3.15; lb., $7.00, postpaid.

505 MAY'S FAMILY ONION. (110 days.) White Onion shape. This is one of the most uniform family use, one of the best for pickling, slicing and boiling. Good keepers, excellent for winter use. It is suitable for bunching and also fine for onion sets. Grow easily everywhere. As you no doubt know, the whites are not as good keepers as the reds. Pkt., 10c; oz., 35c; ⅛ lb., 90c; lb., $3.15; lb., $7.00, postpaid.

506 SOUTHPORT YELLOW GLOBE. (110 days.) Similar in shape to other Southport Onions but differing in color; rich golden yellow, mild and sweet. Will average from 3 to 3½ inches in diameter. Pkt., 10c; oz., 25c; ¼ lb., 65c; lb., $2.25; 5 lbs., $10.00, postpaid.

Onions from Sets

Yellow Globe Danvers

Bermuda Onion Plants

Two Varieties, Yellow Bermuda and Crystal Wax

How to Grow Bermuda Onions From Plants

They will keep for weeks after being pulled if not allowed to become heated or wet. Plant in rows 14 to 16 inches apart and 4 inches apart in the row. In planting, sharpen a wooden stick, making a hole about two inches deep, place the plant in as you withdraw the stick and press dirt firmly with stroke from the root. Cultivate very shallow as the Onion roots grow near the surface and should not be disturbed. When about 60 per cent of tops droop or are yellow and about two inches above on top just above Onion, pull them up, let them lay in the sun for two or three days which will increase the firmness. For keeping for home use, let tops and roots remain and tie in bunches. Be careful that you hang them not full of light, for light turns the Crystal Wax green. The light will not hurt the Yellow Bermuda, and you will find they keep well in this manner.

Onion plants tied in bunches of 100 plants. We do not split bunches.

CRYSTAL WHITE WAX plants. 600, $1.00; 1000, $1.50; case contains 6000 plants, $7.00, postpaid.

YELLOW BERMUDA plants. 600, $1.00; 1000, $1.50; case contains 6000 plants, $7.00, postpaid.

Souvenir Booklets, "Mayfair", "Behind the Mike", "Sewing Book" and "Cook Book", All 4 for $1.25
Peppers

One ounce will produce about 1500 plants. Peppers are more sensitive to frost than most other vegetables, and they should not be planted out until settled warm weather has arrived. The seed should be sown in the hotbed, cold frame, or if no better convenience is available, a box in the window. Transplant later in a row 24 inches apart each way and keep the soil clean and well stirred.

572 SWEET MOUNTAIN. (Mild.) Plants are of strong growth and very productive. A large Pepper with bright red fruits up to 8 inches long and 4 inches in diameter. Pkt., 10c; ½ oz., 20c; oz., 35c.

573 RUBY KING. (140 days.) (Mild.) A good pickling Pepper; long scarlet fruits, 4 to 6 inches long, 3 to 4 inches thick; flesh thick, crisp and tender, and very productive. Pkt., 10c; ½ oz., 25c; oz., 40c; postpaid.

574 LARGE BELL or BULL NOSE. (Hot.) One of the hardiest Peppers. Matures quite early. Fruit bright red in color, excellent for stuffing. Pkt., 10c; ½ oz., 25c; oz., 40c, postpaid.

575 NEAPOLITAN. (125 days.) (Hot.) Very prolific, producing well formed fruits of light green color; flesh thick. Mighty good for stuffing. Pkt., 5c; ½ oz., 25c; oz., 40c, postpaid.

576 RED CHILI. (145 days.) (Hot.) The bushes are broad and seldom more than 28 inches high. The fruit measures 2 to 3 inches in length and a quarter inch thick. Very productive and is very hot. Especially good for making Pepper sauce. Pkt., 10c; ½ oz., 25c; oz., 40c, postpaid.

Parsnips

One ounce will sow 200 feet of drill, 5 to 6 pounds per acre. Culture. Sow as early in the Spring as the ground can be worked, in drills 18 inches apart, covering with fine soil to a depth of one-half inch. The soil should be rich and deeply dug. The quality of the roots is much improved after a severe frost; in fact, they may be allowed to remain in the ground throughout the Winter, as they are perfectly hardy.

552 HOLLOW CROWN LONG SMOOTH. (125 days.) Large, tender and sugary. One of the best. Pkt., 5c; oz., 10c; ¼ lb., 35c; ½ lb., 65c, postpaid.

554 GUERNSEY. (130 days.) Roots do not grow as long as the Hollow Crown, but are greater in diameter and more easily gathered. Excellent quality. Pkt., 5c; oz., 10c; ¼ lb., 35c; ½ lb., 65c, postpaid.

555 HAMBURG TURNIP-ROOTED. (85 days.) The root is the edible portion of this variety and resembles a small parsnip in both color and shape. Hamburg Parsley should be treated the same as Carrots. Pkt., 5c; oz., 10c; ¼ lb., 40c, postpaid.

SPECIAL POSTPAID

Highest Quality and Lowest Prices Are Always Found at May's
Peas
Northern Grown

One pound will plant 100 feet of drill.

Cultivo. For early crops, sow as early in the spring as practicable and then every 2 or 3 weeks for succession throughout the season up to the first of August. Plant in single or double rows 4 feet apart and 2 inches deep. If dry weather, soak the Peas over night before planting. Throughout the midwest extra early Peas, if planted from the 15th to the last of August, will produce a medium crop for late picking, when they will be found most acceptable. Varieties marked * are wrinkled varieties and should be sown more thickly than the smooth or round Peas, and not until the ground has become warm, as they are more liable to rot. All wrinkled sorts are much superior in flavor to the round varieties.

May’s Extra Early Varieties

171 FIRST AND BEST. (50 days.) Ripens entire crop at the same time. An excellent market Pea. A round-seeded Pea, 2 feet high. Pods are of good size, well filled. One pound of excellent flavor. Pods will average from 5 to 7 Peas each. Pkt., 7c; ½ lb., 20c; lb., 35c; 2 lbs., 65c; 5 lbs., $1.50, postpaid.

177 MAY’S EVERBEARING. (34 days.) Earliest of all. Exceptionally heavy yielder. Plant as early as you can open the ground. Very hardy, grows about 2 feet high; pods will average from 2 to 2 ½ inches in length, 4 to 6 Peas to the pod. A good variety for canning and market use. Seeds are pale bluish green. Pkt., 7c; ½ lb., 20c; lb., 35c; 2 lbs., 65c; 5 lbs., $1.50, postpaid.

Dwarf Wrinkled Varieties

175 *AMERICAN WONDER. (55 days.) A good reliable early wrinkled Pea which produces Peas of the very best quality. Seed wrinkled and pale green. Pkt., 5c; ½ lb., 25c; lb., 40c; 2 lbs., 70c; 5 lbs., $1.50, postpaid.

178 *FILLBASKET. (57 days.) Matures a day or two later than American Wonder, but is considerably larger, extremely hardy and a very heavy yielder. One of the best varieties for home use. Our best Pea. Pkt., 7c; ½ lb., 25c; lb., 40c; 2 lbs., 70c; 5 lbs., $1.50, postpaid.

180 *LITTLE MARVEL. (58 days.) The vines grow very even and uniform, about 15 inches high and produce very abundantly. Pods are well filled with delicious deep green Peas. I am sure you will be delighted with this variety. Pkt., 10c; ½ lb., 25c; lb., 45c; 2 lbs., 80c; 5 lbs., $1.75, postpaid.

182 *MAY’S EVERBEARING. Height, 2½ feet. A productive, second-early variety. Peas are large, good quality; vines grow 2 feet in height. For a continued bearer, this variety is unexcelled. Vine is close-jointed and thickly hung with round, well filled pods. 3 inches in length. Pkt., 10c; ½ lb., 25c; lb., 45c; 2 lbs., 80c; 5 lbs., $1.75, postpaid.

Midseason Peas

184 *DWARF TELEPHONE or DAISY. A medium-late Pea, makes a vigorous growth and is very productive. Pods well filled. A variety that I am sure will please you. Pkt., 10c; ½ lb., 25c; lb., 40c; 2 lbs., 70c; 5 lbs., $1.60, postpaid.

185 *TELEPHONE. (70 days.) Height, 3½ to 4 feet. Especially good main crop variety, known by everyone. Pods good size, growing in 18 to 20 pods per bush; well filled with high quality Peas. Delicious flavor. A fine Pea to grow for market. Pkt., 10c; ½ lb., 25c; lb., 40c; 2 lbs., 70c; 5 lbs., $1.60, postpaid.

188 *CHAMPION OF ENGLAND. Height, 4½ feet; growth is strong, exceedingly productive. Peas are large size and of good quality. Delicious flavor. 6 to 8 Peas to the pod. Pkt., 10c; ½ lb., 25c; lb., 40c; 2 lbs., 75c; 5 lbs., $1.65, postpaid.

Edible Pod Sugar Peas

(Use in the same manner as Wax Beans)

190 LUSCIOUS MELTING SUGAR. Large, broad pods which are so brittle that they snap without any string. Height, 5 feet. Pods when cooked are very tender, sweet and sugary. Pkt., 10c; ½ lb., 25c; lb., 45c; 2 lbs., 80c; 5 lbs., $1.75, postpaid.
Pumpkins

One ounce will plant 50 hills.

Culture. Plant in April or May among corn or in the garden in hills 8 to 10 feet apart, to give the vines plenty of room to spread. Cultivate the same as cucumbers. If bugs and worms bother, dust with Slug Shot.

**602 CONNECTICUT FIELD or BIG TOM.** (75 days.) A standard Pumpkin grown in cornfields to make feeding crop for cattle. Sometimes used for canning. Strong, vigorous grower, fruits averaging 15 to 20 inches in diameter; outside color a redish orange, and flesh orange-yellow. Pkt., 5c; ½ lb., 35c; 1 lb., $1.25, postpaid.

**604 KING OF THE MAMMOTHS or JUMBO.** (110 days.) Grows to an immense size and often weighs 100 pounds. I do not recommend this variety for home use but as a show Pumpkin it is hard to beat. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $1.50, postpaid.

**606 LARGE CHEESE.** (85 days.) Variety commonly known as a sweet Pumpkin. Large, hardy and productive; shaped flat like a cheese box. A good sort for pies as well as stock feeding. Creamy buff skin and thick, golden flesh. Extensively used for canning. Pkt., 5c; oz., 10c; ½ lb., 30c; lb., $1.00, postpaid.

**608 CUSAW or CROOKNECK.** (80 days.) Sometimes called a squash. Productive; color light green, sometimes lightly striped. Flesh salmon color, mealy and sweet. Pkt., 10c; oz., 5c; ½ lb., 30c; 1 lb., $1.25, postpaid.

**610 SMALL SUGAR PIE PUMPKIN.** Best of all. Looks like a regular field Pumpkin, but is smaller and entirely different: quality: early, of sweet, delicious flavor; excellent keeper. The most prolific grower and cannot be excelled as a table Pumpkin. Sometimes called a Red Sugar or Red Pie Pumpkin. Matures in 65 days. Pkt., 5c; oz., 15c; ¼ lb., 35c; ½ lb., $1.25; 1 lb., $2.25; 5 lbs., $5.75, postpaid.

**611 TENNESSEE SWEET POTATO.** (65 days.) Medium size and resembles a sweet potato in flavor. Pear-shaped and slightly ribbed; good keeper; flesh light color; productive and sweet. Pkt., 5c; oz., 15c; ¼ lb., 35c; ½ lb., $1.25; 1 lb., $2.25; 5 lbs., $5.75, postpaid.

**614 JAPANESE PIE.** (85 days.) Skin deep green, darker stripes turning to yellow as the fruit ripens. Flesh thick, rich salmon color; dry and sweet; makes splendid pies. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.25, postpaid.

**My “Backyard Garden Collection”**

In Europe I noticed that every one has a complete garden. I want every one here to have one too so I have made up this special collection for the fellow whose back yard is not large enough to hold my "BIG SPECIAL COLLECTION."

**Peanuts**

Culture. They require similar soil conditions to garden corn and they take about as long to grow. Remove the outer shell carefully, taking care not to damage the kernels, and sow the latter in drills 2 ½ feet apart and 1 ½ inches deep. Allow 9 inches between one nut and the next in the row. Cultivate freely. The bloom does not need to be covered. Dig before first frost and let cure under cover for two or three weeks.

**630 MAMMOTH JUMBO.** One of the most profitable to grow; easy to cultivate. Very erect stems and upright foliage; stands the heat and drought and ripens very early. Let the children grow some Peanuts. Pkt., 10c; lb., 40c; 5 lbs., $1.75, postpaid.

**Every Garden Needs “Nitragin”**

The 3-in-1 Bacteria Fertilizer for Peas, Sweet Peas and Beans

Insures a better quality, larger crops and faster growth. NITRAGIN germs feed the plant nitrogen, taking it from the air in the soil. This helps to make the plants strong and vigorous. The germs greatly multiply the nodules (lumps) on the small hairy roots. Each lump is stored up nitrogen plant food. The more lumps the more fertile the soil. You mix Nitragin with the seed and plant in the usual way. NITRAGIN is the original—(consult any library). Endorsed by Agricultural Departments, Experiment Stations and thousands of users.

**PRICE OF GARDEN PACKAGE: (Inoculates from 1 oz. up to 8 lbs. of seed), 20c.**

May's Radios—None Better; May’s Accessories—None Better. All Cost Less and Are Guaranteed.
May's Radish
One Ounce Will Sow About 100 Feet of Drill

As early in the Spring as the soil can be worked, sow any of the early round or olive-shaped varieties in rows one-half inch deep with a foot to 18 inches between the rows. Sow thinly; if seedlings appear closer than one inch apart, they should be thinned out. Hoe frequently to encourage rapid growth which insures high quality. Twenty Day Radish is the quickest maturing of all Radishes, roots are half-long, oval shaped, scarlet red with white tip. They will supply you with plenty of early Radishes. The early Spring sorts serve the purpose until June 15th when Icicle, Early Long Scarlet Short Top are at their best. The Summer varieties are good until frost from repeated plantings. The winter varieties should be pulled after a light frost and stored like beets. Both Summer and Winter radishes should be thinned to stand from 4 to 6 inches apart in the row. After the middle of May do not sow the flat, round and olive-shaped Spring kinds; sow White Icicle and Early Scarlet Turnip as these resist hot weather well. About July 1st, sow the Winter varieties. 8 to 10 pounds of seed per acre.

Early Round and Oval Varieties
A garden without Radishes would be only a loss. You can have Radishes all Summer if you plant them at intervals during the season. My Radish seed is hardy and is adapted to practically all conditions. The roots are well colored and of good shape. Sow in drills 10 to 12 inches apart. One ounce will sow 100 feet of drill, 8 to 10 pounds per acre.

640 MAY'S EARLY BIRD. (28 days.) One of the earliest Radishes; of rich color; perfect shape and good quality. Its striking rich scarlet color attracts attention everywhere. Flesh white, crisp, juicy and mild; globe shape. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.00, postpaid.

642 NEW CRIMSON GIANT. (32 days.) A new, early Radish of good size and suitable for forcing or for early planting outdoors. Flesh is purest white, mild in flavor, firm and crisp, remaining in excellent condition longer than other sorts. This is one of the best Radishes. I am sure you will like it. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., 90c, postpaid.

644 FRENCH BREAKFAST. (25 days.) A favorite with all. I think this is one of the best Radishes that grow. Just right for small, crisp table Radishes. Is of quick growth, oblong in shape and beautiful scarlet color with white tip. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., 90c, postpaid.

646 EARLY SCARLET TURNIP. (25 days.) Round, red, turnip-shape with small top; early variety with rich color. I am sure you will like it as it is crisp and brittle. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.10, postpaid.

648 TWENTY DAY. (20 days.) The quickest maturing of all Radishes in existence. Roots are half-long, oval-shaped, scarlet-red, white tip. After 20 days, two fine, small leaves only. On account of its earli ness, very tender, tasteful and solid. Sure yielder. Pkt., 15c, 2 for 25c; oz., 35c; ¼ lb., 90c, postpaid.

Early Long Radishes
654 MAY'S WHITE ICICLE. An extra early, long, white Radish. Long and slender, pure white roots, mild and crisp, and grow to a large size. One of the best varieties for the home garden. I am sure if you try Icicle that you will always plant it. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.10, postpaid.

655 EARLY LONG SCARLET SHORT TOP. (28 days.) Grows 6 to 7 inches long; bright scarlet; very brittle and crisp; a rapid grower. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., $1.10, postpaid.

658 EARLY SCARLET TURNIP WHITE TIP. (28 days.) Bright red with a pure white tip; flesh white, crisp and of good flavor. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.10, postpaid.

Summer Varieties
660 LONG WHITE VIENNA. Good sort for main crop. Ready for table in 35 days. Both skin and flesh are pure snow-white; crisp, brittle and a rapid grower; longer roots than Icicle and tops are also larger. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.15, postpaid.

666 CALIFORNIA MAMMOTH WHITE. Very large and one of the best of the Winter varieties. Pure white; flesh tender and crisp. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.10, postpaid.

668 CHINA ROSE. Grows larger than the Spanish variety; rose color; flesh white; mild for Winter Radish; very fine when cooked. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.10, postpaid.

670 LONG BLACK SPANISH. The best keeper of all. Skin black, flesh white. Grows quite long, somewhat sharp in taste. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.10, postpaid.

Long Keeping Winter Radishes
672 ROUND BLACK SPANISH. Globe shape, 3 to 4 inches in diameter; skin black, flesh white. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.10, postpaid.

I Get Hundreds of Letters Telling Me That My Tires Wear Better Than Any
Spinach

One ounce will sow about 100 feet of drill; 10 pounds per acre.

Culture. Sow in March or April in drills an inch deep and 14 inches apart. Again in August or September. Spinach delights in very rich soil. In fact, it is of no use sowing in a poor one. Sow in rows one foot apart and one inch deep.

914 BLOOMSALE. The earliest variety and one of the best to plant in Autumn for early Spring use. Leaves are curled like those of Savoy cabbage. Pkt., 15c; ½ lb., 75c; lb., $2.35, postpaid.

915 LONG STANDING or THICK LEAVED. (45 days.) Fine market sort. Leaves large and somewhat crumpled. Does not run to seed early. Pkt., 5c; oz., 10c; ½ lb., 25c; lb., 90c, postpaid.

Salsify or Vegetable Oyster

One ounce will sow about 50 feet of drill.

Culture. Sow the seed early in the Spring in drills 12 inches apart and one inch deep, the rows being 3 to 4 feet apart. Fruits grow from 3 to 4 feet in length and 4 to 6 inches in diameter. They are used in the same manner as squashes and egg plant, being sliced and fried. I could not grow enough seed last year to supply near all my orders on New Guinea Gourd Bean. This Bean is sure a wonder and I am sure you will like it. You should try this Bean for it is both useful and ornamental. Pkt., 15c; 3 pkt., 40c, postpaid.

Tobacco

One ounce will sow about 25 square feet and will produce enough plants for one acre.

Sow under glass during February. In early June plant out 3 feet apart each way.

900 HAVANA. Well known large-leaf variety, especially good for the manufacture of cigars. Pkt., 10c; oz., 40c; ½ lb., 70c; lb., $1.50, postpaid.

Herbs—Odds and Ends

910 MAY’S NEW GUINEA GOURD BEANS. Weigh 15 pounds or more each. The vines will climb an arbor or any support to a height of 20 to 30 feet or run along fences. Fruits grow from 3 to 4 feet in length and 4 to 6 inches in diameter. They are used in the same manner as squashes and egg plant, being sliced and fried. I could not grow enough seed last year to supply near all my orders on New Guinea Gourd Bean. This Bean is sure a wonder and I am sure you will like it. You should try this Bean for it is both useful and ornamental. Pkt., 15c; 3 pkt., 40c, postpaid.

914 BROCCOLI. St. Valentine. Similar to Cauliflower in appearance and quality. This variety is grown extensively for shipping to eastern markets when Cauliflower is exhausted. Pkt., 10c; oz., 50c, postpaid.

920 BRUSSELS SPROUTS. Perfect form. Small sprouts or heads resembling miniature cabbage. Heavy yielder and of fine quality. One of the best varieties of Sprouts. Pkt., 10c; oz., 15c; ½ lb., 50c, postpaid.

922 LAVENDER (Lavandula Vera). Perennial grown for leaves and flowers which are dried and placed in closets to scent linens. Pkt., 10c, postpaid.

923 SWEET MARJORAM (Origanum Marjoram). Is used fresh or dry for seasoning sauces, soups, etc. Pkt., 5c, postpaid.

925 CRASS or PEPPER GRASS. Extra Curly. A desirable, strong-leaved variety. Pkt., 5c; oz., 10c; ½ lb., 25c, postpaid.

940 LENTILS. An annual resembling peas, with round, flat seeds, which are used in soups and in making a delicious dish. Extensively used in the South. Pkt., 5c; ½ lb., 25c; lb., 60c, postpaid.

943 KALE or BORECITE. Tall Green Curled. About 2 feet high with numerous dark green, curled leaves. Pkt., 10c; oz., 25c; ½ lb., 90c, postpaid.

I Pass Every Saving On to My Customers. That is Why Prices Are So Low at May’s.
Squash

One ounce of early Squash will plant about 25 hills;
one ounce of Marrow Squash will plant about 50 hills.

Squash seed succeeds best in good, rich soil. It is not advisable to plant before May 15. Plant in hills 4 to 5 feet apart, for bush varieties, and for the running varieties, 7 to 8 feet apart. Put 6 to 10 seeds in a hill, finally thinning out to 3 to 4 plants. Winter Squashes may be grown in the corn fields the same as pumpkin. Use "Evergreen" for Squash beetle. One ounce of seed will plant about 25 hills, and 5 to 6 pounds per acre.

Summer or Early Varieties

710 GIANT SUMMER CROOKNECK. A popular yellow Crookneck. Bigger, more uniform, with heavily warted shell and deep golden yellow flesh. Ready for table in 55 days. Pkt., 5¢; oz., 15¢; ¼ lb., 40¢; lb., $1.20, postpaid.

714 GOLDEN BUSH SCALLOP. (55 days.) Early, flat, scallop variety; skin deep yellow; flesh pale yellow; well flavored. Pkt., 5¢; oz., 15¢; ¼ lb., 40¢; lb., $1.20, postpaid.

716 WHITE BUSH SCALLOP. (55 days.) Well known patty-pan Squash. One of the earliest and very productive; cream color. Pkt., 5¢; oz., 15¢; ¼ lb., 40¢; lb., $1.20, postpaid.

Fall or Winter Varieties

720 CHICAGO WARTED HUBBARD. (65 days.) Excellent for Winter use. Vines are healthy, strong and very productive; producing large quantities of dark green fruits; flesh very rich golden yellow, fine grained and dry. A variety that is reliable and known by all. Pkt., 5¢; oz., 15¢; ¼ lb., 40¢; lb., $1.25, postpaid.

722 MAY’S GOLDEN HUBBARD. (65 days.) One of the best Winter Squashes for home use. Warted but smaller in size, a trifle earlier; skin is bright deep orange-yellow; flesh is deep golden yellow, fine grained. Yields extra heavy and of the very best quality. Pkt., 5¢; oz., 15¢; ¼ lb., 40¢; lb., $1.40, postpaid.

724 BANANA. (110 days.) Fruit whitish-green; 2 to 3 feet long, fine flavor. Fine, mealy texture, flesh thick and tender, deep golden yellow. Pkt., 5¢; oz., 20¢; ¼ lb., 50¢; lb., $1.50, postpaid.

726 NEW SQUASH, KITCHENETTE. In size, the Kitchenette runs evenly 5 to 7 pounds. Just right for the average family. Each Squash resembles almost precisely every other one, not only in size but every other way. Compares favorably with the heaviest cropping Hubbards. The Kitchenette can be depended upon to ripen within about six weeks of blossoming. This insures a complete ripened crop at almost any point within the United States and even part of Canada. Probably because of this complete maturitiy, they may be kept very nearly as easily as potatoes. By keeping them stored in a large pile on the floor of an ordinary basement, one has no trouble to keep them safely into the Spring. As they keep, the quality, which is splendid even early in the Fall, becomes superb. They cook up mealy and dry, with a delicious, nutty flavor. Pkt., 10¢; oz., 20¢; ¼ lb., 50¢; lb., $1.50, postpaid.

728 SIBLEY (Pike’s Peak). (65 days.) Pear-shaped, with stem on large end; skin smooth, pale green; flesh, orange color, very dry, rich and good flavor. Excellent keeper. Pkt., 5¢; oz., 15¢; ¼ lb., 40¢; lb., $1.20, postpaid.

NEW TABLE QUEEN. Here is a Squash that is a dandy. Cut in half and bake for twenty minutes it will give you a delicious meal, and if you like pie, try one from Table Queen. This is one of the best quality Squashes. Vines very vigorous and productive, and a tremendously heavy yielder. Fruit nice size to handle, 6 to 7 inches long, 4 to 5 inches in diameter. Shell is hard and smooth, good keeper. Color dark green and sometimes a blotch of red at the pointed end. Table Queen ripens in the Fall. Pkt., 5¢; oz., 15¢; ¼ lb., 40¢; lb., $1.25, postpaid.

732 WINTER CROOKNECK. (65 days.) Fruits long with crooked neck, skin dark green and sometimes with blotches of yellow; fine keeper. Pkt., 5¢; oz., 15¢; ¼ lb., 35¢; lb., $1.15, postpaid.

Table Queen Squash

Giant Summer Crookneck Squash

Golden Bush Scallop Squash

Don’t Forget to Order Some of My 100% Popping Corn
Tomatoes

One Ounce Will Produce About 2000 Plants

Culture. The seed may be sown in a hot-bed about the second week of February up until the end of April in drills 5 inches apart and one-half inch deep. When the plants are about 2 inches high, they should be transplanted about 4 inches apart or planted in 4-inch pots, allowing a single plant to the pot. About May 15th, the plants may be set in the open ground 3 feet apart. Water freely at the time of transplanting. Sufficient plants for a small garden may be started by sowing a few seeds in a shallow box or flower box, placing it in a sunny window. For final seeding, it is not too late to sow seed during June using early varieties and sowing in the open ground. The quality of the fruit is improved if the vines are tied to a trellis or stakes. If it is necessary to spray, use Bordeaux Mixture to prevent disease and with arsenate of lead or EVERGREEN to keep off Tomato worms.

766 MAYS EXTRA EARLY BOUNTIFUL. I have been growing my Bountiful Tomato on May View Trial Grounds for several years and I have found it to be one of the best Tomatoes on the market. It produces perfectly, smooth-skinned, beautiful red Tomatoes in about 40 days from transplanting. It is not unusual to get seventy-five Tomatoes from one plant. When dead ripe, May’s Bountiful will not burst. It has a very rich, deep red color, mild and good flavor. Pkt., 15c; ½ oz., 35c; oz., 65c, postpaid. (Illustrated in color on back cover.)

758 BARLIANA. (90 days.) Early, smooth-skinned Tomato. Vines are small but vigorous and productive. Tomatoes scarlet color and borne in clusters near the base of the plant. Pkt., 5c; ½ oz., 20c; oz., 35c, postpaid.

750 JOHN BAER. (95 days.) Fruits are large, early, practically round and of good quality. A good canning variety. Pkt., 10c; ¼ oz., 20c; oz., 45c, postpaid.

752 DWARF CHAMPION (Tree Tomato). (110 days.) Main crop variety. Large, very evenly with solid and firm flesh. Used extensively for canning. Pkt., 5c; ½ oz., 20c; oz., 35c, postpaid.

Get Rid of Sparrow Pests

This is the sparrow trap about which you have heard over radio KMA. It certainly catches and exterminates the English sparrow pest as we have found by using one here at the seedhouse. Our record is 40 in one day. Complete directions come with the trap. $4.50, postpaid.

For Good Farm Seeds Send to Earl E. May
Turnips

One ounce will sow 150 feet of drill.

Culture. For early Turnips, sow as soon as the ground opens in the Spring. Rutabagas should be sown from any time in July to the first of August, but other kinds for Winter use may be sown from the middle of July to the end of August. Turnips are generally sown broadcast, but larger crops are obtained by cultivating in drills 18 inches apart. One pound of seed to the acre, if in drills. If sown broadcast, 2 to 3 pounds per acre. Three tons of Turnips or Rutabagas are worth as much as one ton of alfalfa hay.

May's Rainbow Collection of Gladioli

This famous mixture will include practically all colors of the rainbow. Guaranteed to give satisfaction to those who want all colors for their Summer bouquets. They are the ideal cut flower for the busy man or woman. 50 blooming size bulbs for $1.00, postpaid.

Rutabagas

Should be sown a few weeks earlier than Turnips, in drills 2½ feet apart, covering about one-half inch deep. When the roots are full grown, pull them before freezing. Cut off tops and store them in the cellar for Winter use.

Purple Top Rutabaga

Folks Send Us Their Checks and We Fill in the Amount. That's Confidence for You
LAWN SEED—The Best there is

I Make It Easy for You to Have a Good Lawn

THE making of a new lawn is not at all difficult, if you follow these instructions:

(1) Dig the soil about six inches deep, but only when it is dry. If rain has fallen recently, allow a few days of fine weather to elapse before commencing work.

(2) As you dig, lift each clod high enough to enable you to turn it completely over.

(3) Strike the inverted clod with the back of the fork to break it.

(4) As the work proceeds, remove all stones, sticks and rubbish.

(5) Scatter bone meal or sheep manure on the dug earth. Use one ton per acre, or one pound to each 25 square feet.

(6) Draw a rake back and forth until the soil is smooth and in fine condition.

(7) Sow May Park Lawn Grass at the rate of 100 pounds per acre, or (nearly two quarts) to each 400 square feet. Double the quantity when turf is needed quickly. Select a day when no wind is blowing. When you have sown the seed, rake the land once more but very lightly. Do not work the rake back and forth, merely draw it toward you in a series of light strokes, raking only once in the same place. The idea is to bury most of the grass seeds no more than one-eighth of an inch deep.

WATER WELL

(8) Roll the seeded area, but should rain fall before the work is completed, do not roll until the land has dried. By working the instructions, having fairly good soil and favorable conditions, the young seedlings show through in less than 10 days and the whole area looks green in two or three weeks. As soon as the young grass is two inches high, begin mowing it and mow it regularly. Roll it at least once a week and water during dry weather. Our May Park Lawn Grass and shady Lawn Mixture are guaranteed to have a beauty place around the Courthouse at Sidney, Iowa; about the postoffice at Shenandoah, Iowa; around the Country Clubhouse, and about many of the better homes here in Shenandoah, and our own May Park; one of the beauty spots about our administration building, is a beauty spot because of the healthy, green lawn.

For Larger Quantities

"Radio Tubes Are Wonders"

Sir:

The W. D. 12 Radio Tubes I just received from you are wonders. I have had my radio two years and can now get stations I never heard of before I got your tubes. The tubes I got from you cost just one-half what I was asked for tubes in Leavenworth, Kansas.

Your friend and listener,
Oscar Walker, Jarbalo, Kansas.
USES of Alfalfa. I have been preaching Alfalfa over the radio and through our Catalog for years and intend to continue because Alfalfa is the greatest legume for hay yield and feeding value. Helps balance the ration when fed in conjunction with corn. Alfalfa yields the best hay in the world. Alfalfa is fine for dairy cows, beef cattle, horses, sheep, poultry and all farm animals. As a soil builder, Alfalfa is valuable because of the long roots which penetrate oftentimes 25 feet underground. The roots store up nitrogen taken from the air and then decay adding humus to the soil.

Write for my free Alfalfa Booklet.

Rate of Seeding. 15 to 20 pounds per acre.

Time of Seeding. From March to the last of September according to locality.

Preparation of Seed Bed. Have your ground well prepared, packed well with a roller and leave a dust mulch on the surface.

Method of Seeding. Either alone or with a nurse crop. Seeded in April or May with a bushel of Oats, Wheat or Barley per acre will give satisfactory results. Seeded in this manner the nurse crop can be cut in the milk stage for hay. From May until the last of September seed alone. By either method the seed should be rolled in. Seeding in the spring will give a cutting of hay in August besides a cutting of hay is secured from the nurse crop of Oats, Wheat or Barley. Don't cover too deep.

Inoculation. Alfalfa seed should be inoculated with NITRAGIN. Alfalfa seed is not plentiful but is in great demand and is worth the difference in price. Makes wonderful hog pasture because of the large crowds and for this same reason produces a larger tonnage of hay. An extra cutting may be secured in late September without danger from winter killing.

COSSACK CERTIFIED. Our supply of this variety traces directly to the original seed of Cossack brought from eastern Siberia by Prof. N. E. Hansen. A hardy type producing a branched root system and a large spreading crown. The blossoms vary in color from white to shades of darkest blue with many yellow variegations. For exposed locations Cossack is best. Where the water level is high or a hard pan sub-soil exists Cossack is the best variety to seed. It costs a little more because seed is not plentiful but is in great demand and is worth the difference in price. Makes wonderful hog pasture because of the large crowds and for this same reason produces a larger tonnage of hay. An extra cutting may be secured in late September without danger from winter killing.

Varieties of Seed. Seed grown in a dry climate vary in color from white to shades of darkest blue with many yellow variegations. For exposed locations Cossack is best. Where the water level is high or a hard pan sub-soil exists Cossack is the best variety to seed. It costs a little more because seed is not plentiful but is in great demand and is worth the difference in price. Makes wonderful hog pasture because of the large crowds and for this same reason produces a larger tonnage of hay. An extra cutting may be secured in late September without danger from winter killing.

SO. DAKOTA No. 12. We thoroughly believe in this hardy strain of common Alfalfa, the old standby Dakota No. 12. Our seed of this variety comes from western South Dakota and is taken from fields 15 to 20 years old which shows just how hardy this variety is. For a moderate priced Alfalfa which has proven satisfactory in our corn belt climate, one which will produce 3 or 4 cuttings of high quality hay per season, you may rely on Dakota No. 12.

CANADIAN VARIEGATED. Also called Ontario Variegated. A new and popular variety coming rapidly into favor. State Experiment Stations, agricultural leaders and farm papers are giving much attention to Canadian Variegated and their comments are very favorable toward this new variety. Quite similar to the old standby Dakota No. 12 in manner of growth though the roots are more inclined to branch than Dakota No. 12. Blossom also slightly variegated. Apparently a very hardy strain and one well worth trying in the corn belt.

NEBRASKA-KANSAS. A variety for use in Missouri, Kansas, southern Iowa and southern Nebraska which has proven very satisfactory where unusual soil conditions are not a factor. We have bright clean seed, free from noxious weeds, grown on non-irrigated land and it has that plumness of berry and a high germination and purity which assures you of getting a real value in Alfalfa.

A good farm deserves May's good seeds.

Northern Grown ALFALFA The Best Crop on the Farm

My Seeds are sold subject to your test and approval. If in your judgment they are unsatisfactory return them to us within ten days and I will make full refund.

I exercise the greatest care to send you the best, but I cannot guarantee the crop, productiveness, or any other matter either express or implied, as there are too many things affecting them beyond my control.

Northern Grown ALFALFA The Best Crop on the Farm

GRIMM CERTIFIED. A similar variety to Cossack. Has variegated blossoms with blue predominating. Has a characteristic branching root system, underground bud and a large spreading crown which makes this the hardest variety known. Our Grimm is produced on non-irrigated fields. If you are troubled with the common Alfalfa winter killing try our genuine Certified Grimm. We can furnish grower's affidavit and certificate of genuineness if desired. We strongly recommend Grimm to our friends if soil and climatic conditions warrant the use of a hardy variety.

COSSACK CERTIFIED. Our supply of this variety traces directly to the original seed of Cossack brought from eastern Siberia by Prof. N. E. Hansen. A hardy type producing a branched root system and a large spreading crown. The blossoms vary in color from white to shades of darkest blue with many yellow variegations. For exposed locations Cossack is best. Where the water level is high or a hard pan sub-soil exists Cossack is the best variety to seed. It costs a little more because seed is not plentiful but is in great demand and is worth the difference in price. Makes wonderful hog pasture because of the large crowds and for this same reason produces a larger tonnage of hay. An extra cutting may be secured in late September without danger from winter killing.

SO. DAKOTA No. 12. We thoroughly believe in this hardy strain of common Alfalfa, the old standby Dakota No. 12. Our seed of this variety comes from western South Dakota and is taken from fields 15 to 20 years old which shows just how hardy this variety is. For a moderate priced Alfalfa which has proven satisfactory in our corn belt climate, one which will produce 3 or 4 cuttings of high quality hay per season, you may rely on Dakota No. 12.

PRICES: See May's Wholesale Price Sheet enclosed for prices.

Inoculate Your Alfalfa Seed, Clovers and Beans with NITRAGIN.
Sweet Clover

EVENTUALLY you will grow Sweet Clover, why not now? Sweet Clover is the greatest legume crop of all time. It will stand more bad weather, greater variation in seeding methods than any other legume crop. However, on acid soil. This very valuable crop can be seeded in your stubble, can be sown with wheat or oats in the spring, can be seeded down in corn in the fall, or can be sown in late winter. Much is also sown on late winter snows. Sweet Clover is the greatest soil builder known as it can be plowed under for green manure, can be cut down this amount about one-third. It need to be prepared as well as Alfalfa. Seed at the rate of 15 pounds per acre anytime during the year. If you are going to sow Sweet Clover with a nurse crop, cut down this amount about one-third. It should be seeded broadcast, or can be broadcast and rolled in.

METHOD OF SEEDING

Sweet Clover needs a firm seed bed. It does not need to be prepared as well as Alfalfa. Seed at the rate of 15 pounds per acre anytime during the year. If you are going to sow Sweet Clover with a nurse crop, cut down this amount about one-third. It should be seeded broadcast, or can be broadcast and rolled in.

VARIETIES

WHITE BLOSSOM SWEET CLOVER. The white flowered biennal is of value primarily for building up the land and enriching the soil. It is seeded the first year and cut as pasture. White Blossom is the primary grower, often attaining four feet in height in the course of a growing season. My prices are very low for hulled and scarified seed.

YELLOW BLOSSOM SWEET CLOVER. The yellow flowered biennal grows finer and more spreading than the white and is preferred by some for pasture, hay and seed. It makes growth and sets seed more quickly than White Blossom. As pasture, it is unexcelled for that purpose. We can furnish you Yellow Blossom Sweet Clover in hulled and scarified seed, which has a higher percentage of germination and germinates quicker than unhulled seed.

GRUNDY COUNTY SWEET CLOVER, DWARF WHITE. Earlier maturing than the common kind, a more even grower, with bushy, compact habit resembling the Yellow Blossom; seed is smaller, does not require clipping back before the seed crop is harvested. Twelve pounds is plenty per acre. Write for my free Sweet Clover Booklet, and samples.

"WE HAVE THE BEST, WE KNOW BY TEST."

PRICES:

Refer to May's wholesale Price Sheet Enclosed.

Red Clover

Red Clover is short crop, better buy now at these low prices.

COMMON OR MEDIUM RED. A staple, dependable crop for hay and pasture, giving two cuttings of hay per season. Will make a good hay and a seed crop. Seeding of Red Clover is made in the spring but can be seeded in July and August. This is a special heavy seeded variety. Live stock relish Red Clover. 8 pounds per acre is the usual amount. We have home grown seed, new home grown seed, Alaska, and other varieties. This is a new crop, and absolutely free of any noxious weed seed. We advise seeding about 4 pounds per acre.

Often called Swedish Clover. Aliske thrives on low wet ground and is the only legume which likes water to a large extent. It has a high thin ground top, sometimes does quite well. It is a small, little goes a long way and should be seeded at the rate of 20 to 25 pounds per acre. Aliske makes a good mixture with Timothy or other grasses, and provides a highly nutritious and easily digested food for live stock.

SUDAN GRASS

For quick pasture and catch crop, plant Sudan. Sudan Grass can be seeded anytime from the first of May until the 20th of July and provides pasture 30 days from seeding. Also valuable for hay, the average yield being about four tons per acre. Seed Sudan Grass at the rate of 20 to 25 pounds per acre, drilled, or 25 to 30 pounds per acre broadcast. Sudan is a hot, dry weather plant and will produce a crop when all other pastures fail. Our Sudan Grass seed comes from Minnesota and Wisconsin. It succeeds well on thin soil. Sudan Grass can be seeded anytime from the first of May until the 20th of July and provides pasture 30 days from seeding. Also valuable for hay, the average yield being about four tons per acre. Seed Sudan Grass at the rate of 20 to 25 pounds per acre, drilled, or 25 to 30 pounds per acre broadcast. Sudan is a hot, dry weather plant and will produce a crop when all other pastures fail. Our Sudan Grass seed comes from Minnesota and Wisconsin. It succeeds well on thin soil.

ALSIKE CLOVER

We have well known and time tested varieties, Ito San, Manchu, Midwest and Virginia. For a quick legume hay crop or hogging down you will like Soys. We have Soy Beans and Cow Peas, which can be planted in early corn, early hay and is an excellent hog pasture. Grows 36 inches high.

MANCHU. Matures in 105 days, a heavy seed producer, can be planted in early corn, early hay and is an excellent hog pasture. Grows 36 inches high.

MIDWEST. Matures in 115 days, grows 36 inches high. A highly nutritious and easily digested food for live stock.

VIRGINIA. Matures in 125 days, grows about 50 inches high. A fair number of hay and a seed crop. Seeding of Red Clover a

For Larger Crops in Garden and Field

GROW legumes—Alfalfa, Clovers, Soys, Vetch, Peas and Beans—for valuable feed crops, soil improvers, cover crops; BUT BE SURE TO INOCULATE THEM WITH NITRAGIN. Inoculated legumes draw valuable nitrogen from the air—not the soil—increase yield and quality of the crop, and leave a rich store of nitrogen in the legume plant. Nitrogenous nodules where nitrogen is stored, on the roots of the legume plant, and without which the legume is valueless as a soil builder. A Nitratin inoculated legume crop bears heavy nodules and pays big in increased soil fertility.

The seed is inoculated with Nitratin, a substance which ensures a big crop.

(Always state kind of seed you want to inoculate.)

Don't Forget Harness Bill When Ordering the New Harness. See Page 103
May's Pasture Grasses

See May's Money-Saving Prices

**MAY'S LOWLAND MIXTURE.** Thrives on low, wet, poorly drained soil. Is adapted for hay and pasture adapted for low land. Use 20 pounds per acre.

**MAY'S HIGHLAND MIXTURE.** Very similar to the above mixture with the addition of the finer grasses suited for high ground. Requires about 12 pounds per acre or with Red Clover or Alsike. Timothy can be seeded with a grain crop either in the Spring or Fall and produces a reliable and narrow hay crop. We have combined 15 grasses and clovers in this mixture. Sow about 25 pounds to the acre.

**TIMOTHY.** This is the old standby for hay and pasture. Can be sown alone at the rate of 10 to 12 pounds per acre or with Red Clover or Alsike. Timothy can be followed by a cultivated crop. One acre of Rape will pasture 36 head of sheep two months.

**TIMOTHY-ALSIKE MIXTURE.** An excellent mixture producing hay and pasture valuable for general live stock feeding. Commonly sown at the rate of 12 to 15 pounds per acre. Our Timothy-Red Clover Mixture contains 25% Red Clover and helps to balance the grain ration in stock feeding by providing sufficient roughage.

**BROMUS GRASS.** Our seed of this valuable forage crop is grown in North Dakota and will provide nutrients pasture and hay. Does well on thin soil or can be seeded on waste land which is too rough to cultivate. Valuable for preventing soil washing or erosion and should be seeded in newly dug ditches for that purpose. A mixture of 20 pounds Brome Grass and 12 pounds of Yellow Blossom Sweet Clover has proven a splendid combination for pasture or hay that will withstand excessive rainfall or prolonged drought. Can be readily plowed up and is completely eradicated if followed by a cultivated crop. We advise 25 pounds per acre.

**MEADOW FESCUE OR ENGLISH BLUE GRASS.** Sow 15 pounds per acre along with Spring grain or alone.

**ORCHARD GRASS.** Sow 15 to 20 pounds per acre. A vigorous grower in shady places such as orchards and groves.

**MILLETT.** German or Common, all kinds. Also Kaflir Corn.

**DWARF ESSEX RAPE.** Rape seeded early in the Spring will make fine pasture in 35 days from seeding at the time when hogs are in need of green pasture. Also sow when the corn is laid by. Eight pounds of seed per acre ahead of cultivators. One acre of Rape will pasture 36 head of sheep two months.

**Our Creed—Good Seed**—You Buy it Direct and Save.
Fertilizers for Plants, Lawn and Garden

Temley's Watch-em-Grow Plant Food
A wonderfully quick-acting, perfectly compound Plant Food giving us one of the best balanced fertilizers possible to secure.

Use it on your house plants, as follows: Dissolve a teaspoonful of hot water, afterwards pouring this into one gallon of cool water. Water your plants with this mixture. For a six inch pot plant, use a pint of mixture once each week until you note improvement; then once in two weeks, and occasionally thereafter.

In repotting plants, use a teaspoonful dry, thoroughly mixed throughout four quarters of potting soil.

In the garden, it may be used in the same way as recommended for pot plants.

Large 8-oz. Can 50c Satisfaction Guaranteed

I Advise Every Farmer to Use Semesan

Semesan Junior is the best seed disinfectant as tests have proven. Easy to use—costs only 2c per acre—mighty cheap crop insurance.

Prevents all fungus diseases—crown, root and stalk rots from entering the seed coat. 1 lb. treats 5 to 8 bushes.

Semesan Bel does for Potatoes what Semesan Jr. does for seed corn. Dust or liquid treatment. Does all I claim. 1 lb. treats 9 to 12 bushels. Easy to use and fully guaranteed.

Semesan is used for other agricultural seeds. Use it on all garden seeds. A 2-oz. Can will treat 30 lbs. of seed.

Tried and Tested—

Little Putnam Stove
Made of galvanized iron 9 inches in diameter, 4 inches high. Oil tank holds three pints, and burns 3 to 4 weeks without refilling, trimming of wick, or other attention. Lasts a lifetime. Can be used with any water can, crock or fountain in poultry house to keep water from freezing, also to heat home-made oat sprouter. Absolutely fire-safe and non-explosive. Runs all winter. Can be used with any water can, by Express or Freight, f. o. b.

Putnam Brooder Heater
Made entirely of brass and galvanized iron, practically indestructible. Burns 8 to 14 days on one 5 lbs. of seed. Oil tank holds three pints, and burns 3 to 11 days on 1 lb. of seed. $2.50; 500 lbs. $11.50; 1000 lbs., $21.00. Quantities not marked postpaid are f. o. b. Shenandoah, customer to pay transportation charges.

I Guarantee

Moles, Squirrels and Crows won't eat seed corn when

Crow-Tox is used.
Here's what you've been looking for! Absolutely protects seed corn from crows, moles, blackbirds, squirrels, gophers, etc. Also aids and hastens germination which means larger yields per acre. You don't have to replant corn now because of any animals—if you use Crow-Tox. I guarantee it to do all I claim. Priced at $1.50 per can postpaid. One can treats 2 bushes or enough for 10 acres.

$1.50 per can postpaid. $18.00 per case of 14 postpaid.
Endorsed by leading Agriculturalists—Listen in to our talks on Crow-Tox over K-M-A.

Flu Nip—A Good Household Remedy
This wonderful remedy fills a long felt want in treating the following forms of inflammation and congestion. This salve wonderful in the treatment of cough, pneumonia, Tonsilitis, Bronchitis, Whooping Cough, and Asthma, Pleurisy, La Grippe, Deep chest Colds, Catarrh, Neuralgia, Headache, sore throat, congestion of the muscles, and of the lungs. Flu Nip also will be found very effective in the treatment of old sores, Piles, Burns, Pimples, etc.

Complete directions on each bottle. We could give you hundreds of testimonials if we had the space to do so. Write Me How You Like the Programs from K-M-A.
May's Baby Chick Hatchery
We Ship Quality Baby Chicks Anywhere and Everywhere
100% Live Arrival Guaranteed

My chicks are from healthy matured stock and are very closely culled both for laying and for show qualities. Because my chicks are hatched right and from eggs that come from strong, sturdy, farm range stock, you can be sure that these chicks will develop rapidly into big, husky birds.

Our baby chicks are shipped prepaid parcel post, and we guarantee 100 per cent live arrival of every shipment. If, for any reason, shipment arrives in bad condition, get a statement from your postmaster as to the amount of loss and condition of chicks. Chick orders are booked in rotation as they are received; consequently I suggest you place your order far ahead of shipping date and you will be sure not to miss out on your chicks when you are ready for them. If possible, name your second choice, as I may be able to ship it sooner than your first choice.

Remember, we only ship chicks that are strong, healthy, and from thoroughbred flocks and extra selected eggs.

If possible, give us from twenty to thirty days time when placing your order. Cash in full or one-fourth the amount must accompany the order, balance payable ten days before shipping date.

Our chicks are hatched by the direct air-cooled system. Satisfied customers are our best ad. Three-fourths of the chicks we sold last year went to customers who purchased from us before.

Reasonable prices on May's quality chicks. I guarantee every chick pure-bred.

Leacox Poultry Wormer
Either in Liquid for flock treatment, or capsules for individual use.

Now you can free your poultry of worms with an average cost of less per bird. This means healthy fowls, more weight, greater egg production and more profits. We will be glad to have the opportunity to prove this to you if you will only try The Leacox Way.

Our chicks are hatched by the direct air-cooled system. Satisfied customers are our best ad. Three-fourths of the chicks we sold last year went to customers who purchased from us before.

Leacox Poultry Wormer Liquid Form
For Flock Treatment. At New Reduced prices.
You mix this liquid with mash and feed to your entire flock. No stirring, no extra work, just feed as you ordinarily do.

Pint can enough for 65 grown or 130 halfgrown birds $1.50.
Quart can enough for 120 grown or 250 halfgrown birds $3.75.
1 gal. can enough for 225 grown or 450 halfgrown birds $7.50.
All postpaid

Leacox Poultry Wormer Capsules
For individual use.
Earl E. May, I tried Leacox Wormer last year, it sure does the work. Send prices and oblige. Mrs. Harry Moore.

Free Your Garden from Pests With May's Insecticides

**EVER GREEN**

**NON-POISONOUS INSECTICIDE**

EFFECTIVE against Cucumber and Melon Beetles, Cabbage Worms, Rose Slugs, Aphids, Leaf Hoppers and most other plant insects including cutworms.

NON-POISONOUS EVER GREEN kills only insects—it is harmless to man, live stock, birds and pets.

EASY TO USE—Just mix it with water and stir. No need for constant agitating—EVER GREEN stays in solution and won't clog sprayers.

**Tobacco Dust**

Tobacco dust is fine for dusting plants against lice, and also as a worm expeller for chickens. 1 lb., 15c; 5 lbs., 60c; 10 lbs., $1.00; 25 lbs., $2.25; 50 lbs., $4.00; 100 lbs., $7.50. By express F. O. B. Shenandoah.

**Perfection Sprayer**

The handiest sprayer of all to have about the place. Will handle whitewash, spray material of all kinds, disinfectants, etc. Has automatic shut-off nozzle and hose is attached at an angle so it won't kink. One pumping up of pressure discharges contents of tank. Holds about 5 gallons. Galvanized steel, $6.50; brass, $8.50, prepaid.

**Perfection Jr. Sprayer**

Same as Perfection only smaller. Capacity 3/4 gallons. Galvanized, $5.50 each. Brass, $7.50 each, postpaid.

**Cyclone Seeder**

For a handy seeder, this type is one of the best on the market. Holds one and one-half bushels. Sows all kinds of grain, grass and clover seed accurately. Has instantaneous shut-off and automatic feed adjustment. Price, $2.25 each, postpaid.

Hammond’s Slug Shot

Get a better crop of potatoes by ridding the field of potato bugs. Hammond’s Slug Shot is better than Paris Green for the reason that it is much cheaper. Slug Shot is absolutely reliable for killing cabbage worms, currant worms, all kinds of plant eating worms on cucumbers, melons, pumpkins and squashes; also slugs and chicken lice. This preparation contains fungicides and gives vigor to the plants. I believe there is more of this powder used than any other poison powder. Be sure to have a package of Slug Shot on the shelf ready for use when the bugs appear. By express or freight, 1-lb. carton, 25c each; 5-lb. bag, 65c; 10-lb. bag, $1.10; 25-lb. bag, $2.50.

Horn Seed Sower

This Sower is used with great success by farmers everywhere for sowing all kinds of seed broadcast. Sows all across a day and is easily and quickly adjusted to various amounts. The sack is a heavy fabric, provided with shoulder straps and holds one and one-half bushels. Price, prepaid, $1.00.

May's Sun Fabric

GLASS substitute, used extensively for scratch sheds, brooder houses, poultry houses, hot beds, cold frames, storm cloth and for enclosing porches; lets ultra violet rays through, healthful.

Even Though My Prices Are Lower, My Merchandise Is Better
Deal Direct With HARNESS BILL

World's Largest Manufacturer of Farm Harness

Save the Unnecessary Profits

Before you buy harness, get my big new free Catalog.
—Compare my harness and my prices with any other.
—See for yourself what a big difference it makes to you to deal direct with Harness Bill.

I Guarantee to Please You

I have pleased the enormous number of farmers who use my HARNESS BILL Harness. I guarantee to please you. I will send you, all at my risk, any harness you select from my Catalog, for you to examine. Pay only if you decide to keep it. It won't cost you a cent to see it.

This year, especially, you should see my harness and my prices. Write today. Just say—Send Free Harness Catalog.

Omaha Tanning Co.
W. C. (HARNESS BILL) KALASH, President
27th and N Streets • Omaha, Nebraska

A Word from EARL E. MAY

Just before this Catalog went to press, I had a long talk with Harness Bill. He is in a most favorable position. His enormous business—world's largest manufacturer of farm harness—and his way of dealing, give him tremendous advantages. He assured me he is going to share his good fortune with his farm customers.

I know Harness Bill Kalash like a brother—know his aims and ideals, and his policies. When Harness Bill assured me he is going to give his farmer customers even bigger values than ever before, I know that he is going to do just what he says.

That's why I have given this whole page in my seed and nursery stock catalog to Harness Bill's Harness. I want my own friends to have the big saving on harness which Harness Bill makes possible for the farmer.

Write to Harness Bill for a copy of his new Catalog. Mention me, if you wish. But be sure you take advantage of his big saving. Write him now.
Sincerely,
EARL E. MAY
